

STATE OF NEW YORK

8774--B

2017-2018 Regular Sessions

IN ASSEMBLY

November 3, 2017

Introduced by M. of A. L. ROSENTHAL -- read once and referred to the Committee on Correction -- committee discharged, bill amended, ordered reprinted as amended and recommitted to said committee -- recommitted to the Committee on Correction in accordance with Assembly Rule 3, sec. 2 -- committee discharged, bill amended, ordered reprinted as amended and recommitted to said committee

AN ACT to amend the correction law, in relation to the establishment of a program for the use of medication assisted treatment for inmates; and to amend the mental hygiene law, in relation to the implementation of substance use disorder treatment and transition services in jails

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. The correction law is amended by adding a new section 625 to read as follows:

§ 625. Medication assisted treatment in correctional facilities. 1. For purposes of this section "medication assisted treatment" means treatment of chemical dependence or abuse and concomitant conditions with medications requiring a prescription or order from an authorized prescribing professional.

2. (a) The commissioner, in conjunction with the office of alcoholism and substance abuse services, shall establish a program to be administered at correctional facilities within the department in the state, for the purpose of employing medication assisted treatment for inmates in such facilities who are undergoing treatment for a substance use disorder. Such program shall include all forms of medication assisted treatments approved for the treatment of a substance use disorder by the Federal Food and Drug Administration for the duration of an inmate's incarceration and shall provide an individualized treatment plan for each participant. After a medical screening, inmates who are determined to suffer from a substance use disorder, for which FDA approved addiction medications exist shall be offered placement in the medication

EXPLANATION--Matter in italics (underscored) is new; matter in brackets [-] is old law to be omitted.

LBD13428-12-8

1 assisted treatment program. Placement in such program shall not be
2 mandatory. Each participating inmate shall work with an authorized
3 specialist to determine an individualized treatment plan, including an
4 appropriate level of counseling. Decisions regarding type, dosage, or
5 duration of any medication regimen shall be made by a qualified health
6 care professional licensed or certified under title eight of the educa-
7 tion law who is authorized to administer such medication in conjunction
8 with the inmate.

9 (b) i. Such program shall also include conditions for a reentry strat-
10 egy for inmates who have participated in medication assisted treatment.
11 Such strategy shall include, but not be limited to, providing each
12 participating inmate with information on available treatment facilities
13 in their area, information on available housing and employment
14 resources, and any other information that will assist the inmate in
15 continued recovery once released. Such program shall also assist the
16 inmate in Medicaid enrollment, prior to release.

17 ii. Such program shall provide participating inmates preparing for
18 release from prison with a one-week supply of any necessary medication,
19 where permissible under federal laws and regulations to continue their
20 medication assisted treatment in an effort to prevent relapse.

21 (c) Reentry planning and community supervision should include a colla-
22 borative relationship between clinical and parole staff including shar-
23 ing of accurate information regarding the inmate's participation in
24 medication assisted treatment to ensure that their medication is not
25 deemed illicit or illegal. Additionally, procedures shall be developed
26 to assist any reentrant who communicates a relapse with their parole
27 officer or who fails a drug test, to receive substance use disorder
28 support in lieu of arrest and/or incarceration.

29 3. The commissioner shall submit within one year of the effective date
30 of this section and annually thereafter, a report to the governor, the
31 temporary president of the senate and the speaker of the assembly on the
32 effectiveness of the program established pursuant to this section. Such
33 reports shall include an analysis of the impact of such program on the
34 participating inmates, including factors such as institutional adjust-
35 ment, behavior infractions, reentry rates, HIV and hepatitis C treat-
36 ment, and program participation, among related relevant factors. The
37 reports shall also include the impact on institutional safety and
38 performance and any recommendations for additional legislative enact-
39 ments that may be needed or required to improve or enhance the program
40 as determined to be appropriate by the commissioner.

41 4. Participation in the medication assisted treatment program shall
42 not be withheld from a qualified inmate. An inmate may enter into such
43 program at any time during his or her incarceration. An inmate using
44 medication assisted treatment prior to such inmate's incarceration shall
45 be eligible to, upon request by such inmate, continue such treatment in
46 the medication assisted treatment program for any period of time during
47 the duration of such inmate's incarceration. No person shall be denied
48 participation in the program on the basis of a positive drug screening
49 upon entering custody or upon intake into the program; nor shall any
50 person receive a disciplinary infraction for such positive drug screen-
51 ing. No person shall be removed from, or denied participation in the
52 program on the basis of having received any disciplinary infraction: (a)
53 before entry into the program; or (b) during participation in the
54 program.

55 § 2. Section 45 of the correction law is amended by adding a new
56 subdivision 18 to read as follows:

1 18. Establish standards and guidelines for a program of medication
2 assisted treatment for inmates in county jails and/or county correction-
3 al facilities equivalent to the program established in state correction-
4 al facilities pursuant to section six hundred twenty-five of this chap-
5 ter and submit an annual report consistent with the requirements of
6 subdivision three of such section.

7 § 3. The mental hygiene law is amended by adding a new section
8 19.18-c to read as follows:

9 § 19.18-c Corrections-based substance use disorder treatment and transi-
10 tion services.

11 1. The commissioner, in consultation with local governmental units,
12 county sheriffs, the New York city department of corrections and other
13 stakeholders, shall implement a jail-based substance use disorder treat-
14 ment and transition services program that supports the initiation, oper-
15 ation and enhancement of substance use disorder treatment and transition
16 services for persons with substance use disorder who are incarcerated in
17 jails.

18 2. The services to be provided by such program shall be in accordance
19 with plans developed by participating local governmental units, in
20 collaboration with county sheriffs and approved by the commissioner and
21 shall include, but not be limited to, the following:

22 (a) Alcohol, benzodiazepine, heroin and opioid withdrawal management;

23 (b) All forms of medication assisted treatments approved for the
24 treatment of a substance use disorder by the Federal Food and Drug
25 Administration. Decisions regarding type, dosage, or duration of any
26 medication regimen shall be made by a qualified health care professional
27 licensed or certified under title eight of the education law who is
28 authorized to administer such medication in conjunction with the inmate;

29 (c) Group and individual counseling and clinical support;

30 (d) Peer support;

31 (e) Discharge planning; and

32 (f) Re-entry and transitional supports.

33 3. (a) After a medical screening, inmates who are determined to suffer
34 from a substance use disorder for which medication assisted treatment
35 exists shall be offered placement in the medication assisted treatment
36 program. Placement in such program shall not be mandatory.

37 (b) Participation in the medication assisted treatment program shall
38 not be unreasonably withheld from a qualified inmate. An inmate using
39 medication assisted treatment prior to such inmate's incarceration shall
40 be eligible to, upon request by such inmate, continue such treatment in
41 the medication assisted treatment program for any period of time during
42 the duration of such inmate's incarceration.

43 (c) No person shall be denied participation in the program on the
44 basis of a positive drug screening upon entering custody or upon intake
45 into the program; nor shall any person receive a disciplinary infraction
46 for such positive drug screening. No person shall be removed from, or
47 denied participation in the program on the basis of having received any
48 disciplinary infraction: (1) before entry into the program; or (2)
49 during participation in the program.

50 4. Within amounts appropriated therefor, funding shall be made avail-
51 able pursuant to criteria established by the office of alcoholism and
52 substance abuse services in consultation with local governmental units,
53 which shall take into consideration the local needs and resources as
54 identified by local governmental units, the average daily jail popu-
55 lation, the average number of persons incarcerated in the jail that

1 require substance use disorder services and such other factors as may be
2 deemed necessary.

3 § 4. This act shall take effect on the one hundred twentieth day
4 after it shall have become a law. Effective immediately, the addition,
5 amendment and/or repeal of any rule or regulation necessary for the
6 implementation of this act on its effective date are authorized to be
7 made on or before such date.
