AN ACT establishing a temporary task force on black market cigarettes; and providing for the repeal of such provisions upon expiration thereof

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. Legislative intent. The sale of black market, untaxed cigarettes has resulted in the loss of hundreds of millions of dollars in revenue to the state, robbing state health care and programs designed to help children. According to the Tax Foundation, a Washington D.C., business-oriented tax research organization, approximately 60.9 percentage of cigarettes sold in New York were smuggled in from other states. In addition, a study conducted by John Dunham & Associates on behalf of New York Association of Convenience Stores found that state taxes were not collected on one out of every two packs of cigarettes consumed in New York State in 2011.

The widely available black market cigarettes threaten national security and public safety of New Yorkers. Investigations conducted on federal, state and local levels revealed that proceeds from black market cigarettes are used to fuel organized crime and terrorist organizations, such as Hamas and Hezbollah. In addition, this criminal activity creates imbalanced and unfair business competition for law-abiding mom and pop stores and other businesses who do pay taxes. In light of the overwhelming growth in black market cigarettes and the inherent dangers of this unbridled criminal activity, it is imperative that we make concerted

4. Four voting members of the temporary task force shall, at all times, constitute a quorum. Members shall receive no compensation for their services; members (including non-voting members) who are not governmental employees shall be reimbursed for their reasonable expenses incurred during the performance of their duties. Notwithstanding any
