Introduced by M. of A. ROSENTHAL, SOLAGES -- read once and referred to the Committee on Consumer Affairs and Protection

AN ACT to amend the general business law, in relation to prohibiting the manufacture, distribution and sale of toys and child care products containing phthalates

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

1 Section 1. Legislative findings. The legislature hereby finds that  
2 phthalates are a class of chemicals used in polyvinyl chloride (PVC)  
3 plastic to improve flexibility and in cosmetics to bind fragrance to the  
4 product. Phthalates are used in many products intended for use by young  
5 children including, but not limited to, teething rings, toys and soft plastic  
6 books.

7 It is further found that there is extensive scientific literature  
8 reporting the hormone disrupting effect of phthalates, and substantial  
9 evidence that levels of the phthalates of concern are found in humans at  
10 levels associated with adverse effects. Population studies show that  
11 virtually everyone carries some level of phthalates in their body. For  
12 the general population, the oral route of exposure is considered a major  
13 route.
