9 by chapter 815 of the laws of 1984, is amended to read as follows:

10 2. A city having a population of one million or more. No public munic-
11 ipal street utility or improvement shall be constructed by any city
12 having a population of one million or more in any street or highway
13 until it has become a public street or highway and is duly placed on the
14 official map or plan, with the exception that a city may construct
15 improvements and provide services to any public way (mapped or unmapped)
16 if the public way has been open and in use to the public for a minimum
17 of ten years. The existence of the public way must be attested to by
18 documents satisfactory to the municipality, such as reports of city
19 agencies providing municipal services. No certificate of occupancy shall
20 be issued in such city for any building unless a street or highway
21 giving access to such structure has been duly placed on the official map
22 or plan, which street or highway, and any other mapped street or highway
23 abutting such building or structure shall have been suitably improved to
24 the satisfaction of the department of transportation of the city in
25 accordance with standards and specifications approved by such department
26 as adequate in respect to the public health, safety and general welfare
27 for the special circumstances of the particular street or highway, or,
28 alternately, unless the owner has furnished to the department of trans-
29 portation of such city a performance bond naming the city as obligee,
30 approved by such department, to the full cost of such improvement as
31 estimated by such department, or other security approved by such depart-
32 ment, that such improvement will be completed within the time specified
33 by such department. If such improvement has not been installed within
34 the time specified by such department, such department may declare such
35 performance bond or other security to be in default and shall collect,
36 in the name of the city, the sum remaining payable thereunder. Upon
37 receipt of the proceeds thereof, the city shall install such improve-
38 ment. If the cost of such improvement exceeds the sum remaining payable
39 under such bond or other security, the owner shall be liable for and
40 shall pay to the city, the amount of such excess. Where the enforcement
41 of the provisions of this section would entail practical difficulty or
42 unnecessary hardship, and where the circumstances of the case do not
43 require the structure to be related to existing or proposed streets or
44 highways, the applicant for such a certificate of occupancy may appeal
45 from the decision of the administrative officer having charge of the
46 issuance of certificates of occupancy to the [board of standards and
47 appeals or other similar board] COMMISSIONER OF THE DEPARTMENT OF CITY
48 PLANNING OR SUCH OTHER OFFICER OR BOARD of such city having power to
49 make variances or exceptions in zoning regulations, and the same
50 provisions are hereby applied to such appeals [and to such board] as are
51 provided in cases of appeals on zoning regulations. The [board] COMMIS-
52 SIONER OR OTHER OFFICER OR BOARD may in passing on such appeal make any
53 reasonable exception and issue the certificate of occupancy subject to
54 conditions that will protect any future street or highway layout. Any
55 such decision shall be subject to review under the provisions of article
56 seventy-eight of the civil practice law and rules. No permit shall be

1 granted for the erection of any building or structure in such city
2 unless the owner has furnished to the commissioner of transportation of
3 such city a policy of liability insurance, marked paid, in such amounts
4 as may be fixed by such department, insuring, indemnifying and saving
5 the city harmless from any claims, suits, demands, causes of action and
6 judgments by reason of personal injuries sustained by any person or
7 persons, including death, and from any claims, suits, demands, causes of
8 action and judgments for damages to property, occurring on any such
9 street or highway giving access to or abutting such structure, up to the
10 date of the issuance of the certificate of occupancy or up to the date
11 of the completion of the improvement of such street or highway as
12 required by or pursuant to this section, whichever is later. In the
13 event that the owner is covered by such a policy of liability insurance,
14 the department of transportation may accept a certificate of endorsement
15 extending such policy to include and cover the city. Every permit
16 issued for the erection of any such building or structure shall contain
17 a statement that no certificate of occupancy will be issued with respect
18 to such building or structure unless a street or highway giving access
19 to such structure has been duly placed on the official map or plan,
20 which street or highway and any other mapped street or highway abutting
21 such building or structure shall have been suitably improved to the
22 satisfaction of the department of transportation of the city in accord-
23 ance with standards and specifications approved by such department as
24 adequate in respect to the public health, safety and general welfare for
25 the special circumstances of the particular street or highway or, alter-
26 nately, unless the owner has furnished to the department of transporta-
27 tion a performance bond naming the city as obligee, approved by such
28 department, sufficient to cover the full cost of such improvement as
29 estimated by such department, or other security approved by such depart-
30 ment, that such improvement will be completed within the time specified
31 by such department.

32 S 22. Notwithstanding any inconsistent provision of law to the contra-
33 ry, all functions, powers, duties and obligations of the board of stand-
34 ards and appeals of the city of New York as they related to the zoning
35 or building code or regulations of the city of New York shall be trans-
36 ferred to the department of city planning of the city of New York,
37 unless otherwise specified by law.

38 S 23. All rules, regulations, acts, orders, determinations and deci-
39 sions of the board of standards and appeals of the city of New York in
40 force at the time of such transfer and assumption, shall continue in
41 force and effect as rules, regulations, acts, orders, determinations and
42 decisions of the department of city planning of the city of New York
43 until duly modified or abrogated.

44 S 24. This act shall take effect on the ninetieth day after it shall
45 have become a law.
