

STATE OF NEW YORK

3414

2017-2018 Regular Sessions

IN ASSEMBLY

January 27, 2017

Introduced by M. of A. DenDEKKER -- read once and referred to the
Committee on Governmental Operations

AN ACT to amend the state technology law, in relation to creating the
resultsNY.gov website

The People of the State of New York, represented in Senate and Assem-
bly, do enact as follows:

1 Section 1. Legislative findings and declaration. The legislature here-
2 by finds and declares that many New York state agencies currently
3 provide valuable information to the public regarding policy issues and
4 government programs and initiatives. However, the public would clearly
5 benefit by having website access to important performance-based statis-
6 tics, policy issues and comparative information on a user-friendly "one
7 stop shopping" basis. Such a website would dramatically expand public
8 access to useful information and enable taxpayers to more readily review
9 and better understand the many state programs that affect the quality of
10 life such as public safety, education, energy, transportation, housing,
11 health, law enforcement and the environment. Additionally, it would
12 enhance government transparency and accountability while helping to
13 ensure the public that their taxes are being spent prudently.

14 Therefore, to achieve the above-stated intent, the legislature hereby
15 finds and declares that there be established the "resultsNY.gov" website
16 to be initiated, operated and maintained by the state office for tech-
17 nology with oversight authority by the committee on resultsNY.gov.
18 Patterned after the federal office of management and budget's Expect-
19 More.gov website, this proposal will establish a new, user-friendly
20 website that provides the public with the ability to review the perform-
21 ance of state government agencies and programs. ResultsNY.gov would
22 provide a new single access website, with specific indicators to help
23 the public determine how effectively tax dollars are being spent, and
24 how individual government programs are performing.
