S. 3225--A

A. 2671--A

2017-2018 Regular Sessions

SENATE - ASSEMBLY

January 20, 2017

- IN SENATE -- Introduced by Sen. LAVALLE -- read twice and ordered printed, and when printed to be committed to the Committee on Local Government -- recommitted to the Committee on Local Government in accordance with Senate Rule 6, sec. 8 -- committee discharged, bill amended, ordered reprinted as amended and recommitted to said committee
- IN ASSEMBLY -- Introduced by M. of A. THIELE, PALUMBO -- read once and referred to the Committee on Local Governments -- recommitted to the Committee on Transportation in accordance with Assembly Rule 3, sec. 2 -- committee discharged, bill amended, ordered reprinted as amended and recommitted to said committee
- AN ACT to amend the general municipal law, in relation to creating the Peconic Bay regional transportation council; and providing for the repeal of such provisions upon expiration thereof

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

1 Section 1. Legislative findings. The legislature hereby finds that 2 over the past thirty years, rapid growth and development in the Peconic 3 Bay region of Long Island, while providing for a successful economy, has 4 also resulted in some unavoidable, adverse impacts that threaten the 5 region's future quality of life and future economic prosperity. Traffic 6 congestion has been one of the primary adverse impacts from such rapid 7 development.

8 Expanding traffic congestion has resulted in deteriorating traffic 9 safety with increased traffic accidents and fatalities. In addition, 10 traffic congestion has resulted in increased trip delays, declining air 11 quality, adverse impacts to historic and rural resources in the region's 12 villages and hamlets, parking problems, adverse impacts to residential 13 communities and neighborhoods resulting from the diversion of traffic 14 from major highways and arteries to rural residential streets and roads.

EXPLANATION--Matter in <u>italics</u> (underscored) is new; matter in brackets [-] is old law to be omitted.

LBD04084-02-8

The region's tourist and second home industries, the cornerstone of its prosperity, are threatened if the adverse consequences of traffic congestion are not promptly and adequately addressed. Further, projections from the state department of transportation and local governments indicate that there will be a continued growth in year-round population, seasonal residents, and traffic into the foreseeable future, exacerbating an already major problem.

8 The legislature finds that the unique geography of the Peconic Bay 9 region limits the ability to expand highway capacity for motor vehicles. 10 The narrow forks limit the augmentation of future highway capacity in an 11 east-west direction. The construction of new highways is not a feasible alternative, and the option of improving capacity on existing highways 12 13 limited. In addition to unique geography, impacts to the region's is 14 natural and historic resources, such as open space, farmland, watershed 15 areas, wetlands, and historic sites and landmarks also limit increasing 16 highway capacity.

While the region's highway infrastructure is severely overburdened, its public transit capabilities are underdeveloped. The region possesses underutilized rail capacity with minimal service from the Long Island Rail Road to the region.

The legislature finds that the development of new public transit opportunities for the Peconic Bay region represents the best alternative to address growing traffic congestion and other transportation problems. The region possesses an existing rail infrastructure. Existing service to the region is minimal. Further, there is no coordination between rail service and existing bus service. The opportunity to improve service is clearly available.

The region's local governments have recognized the adverse impacts resulting from growing traffic congestion and the need to explore other transportation options such as public transit. Independently, the comprehensive plans of the region's towns and villages have cited traffic congestion as a critical problem and have identified improved public transit as a future goal. Towns have created task forces and commissions to address the transportation issue.

35 Further, collectively, as a region, the local governments have joined 36 together to explore public transit options to mitigate traffic 37 congestion. As early as 1994, the East End Economic and Environmental 38 Institute, under the auspices of the East End Mayors and Supervisors Association issued a report entitled Blue Print for Our Future which 39 40 called for improved and coordinated bus and rail service in the Peconic 41 Bay region.

In 2005, after a four-year public outreach process, the local governments of the region issued the result of its SEEDS (Sustainable East End Development) project. This initiative also recognized the need to create improved transportation opportunities, including selected road improvements and increased and coordinated public transit.

47 The private sector has also recognized the need for improved regional transportation opportunities. The Institute for Sustainable Development, 48 Southampton College of Long Island University, held a conference and 49 50 issued a report calling for improved transportation opportunities in the 51 region. Five Town Rural Transit, Inc., a private, not-for-profit corpo-52 ration has also recognized the need for public transit improvements. In 53 2005, they unveiled a conceptual plan for an East End Shuttle providing 54 coordinated bus and rail service, and issued a development proposal to 55 further that goal.

In 2007, the state of New York provided a \$300,000 grant under its 1 2 Shared Municipal Services Initiative (SMSI) program to study the feasibility of the East End Shuttle concept. In addition, the Long Island 3 4 Rail Road, in conjunction with the towns of Southampton and East Hampton 5 initiated a pilot program in 2007-2008 to provide a rail shuttle and б connecting bus service during the reconstruction of County Road 39. This 7 pilot program demonstrated that the rail/bus shuttle concept could be 8 successful. In 2009, the "East End Transportation Study Report", funded 9 by the SMSI program, was completed by the Volpe National Transportation 10 Systems Center, U.S. Department of Transportation. The study concluded that the East End Shuttle concept was both viable and desirable. 11 In summary, the problem of traffic congestion with its adverse impacts 12 on the local environment, economy, and quality of life has long been 13 14 recognized. Further, a multitude of local governments, regional cooper-15 ative initiatives, and private initiatives have all identified improved 16 public transit with increased and coordinated rail and bus service as the cornerstone for solving the problem. The concept has been at the 17 18 center of public policy discussions for more than a decade. 19 The next step is the full development of the East End Shuttle concept 20 in order to implement new transit opportunities in a timely fashion. 21 Currently, no governmental entity exists which can coordinate the 22 multitude of local governments, state government, federal government, 23 and other stakeholders that must participate to implement a successful 24 public transit initiative for the Peconic Bay region. 25 It is the intent of the legislature with this act to provide the 26 necessary governmental framework and resources that will foster the 27 cooperation necessary to implement a public transit proposal for the Peconic Bay region. This legislation will give the local governments the 28 regional framework to develop and implement this initiative, and will 29 30 mandate the cooperation of state and federal agencies. Further, it will 31 provide for the involvement of all stakeholders and community members in 32 the development process to insure an open and comprehensive decision 33 making process. § 2. The general municipal law is amended by adding a new article 5-M 34 35 to read as follows: 36 ARTICLE 5-M 37 PECONIC BAY REGIONAL TRANSPORTATION COUNCIL 38 Section 119-aaa. Definitions. 119-bbb. Peconic Bay regional transportation council. 39 119-ccc. Powers and duties of the council. 40 41 119-ddd. Agency cooperation. 42 119-eee. Implementation report for the transportation plan. 43 <u>119-fff. Submission to the legislature.</u> § 119-aaa. Definitions. As used in this article the following terms 44 45 shall have the following meanings: 46 1. "Peconic Bay region" means the towns of East Hampton, Riverhead, 47 Shelter Island, Southampton, and Southold in the county of Suffolk. 48 2. "County" means the county of Suffolk. 49 3. "Municipal corporation" means a town or village in the Peconic Bay 50 region. 51 4. "State" means the state of New York. 5. "State agency" means any office, department, board, commission, 52 53 bureau, division, authority, public benefit corporation, agency or 54 instrumentality of the state. 6. "Transportation plan" means the plan of public transportation 55 56 projects for the Peconic Bay region provided for in the east end transS. 3225--A

1	
	portation study, prepared by the Volpe National Transportation Systems
2	Center, dated November, two thousand nine.
3	7. "Public transportation project" means any rapid transit, railroad,
4	omnibus, marine transportation, or other public transportation project.
5	8. "Council" means the council created pursuant to section one hundred
6	nineteen-bbb of this article.
7	9. "Governor" means the governor of the state of New York.
8	§ 119-bbb. Peconic Bay regional transportation council. 1. There is
9	hereby created the Peconic Bay regional transportation council. Such
10	council shall consist of twenty voting members: one member to be
11	appointed by the governor who will serve at the pleasure of the gover-
12	nor, and fourteen ex officio members who are the county executive of the
13	county of Suffolk, the five town supervisors from the Peconic Bay
14	region, two village mayors to be appointed by the East End Village Offi-
15	cials Association, the United States congressman representing the Pecon-
16	ic Bay region, the state senator representing the Peconic Bay region,
17	the two state assembly members representing the Peconic Bay region, and
18	the two county legislators representing the Peconic Bay region, and five
19	citizen members with an interest in transportation and public transit to
20	be appointed by the town board of each town in the Peconic Bay region.
21	Each town shall have one appointment. Each ex officio member may
22	appoint a designated representative, by official authority filed with
23	the council, to exercise his or her powers and perform his or her
24	duties, including the right to vote on matters before the council.
25	<u>2. The council shall elect one of its members as chairperson. Twelve</u>
26	members shall constitute a quorum for the transaction of any business or
27	the exercise of any power or function of the council. An affirmative
28	vote of eleven or more members shall be required to pass a resolution or
29	otherwise exercise any functions or powers of the council.
30	§ 119-ccc. Powers and duties of the council. The council shall have
31	the following powers:
32	1. to make by-laws for the regulation and management of its affairs;
32 33	
32	1. to make by-laws for the regulation and management of its affairs;
32 33	<u>1. to make by-laws for the regulation and management of its affairs;</u> 2. to establish a citizen advisory committee to assist it with its

S. 3225--A

1	§ 119-ddd. Agency cooperation. 1. Every state agency shall offer full
2	cooperation to the council in carrying out the provisions of this arti-
3	<u>cle.</u>
4	2. Every agency of the county and the municipal corporations shall
5	offer full cooperation to the council in carrying out the provisions of
б	this article.
7	<u>§ 119-eee. Implementation report for the transportation plan. 1. The</u>
8	council is hereby directed to prepare an implementation report for the
9	transportation plan for the Peconic Bay region which shall include:
10	(a) establishment of shuttle trains utilizing the existing right of
11	way of the Long Island Rail Road;
12	(b) establishment and coordination of bus transportation to complement
13	shuttle trains;
14	(c) a regional governance structure to operate the transportation
15	plan;
16	(d) establishment of park and rail facilities; and
17	(e) additional non-stop trains from New York city to the Peconic Bay
18	region.
19	2. The implementation report shall be prepared in sufficient detail
20	and specificity to permit the relevant governmental authorities to
21	proceed directly to the implementation of the transportation plan. The
22	implementation report shall establish a timetable for recommended public
23	transportation projects. The implementation report shall include a capi-
24	tal plan and budget for its implementation. The implementation report
25	shall include the assessment of environmental impacts, preliminary engi-
26	neering, and final design.
27	3. At least five public hearings, one in each town in the Peconic Bay
28	region shall be held on the final implementation plan.
29	4. A proposition to approve the implementation plan shall be submitted
30	to the voters as a referendum in each of the towns in the Peconic Bay
31	region at the general election to be held at least ninety days after the
32	completion of the public hearings provided for in subdivision three of
33	this section. Such referendum shall be deemed approved if it is approved
34	by a majority of the voters voting on such referendum in each town in
35	the Peconic Bay region.
36	§ 119-fff. Submission to the legislature. Upon approval of the plan
37 20	by referendum, such approved implementation report shall be submitted to
38 39	the legislature by the council no later than thirty days after such
39 40	<pre>approval. § 3. This act shall take effect immediately and shall remain in full</pre>
	force and effect until December 31, 2028 when upon such date the
41	Torge and effect until becember 31, 2028 when upon such date the

42 provisions of this act shall expire and be deemed repealed.
