Section 1. The legislature hereby finds and declares that with the increasing complexity of the American healthcare system and rapidly expanding technology, the educational preparation of the registered professional nurse must be expanded. The nurse of the future must be prepared to partner with multiple disciplines as a collaborator and manager of the complex patient care journey. Shorter lengths of stays, higher patient acuity, and more sophisticated technologies and procedures are increasing the complexity of patient care - which in turn places great demands on nursing competencies. Other countries are responding to these changes by requiring the baccalaureate degree as an

entry requirement for nursing licensure while other professions are demanding master and doctoral degrees as their entry point. Several 3 recent research studies clearly demonstrate the added value of additional education in relation to improved patient outcomes. The legisla-5 ture finds that expanding the educational requirements for the profes-6 sion of nursing, while maintaining the multiple entry points into the 7 profession, is needed. This legislation affects future nurses graduating from associate degree or diploma nursing programs who would be 8 required to obtain a baccalaureate in nursing within ten years of 9 10 initial licensure. All current nurses licensed in New York and students 11 in programs preparing for registered professional nursing are to be exempt from the new requirement. This legislation is mirrored after the progressive education requirement for teachers in New York state. Numer-12 13 ous regulatory and accrediting bodies have recommended this change as a 14 15 means to address sophisticated patient care needs resulting from shorter 16 stay, higher acuity and more sophisticated interventions. 17 This proposal is the result of a growing body of research evidence that 18 additional education results in better patient outcomes. Therefore by 19 requiring the baccalaureate degree for continued registration as a registered professional nurse this legislation seeks to be responsive to 20 21 meet the increasingly complex health care needs of the residents of New 22 York state. 23

- S 2. 1. A temporary commission, to be known as the nursing program evaluation commission (hereinafter "commission"), is hereby created to make recommendations on the following:
