AN ACT to amend the state finance law, in relation to establishing the New York state dry cask storage fund and to direct certain nuclear generating facilities to transfer certain monies in exchange for the storage of dry casks containing spent fuel

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. Short title. This act shall be known and may be cited as the "nuclear storage safety fund".

§ 2. Any nuclear facility in New York state in an emergency planning zone with a population exceeding two hundred thousand must transfer to the New York state dry cask storage fund, as established pursuant to section three of this act, $750,000 each year for each dry cask containing spent fuel that is located at the independent spent fuel storage installation at such nuclear generating facility, annually for as long as such storage container remains on site. The public service commission has the authority to order a nuclear storage increase. The fund transfer shall be made if nuclear waste is stored in a dry cask at the independent spent-fuel storage facility at such nuclear generating facility for any part of a year. Funds in the account may be expended for development of renewable energy sources specified in section 99-aa of the state finance law, as established pursuant to section three of this act; including, but not limited to, reimbursement to counties in the emergency planning zone for emergency costs; development of renewable energy for schools and municipal purposes; and twenty percent for the energy assistance program funds statewide, with a priority for schools and municipal projects.

§ 3. The state finance law is amended by adding a new section 99-aa to read as follows:

EXPLANATION--Matter in *italics* (underscored) is new; matter in brackets [-] is old law to be omitted.
