FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

This bill will allow members of certain public retirement systems who are currently employed by a school district, a board of cooperative educational service, a vocational education and extension board, an institution for the deaf and blind or as an institutional teacher to receive up to five years of service credit in such public retirement systems for employment as a teacher in private schools in New York State. The additional service credit granted pursuant to this legislation shall constitute service credit solely for the purpose of computing the pension payable upon retirement, and shall not be used to determine eligibility for a service benefit. For certain individuals, member contributions will be required to be paid to obtain such additional service credit. Tier 6 members would be required to make a payment of six percent of current compensation per year of additional service credit granted by this bill. Members of all other tiers would be required to make a payment of three percent of current compensation per year of additional service credit granted by this bill.

If this bill is enacted, insofar as it affects the New York State and Local Employees' Retirement System (ERS), it is estimated that the past service cost will average approximately 15% (12% for Tier 6) of an affected members' compensation for each year of additional service credit that is purchased.

The exact number of current members as well as future members who could be affected by this legislation cannot be readily determined.

Pursuant to Section 25 of the Retirement and Social Security Law, the past service cost for the ERS will be borne entirely by the State of New York and would require an itemized appropriation sufficient to pay the cost of the provision. Since a member can apply for this service credit at any time prior to retirement, a precise cost can't be determined until each member, as well as future members, applies for the service credit. Every year a cost will be determined (and billed to the state) based on those benefiting from this provision.
