

STATE OF NEW YORK

9529

IN ASSEMBLY

January 19, 2018

Introduced by M. of A. RYAN -- read once and referred to the Committee on Corporations, Authorities and Commissions

AN ACT to amend the public service law, in relation to providing broadband and fiber optic services

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

1 Section 1. Legislative findings. The legislature hereby finds and
2 declares that large portions of the state do not have access to broad-
3 band services, particularly fiber optic service. This has made the tele-
4 communications marketplace less competitive, and has been a partial
5 cause of deteriorated service for customers and users of regulated tele-
6 phonic and telecommunications services. This in turn has had substantial
7 negative economic and social impacts, particularly in rural and other
8 underserved communities.

9 § 2. The public service law is amended by adding a new section 224-c
10 to read as follows:

11 § 224-c. Broadband and fiber optic services. 1. The commission shall
12 determine, within six months of the effective date of this section, the
13 status of broadband and fiber optic services in New York state. The
14 commission shall identify communities without access to broadband and
15 fiber optic services, communities in which insufficient telecommuni-
16 cations service has caused social or economic impacts, communities where
17 local franchises have not been complied with, and communities in which
18 the commission believes such broadband and/or fiber optic service is
19 necessary for the successful implementation of commission policies on
20 competition, affordable, and adequate service.

21 2. The commission shall, within six months of the completion of the
22 determination of broadband and fiber optic services in New York state
23 pursuant to subdivision one of this section, require construction or
24 installation of broadband and fiber optic services by an internet
25 service provider in communities in which broadband and fiber optic
26 services are determined to be absent, insufficient, or inadequate, so as
27 to ensure the availability of broadband and fiber optic services to the
28 greatest number of New York state residents possible.

EXPLANATION--Matter in italics (underscored) is new; matter in brackets
[-] is old law to be omitted.

LBD08323-03-8

1 § 3. The article heading of article 11 of the public service law, as
2 added by chapter 83 of the laws of 1995, is amended to read as follows:

3 PROVISIONS RELATING TO CABLE TELEVISION COMPANIES

4 AND INTERNET SERVICE PROVIDERS

5 § 4. Section 212 of the public service law is amended by adding a new
6 subdivision 15 to read as follows:

7 15. "Internet service provider" shall mean any person, business or
8 organization qualified to do business in this state that provides indi-
9 viduals, corporations, or other entities with the ability to connect to
10 the internet.

11 § 5. This act shall take effect on the ninetieth day after it shall
12 have become a law.
