pupils who require educational programs or services beyond those normally provided by the regular school program in order to realize their full potential. Such credit work or training shall be obtained from an institution or provider which has been approved by the department to provide such course work or training. Such regulations shall also require that school districts and boards of cooperative educational services include training for teachers and other certified or licensed employees in identifying gifted and talented, including twice exceptional, students in their required professional development plans.

§ 2. Subdivision 2-b of section 3204 of the education law is REPEALED and a new subdivision 2-b is added to read as follows:

2-b. Instruction of possibly gifted pupils. a. The governing board of any school district and any community school district is hereby directed to provide every pupil who is diagnosed as "possibly gifted" with instruction from a teacher who has had appropriate training in educating gifted pupils.

b. All school districts shall provide acceleration opportunities for pupils in the basic branches of study.

§ 3. Paragraph d of subdivision 5 of section 3208 of the education law is REPEALED and a new paragraph d is added to read as follows:

d. If such screening indicates a possibly gifted child, the name and finding shall be reported to the superintendent of schools of such district and to the parent or guardian of such child. Such notification shall entitle the child to gifted IEPs (GIEPs) developed by certified gifted and talented learning specialists, and to other services including, but not limited to, differentiated instruction, contact time, social and emotional support, academic guidance and counseling, content-based acceleration, and instruction from a teacher who has had appropriate training in educating gifted pupils, or alternative services mutually agreeable to the school district and parent or guardian of such child.

§ 4. The sum of one million dollars (\$1,000,000), or so much thereof as may be necessary, is hereby appropriated to the department of education out of any moneys in the state treasury in the general fund to the credit of the state purposes fund, not otherwise appropriated, and made immediately available, for the sole purpose of providing training for teachers in providing education to possibly gifted, including twice-exceptional pupils in the public elementary schools. Such moneys shall be payable on the audit and warrant of the comptroller on vouchers certified or approved by the commissioner of education in the manner prescribed by law.

§ 5. This act shall take effect on the one hundred twentieth day next succeeding the date on which it shall have become a law; provided, that effective immediately, the addition, amendment and/or repeal of any rule or regulation necessary for the implementation of this act on its effective date are authorized and directed to be made and completed on or before such effective date; and provided, however, that the amendments to section 3208 of the education law made by section three of this act shall not affect the expiration of such section and shall be deemed to expire therewith.
