b. the source of the bottled water, in compliance with applicable state and federal regulations; and

- c. a clear and conspicuous statement that informs consumers about how to access water quality information contained in the bottled water report required by section three hundred fifty-l of this article.
- 2. The statement required by paragraph c of subdivision one of this section shall inform customers about methods of gaining access to the full bottled water report and include a telephone number, where information can be requested from the bottled water company and one other means of contact for the bottled water company, including, but not limited to, a mailing address, electronic mail address, or the bottled water company's internet web site. The following statement may be used to fulfill the requirements of this paragraph:
- "For more information and to obtain additional consumer information relating to water quality, including a bottled water report, contact (name of bottled water company) at (telephone number or toll-free telephone number) and (at least one of the following: mailing address, e-mail address, or the bottled water company's internet web site)."
- § 350-1. Bottled water report. 1. On or after January first, two thousand nineteen, as a condition of certification by the department pursuant to section two hundred twenty-five of the public health law, purveyors of bottled water shall annually prepare a bottled water report and shall, upon request, make such report available to consumers. Such annual report shall be prepared in English and Spanish.
- 2. For purposes of complying with this section, when bottled water comes from a municipal source, the relevant information from the annual water supply statement prepared for that year by the public water system pursuant to section eleven hundred fifty-one or eleven hundred fifty-two of the public health law, may be used.
- 3. The bottled water report shall include such information as is required in this section as well as any additional information required by the commissioner. Additionally, the statement shall provide a section which explains, in plain language, the information required in the statement, including brief and plainly worded definitions of any terms the commissioner determines to be appropriate for carrying out the purposes of this article. The department may prepare or prescribe a format or model upon which all such reports shall be produced. The annual bottled water report shall include, but not be limited to, the following items of information:
- a. a brief description of the source or sources of the water and the general qualitative and quantitative condition of the water source, consistent with applicable state and federal regulations;
- b. the analytical testing results for those constituents required to be tested for under part five of the state sanitary code or as required by appropriate local health units, except for microbiological results, for each source of water. Where more than one analysis per year is conducted on a specific constituent, the bottled water company shall list the range of results from highest to lowest during the reporting period. The applicable state guideline, standard, or maximum contaminant level for each constituent present shall be listed and any instance where a state guideline, standard, or maximum contaminant level is violated shall be noted. For microbiological analyses as required by part five of the state sanitary code, the bottled water company shall indicate any instance where the water supply violated the maximum contaminant level. The date or dates of violation, the location where
