2015-2016 Regular Sessions

IN SENATE

February 20, 2015

Introduced by Sen. PERKINS -- read twice and ordered printed, and when printed to be committed to the Committee on Judiciary

AN ACT to amend the eminent domain procedure law and the New York state urban development corporation act, in relation to defining blight; and to repeal certain provisions of the New York state urban development corporation act relating thereto

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

Section 1. Legislative findings and intent. The legislature hereby finds and declares that eminent domain, while a meaningful tool for government to move forward on important projects, has come under a great deal of criticism in recent years for many alleged abuses that have occurred within the state of New York. Traditionally, the right of eminent domain, or the state's ability to seize private land was limited for "public use". However, over the years, phrases such as "public use" and "blighted" have taken on more expansive meanings.

Since Kelo v. City of New London, the 2005 decision in which the U.S. Supreme Court approved the forcible transfer of property from one private owner to another in the name of "economic development", forty-three states have passed eminent domain reform legislation. New York has thus far failed to take such action but continues again and again to approve eminent domain condemnation for projects that benefit private entities at the public's expense. A 2009 report by the Institute for Justice entitled "Building Empires, Destroying Homes: Eminent Domain Abuse in New York" detailed widespread eminent domain abuse throughout the state.

18 the state. 19 Furthermore, two recent court decisions, Goldstein v. New York State 20 Urban Development Corporation and Kaur v. New York State Urban Develop-

ment Corporation demonstrate the need to balance the rights of property owners without stifling positive economic development programs. Instead,

owners without stifling positive economic development programs. Instead, New Yorkers suffer under an inequitable system of eminent domain laws

that greatly favors private developers partnered with public actors at the expense of homeowners, businesses, and tenants.

The use of "blight" as a basis for condemnation is vaguely defined and in need of clarification. Under the loose standards of existing law practically anything can qualify as blighted. Consequently it is imperative that the legislature enact objective criteria to ensure that blight determinations are consistent, predictable, and based on factors actually related to the public's health and safety. There also needs to be better protections in place so that tenants and low income residents are ensured that they are not excluded from the development process.

As Judge Catterson notes for the majority in the Kaur decision, it has been well documented that the urban renewal schemes of the 1950s and 1960s displaced millions of people and destroyed hundreds of neighborhoods. By and far, these programs disproportionately harmed low income and minority families. Legislative reforms are needed to prevent a repeat of these injustices. It is now time for New York to make the necessary reforms that will ensure a fair and equitable use of our eminent domain laws.

RENDERING IT BLIGHTED UNDER SUBDIVISION (A) OF THIS SECTION MUST BE IDENTIFIED.

- DECLARATION MADE PURSUANT TO SUBDIVISION (D) OF THIS SECTION ANY SHALL BE VALID FOR A PERIOD OF TEN YEARS.
- S 5. Section 2 of section 1 of chapter 174 of the laws of constituting the New York state urban development corporation act, the ninth undesignated paragraph as added by chapter 280 of the laws of 1984 and the tenth undesignated paragraph as amended by chapter 747 of laws of 2005, is amended to read as follows:
- Statement of legislative findings and purposes. It is hereby found and declared that there exists in [urban] SOME areas of this state a condition of substantial and persistent unemployment and underemployment which causes hardship to many individuals and families, wastes vital human resources, increases the public assistance burdens of state and municipalities, impairs the security of family life, contributes to the growth of crime and delinquency, prevents many of our youth from finishing their educations, impedes the economic and physical development of municipalities and adversely affects the welfare and prosperity of all the people of the state. [Many existing industrial, manufacturing and commercial facilities in such urban areas are obsolete and inefficient, dilapidated, and without adequate mass transportation facilities and public services. Many of such facilities are underutilized or in the process of being vacated, creating additional unemployment. Technological advances and the provision of modern, efficient 24 facilities in other states will speed the obsolescence and abandonment existing facilities causing serious injury to the economy of the state. Many existing and planned industrial, manufacturing and commercial facilities are, moreover, far from or not easily accessible to the places of residence of substantial numbers of unemployed persons. result, problems of chronic unemployment are not being alleviated but are aggravated. New industrial, manufacturing and commercial facilities required to attract and house new industries and thereby to reduce the hazards of unemployment. The unaided efforts of private enterprise have not met and cannot meet the needs of providing such facilities due to problems encountered in assembling suitable building sites]

IT IS FURTHER FOUND AND DECLARED THAT THE UNAIDED EFFORTS OF INDUSTRIAL, MANUFACTURING AND COMMERCIAL BUSINESSES ARE NEGATIVELY AFFECTED BY AGING AND INEFFICIENT FACILITIES, DIFFICULTIES INFINDING SUITABLE BUILDING SITES FOR NEW FACILITIES, lack of adequate public services, the unavailability of private capital for development [in such urban areas], and the inability of private enterprise alone to plan[,] AND finance DEVELOPMENT and TO coordinate [industrial and commercial development] SUCH DEVELOPMENT with [residential developments for persons and families of low income and with] AFFORDABLE HOUSING DEVELOPMENT, COMMUNITY DEVELOPMENT PROGRAMS, public services and mass transportation facilities.

It is further found and declared that there exist in many municipalities within this state [residential, nonresidential, commercial, industrial or vacant areas, and combinations thereof, which are slum or blighted, or which are becoming slum or blighted areas because of insanitary, deteriorated or deteriorating conditions, including obsolete and dilapidated buildings and structures, defective construction, outmoded design, lack of proper sanitary facilities or adequate fire or safety protection, excessive land coverage, insufficient light and ventilation, excessive population density, illegal uses and conversions, inadequate maintenance, buildings abandoned or not

utilized in whole or substantial part, obsolete systems of utilities, poorly or improperly designed street patterns and intersections, inadequate access to areas, traffic congestion hazardous to the public safety, lack of suitable off-street parking, inadequate loading and unloading facilities, impractical street widths, sizes and shapes, blocks and lots of irregular form, shape or insufficient size, width or depth, unsuitable topography, subsoil or other physical conditions, all of] BLIGHTED PROPERTIES AND BLIGHTED AREAS, WHICH ARE CHARACTERIZED BY PREMISES UNFIT FOR HUMAN HABITATION AND DANGEROUS TO LIFE AND PROPERTY, AND which hamper or impede proper and economic development of such areas and which impair or arrest the sound growth of the area, community or municipality, and the state as a whole.

It is further found and declared that there is a serious need throughout the state for adequate educational, recreational, cultural and other community facilities, the lack of which threatens and adversely affects the health, safety[, morals] and welfare of the people of the state.

It is further found and declared that there continues to exist throughout the state a seriously inadequate supply of [safe and sanitary] DECENT dwelling accommodations for persons and families of low income. This condition is contrary to the public interest and threatens the health, safety, welfare, comfort and security of the people of the state. The ordinary operations of private enterprise cannot provide an adequate supply of safe and sanitary dwelling accommodations [at rentals] which persons and families of low income can afford.

IT IS FURTHER FOUND AND DECLARED THAT THERE IS AN URGENT NEED TO PROTECT AND ENHANCE THE QUALITY OF THE NATURAL ENVIRONMENT, TO ENCOURAGE THE DEVELOPMENT AND EXPANSION OF EXISTING AND ALTERNATIVE SOURCES OF ENERGY AND THE CONSERVATION OF ENERGY, AND TO ABATE AND PREVENT THE GENERATION OF HAZARDOUS WASTE, TOXIC BY-PRODUCTS, AND OTHER TYPES OF ENVIRONMENTAL POLLUTION.

is hereby declared to be the policy of the state to promote a vigorous and growing economy, to prevent economic stagnation and encourage the creation of new job opportunities in order to protect against the hazards of unemployment, reduce the level of public assistance to now indigent individuals and families, increase revenues to the state and to its municipalities and to achieve stable and diversified local economies. In furtherance of these goals, it is the policy of the state to retain existing industries and to attract new industries through the acquisition, construction, FINANCING, reconstruction and rehabilitation of industrial and manufacturing plants and facilities, and to develop sites for new industrial and commercial building. It is further declared to be the policy of the state to promote the development of such plants and facilities, reasonably accessible to residential facilities, in those areas where substantial unemployment or underemployment exists, to the end that the industrial and commercial development [of our urban areas] will proceed in sound fashion and in coordination with development of housing, mass transportation and public services, and that job opportunities will be available those areas where people lack jobs.

It is further declared to be the policy of the state to promote the safety, health[, morals] and welfare of the people of the state and to promote the sound growth and development of our municipalities through the [correction of such substandard, insanitary, blighted, deteriorated or deteriorating conditions, factors and characteristics by the clearance, replanning, reconstruction, redevelopment, rehabilitation, restoration or conservation of such areas,] REDEVELOPMENT OF BLIGHTED AREAS

It is further declared to be the policy of the state to promote the safety, health[, morals] and welfare of the people of the state through the provision of adequate, safe and sanitary dwelling accommodations and facilities incidental or appurtenant thereto for persons and families of low income.

For these purposes, there should be created a corporate governmental agency to be known as the "New York state urban development corporation" which, through issuance of bonds and notes to the private, investing public, by encouraging maximum participation by the private sector of the economy, including the sale or lease of the corporation's interest in projects at the earliest time deemed feasible, and through participation in programs undertaken by the state, its agencies and subdivisions, and by municipalities and the federal government, may provide or obtain the capital resources necessary to acquire, construct, reconstruct, rehabilitate or improve such industrial, manufacturing, commercial, educational, recreational and cultural facilities, and housing accommodations for persons and families of low income, and facilities
