22

e. The borrowing member's [anuity annuity savings account shall not be reduced by the loan obtained but a subsidiary record shall be maintained reflecting the outstanding balance on such loan, as well as the allocation of the payroll deductions to principal and interest. Upon the member's withdrawal of his accumulated contributions or retirement, the 9 balance due on his loan shall be deducted from the amount to his credit 10 at such time in the annuity savings fund. Upon the death of the member [prior to the loan being fully insured, that portion thereof which is 12 uninsured, shall similarly be deducted from the amount to his credit at 13 the time of his death in the annuity savings fund | the corresponding 14 survivor's benefit will be decreased in an amount prescribed by the 15 comptroller based upon an amortization schedule calculated using the amount of principal outstanding, interest rate and estimated length of 16 benefit payment as prescribed by actuarial techniques prescribed by the comptroller, until such time that all outstanding principal and interest amounts have been satisfactorily repaid.

f. In the case of any benefit wherein the amount of pension will be 21 determined, in part, by the amount of annuity, such annuity shall be computed upon the basis of accumulated contributions as if there were no loan or no additional contributions. The resulting retirement allowance 24 shall then be reduced by [the actuarial equivalent of the present value

EXPLANATION--Matter in italics (underscored) is new; matter in brackets [-] is old law to be omitted.
