o. Power Authority of the State of New York

Any application made concerning a project shall include the terms, conditions and dates of the repayment of state appropriations authorized by law pursuant to a repayment agreement. Any subsidiary of, or corporation with the same members or directors as, a public benefit corporation subject to the provisions of this section shall also be subject to the provisions of this section. All applications and submissions to the board required to be made by a subsidiary shall be made on behalf of such subsidiary by the public benefit corporation which created the subsidiary. No public benefit corporation subject to the provisions of this section shall make any commitment, enter into any agreement or incur any indebtedness for the purpose of acquiring, constructing, or financing any project unless prior approval has been received from the board by such public benefit corporation as provided herein.

- 3. The board may approve applications only upon its determination that, with relation to any proposed project, there are commitments of funds sufficient to finance the acquisition and construction of such project. In determining the sufficiency of commitments of funds, the board may consider commitments of funds, projections of fees or other revenues and security, which may, in the discretion of the board, include collateral security sufficient to retire a proposed indebtedness or protect or indemnify against potential liabilities proposed to be undertaken. In reviewing an application from the Long Island Power Authority, the North Country Power Authority or the Power Authority of the State of New York for the approval of any project related to energy generation or transmission, in addition to determining the sufficiency of commitments of funds and any other required reviews, the board may consider the consistency of the project with the current state energy plan and other state environmental and energy-related policies. A copy of such determination shall be submitted to the chief executive officer of the appropriate public benefit corporation and the state comptroller.
- \S 2. The public authorities law is amended by adding a new section \S 1005-e to read as follows:
 - § 1005-e. Approval of certain actions by the public authorities control board. The authority shall not make any commitment, enter into any agreement nor incur any indebtedness unless prior approval has been received from the New York state public authorities control board pursuant to article one-A of this chapter.
 - § 3. This act shall take effect immediately.
