§ 2. This act shall take effect immediately.

FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

FINANCIAL IMPACT - ADDITIONAL ANNUAL EMPLOYER CONTRIBUTIONS: If enacted into law, the ultimate employer cost for this proposed legislation would be based on the number, ages, years of service, and salary of those paraprofessionals that would otherwise not have elected to become members of TRS.

In order to estimate the costs associated with this group, census data of approximately 4,200 paraprofessionals who are not currently members of TRS was reviewed. Based on this data and the population of paraprofessionals who have already joined TRS, it was estimated that approximately 2,450 paraprofessionals, who would not have otherwise joined TRS, would be mandated into TRS membership if this proposed legislation is enacted. The remaining 1,750 paraprofessionals were assumed to have become members of TRS at some point in their careers even absent the proposed legislation.

Based on these assumptions and other actuarial assumptions and methods in effect for the June 30, 2017 (Lag) actuarial valuation used to determine the Preliminary Fiscal Year 2019 employer contributions for TRS, we have estimated the annual cost of this legislation to be $7.7 million for the 2,450 paraprofessionals. However, the total increase in employer contributions for Fiscal Year 2018 would be approximately $12.8 million for the entire group of approximately 4,200 paraprofessionals who would be mandated into the plan if the proposed legislation is enacted. This amount includes the estimated cost of approximately $5.1 million for the 1,750 paraprofessionals whose membership is being accelerated into TRS. These employer contribution amounts are representative of the annual employer contribution amounts for each future year if paraprofessional member participation numbers and demographic characteristics do not significantly change.

CONTRIBUTION TIMING: If enacted on or before June 30, 2018, these additional paraprofessionals would likely be included in the census data as of June 30, 2018. In accordance with the One-Year Lag Methodology used to determine employer contributions, the increase in employer contributions for TRS would first be reflected in Fiscal Year 2020.

OTHER COSTS: Not measured in this Fiscal Note are the following potential costs:

The additional administrative costs to TRS and its participating employers to implement the proposed legislation.

The impact of this proposed legislation on Other Postemployment Benefit (OPEB) costs. In order to be eligible for OPEB, a retiree must be receiving a pension from one of the New York City Retirement Systems. Therefore, there is potential for additional OPEB costs if this proposed legislation is enacted.

ACTUARIAL ASSUMPTIONS AND METHODS: The additional employer contributions presented herein have been calculated based on the same actuarial assumptions and methods in effect for the June 30, 2016 (Lag) actuarial valuation used to determine the Preliminary Fiscal Year 2018 employer contributions of TRS. Please note these assumptions and methods are subject to change as this valuation is not considered final until the end of the Fiscal Year 2018.

STATEMENT OF ACTUARIAL OPINION: I, Sherry S. Chan, am the Chief Actuary for, and independent of, the New York City Retirement Systems and Pension Funds. I am a Fellow of the Society of Actuaries, and Enrolled Actuary under the Employee Retirement Income and Security Act of 1974 (ERISA), a Member of the American Academy of Actuaries, and a Fellow of the Conference of Consulting Actuaries. I meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion contained herein.
