20 have become physically or mentally incapacitated during the performance
21 of duties, and the performance of such duties was the natural and proxi-
22 mate cause of such injury. This subdivision shall also apply to any
23 sheriff, deputy sheriff, undersheriff or correction officer who becomes
24 physically or mentally incapacitated during the performance of duties
25 when such physical or mental incapacitation was the result of any act of
26 any inmate or any person confined in an institution under the jurisdic-
27 tion of such county.

1 f. The retirement allowance payable upon retirement for disability
2 incurred in the performance of duty shall consist of a pension of [~~one-~~
3 ~~half~~] three-quarters of his or her final average salary plus an annuity,
4 subject to section sixty-four of this chapter, which shall be the actu-
5 arial equivalent of the member's accumulated contributions, if any.

6 § 3. This act shall take effect immediately.

FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

This bill would allow any sheriff, deputy sheriff, undersheriff or correction officer who is currently covered under the provisions of Section 607-c of the Retirement and Social Security Law (RSSL) who is disabled in the performance of duty to receive a performance of duty disability benefit of 75% of final average salary, less worker's compensation. This bill would remove the requirement that such disability is the result of an act of an inmate.

This bill would also allow any sheriff, deputy sheriff or undersheriff who is currently covered under the provisions of Article 14-B of the RSSL who is disabled in the performance of duty to receive a benefit of 75% of final average salary, less worker's compensation. Current law provides a performance of duty disability benefit of 50% of final average salary.

If this bill is enacted, there will be an increase in the annual contributions for the fiscal year ending March 31, 2019 which would depend on the retirement plan coverage of affected members. The annual increase in contributions for members covered under Article 14-B would be approximately 0.7% of affected payroll. The annual increase in contributions for members who are not covered under Article 14-B and whose employer has elected to provide the benefits of Section 607-c would be approximately 3.9% of affected payroll.

In addition to the annual costs above, there will be an immediate one-time past service cost which we anticipate will be approximately 4.2% of the payroll of the affected members who are covered under Article 14-B, and approximately 24.7% of the payroll of the affected members who are not covered under Article 14-B and whose employers have elected to provide the benefits of Section 607-c. These costs would be paid by the employers that have already elected to provide the benefits of Section 607-c or Article 14-B.
