2	for services, or change of address relating to such services from any
3	municipal housing authority as set forth in article thirteen of the
4	public housing law;

12	(h) completes an application with any other state or federal agency
13	designated as a source agency pursuant to paragraph (b) of subdivision
14	three of this section.
15	3. (a) The term "source agency" includes the department of motor vehi-
16	cles, any government agency designated pursuant to section 5-211 of this
17	title, the state university of New York and the city university of New
18	York, all public housing authorities listed in article thirteen of the
19	public housing law, the department of corrections and community super-
20	vision, the department of labor, the New York division of military and
21	naval affairs and any agency designated by the state board of elections
22	pursuant to paragraph (b) of this subdivision.
23	(b) The state board of elections may designate additional state agen-
24	cies to serve as sources for voter registration. In designating an agen-
25	cy under this paragraph, the state board of elections shall consider:
26	(i) the likelihood that source records reflect a large number of
20 27	-
	eligible citizens; (ii) the extent to which source records reflect eligible citizens who
28	
29	would not otherwise be registered under the act to modernize voter
30	registration;
31	(iii) the accuracy of personal identification data in source records;
32	and
33	(iv) any additional factors designated by the chief election official
34	as reasonably related to accomplishing the purposes of the act to
35	<u>modernize voter registration.</u>
36	4. The state board of elections and the source agencies shall enter
37	into agreements to ensure that for each person described in subdivision
38	two of this section, each source agency electronically transmits to the
39	state or local boards of elections the following information in a format
40	that can be read by the computerized statewide voter registration list:
41	<u>(a) given name or names and surname or surnames;</u>

44	(d) citizenship;
45	(e) driver's license or non-driver identification card number, last
46	four digits of the person's social security number, or a space for the
47	person to indicate that he or she does not have any such number;
48	(f) political party enrollment, if any;
49	(g) an indication that the person intends to apply for an absentee
50	ballot, if any; and
51	(h) an image of the person's signature.
52	In the event that any transmission of data pursuant to this section
52 53	fails to include an image of an individual's signature, the absence of a
53 54	signature shall not preclude the registration of an eligible citizen.
55	The board of elections shall develop procedures to enable an eligible
56	citizen, whose information is transmitted pursuant to this section and

whose information lacks an electronic signature, to provide a signature 1 at the polling place or with an application for an absentee ballot 2 3 before voting. The board may require an elector who has not provided a 4 signature before arriving at the polling place or submitting an absentee 5 ballot to present a current and valid photo identification or a copy of б a current utility bill, bank statement, government check, paycheck, or 7 other government document that shows the name and address of the voter. 8 5. If an agency does not routinely request information concerning the 9 citizenship status of individuals, it shall maintain records sufficient 10 to transmit to the board of elections indications of United States citi-11 zenship for each person described in subdivision two of this section, but shall not retain, use, or share any such information relating to an 12 13 individual's citizenship for any other purpose. 14 6. The state board of elections shall prepare and distribute to participating agencies written instructions as to the implementation of 15 16 the program and shall be responsible for establishing training programs 17 for employees of source agencies listed in this section. Training shall 18 include requirements that employees of any source agency communicate to 19 each individual identified in subdivision two of this section that the 20 source agency maintains strict neutrality with respect to a person's 21 party enrollment and all persons seeking voter registration forms and information shall be advised that government services are not condi-22 tioned on being registered to vote, or eligibility to register to vote. 23 No statement shall be made nor any action taken to discourage the appli-24 25 cant from registering to vote. 26 7. The agreements between the state board of elections and the source 27 agencies shall include the format in which information will be transmitted, whether and how each entity will collect, in addition to the manda-28 29 tory information listed in subdivision four of this section, additional 30 information on a voluntary basis from persons for the purpose of facili-31 tating voter registration, the frequency of data transmissions, the procedures and other measures that will be used to ensure the security 32 33 and privacy of the information transmitted, and any other matter neces-34 sary or helpful to implement the requirements of this section. 8. Each source agency shall cooperate with the state board of 35 elections and county board of elections to facilitate the voter regis-36 tration of each person described in subdivision two of this section, and 37 38 to electronically transmit the information needed to register each such 39 person to vote or to update each such person's voter registration 40 record. 9. Each source agency shall enter into an agreement with the state 41 42 board of elections finalizing the format and content of electronic tran-43 smissions required by this section no later than September first, two 44 thousand nineteen; provided, that each source agency shall be able to 45 comply fully with all requirements of this section, including the 46 collection and transmission of all data required to register individuals 47 to vote, by January first, two thousand twenty. 10. Upon receiving information from a source agency with respect to an 48 individual, the state board of elections shall determine whether the 49 individual is included in the computerized statewide voter registration 50 51 <u>list.</u> 52 (a) If an individual for whom information is received from a source 53 agency is eligible to vote in elections for federal office in the state 54 and is not on the computerized statewide voter registration list, the state board of elections shall: (i) ensure that the individual is regis-55 56 tered to vote in such elections not later than five days after receiving

the information, without regard to whether or not the information provided by the source agency includes the individual's signature; (ii)

update the statewide computerized voter registration list to include the individual; and (iii) notify the individual that the individual is registered to vote in elections for federal office in the state.

б (b) If a source agency provides the state board of elections with 7 information with respect to an individual who did not consent to be 8 registered to vote, the state board of elections shall not take any 9 action to register the individual to vote, except that no such individ-10 ual who is already included on the computerized statewide voter regis-11 tration list shall be removed from the list solely because the information was incorrectly provided. 12

11. If an individual who is not eligible to register to vote 13 <u>in</u> 14 elections for federal office is registered to vote in such elections by the state board of elections, the individual shall not be subject to any 15 16 penalty, including the imposition of a fine or term of imprisonment, adverse treatment in any immigration or naturalization proceeding, or 17 the denial of any status under immigration laws, under any law prohibit-18 19 ing an individual who is not eligible to register to vote in elections 20 for federal office from registering to vote in such elections. Nothing 21 in this subdivision shall be construed to waive the liability of any individual who knowingly provides false information to any person 22 regarding the individual's eligibility to register to vote in elections 23 24 for federal office.

25 12. No person may use the information received by the state board of 26 elections to determine the citizenship status of any individual for 27 immigration enforcement, criminal law enforcement (other than enforcement of this chapter), or any other purpose other than voter registra-28 29 tion or election administration. No information relating to an individ-30 ual's absence from the statewide voter registration list or an 31 individual's declination to supply information for voter registration 32 purposes to a source agency may be disclosed to the public for immi-33 gration enforcement, criminal law enforcement other than enforcement of laws against election crimes, or used for any purpose other than voter 34 35 registration, election administration, or the enforcement of election 36 laws.

37 13. Voter registration information collected under this section shall 38 not be used for commercial purposes including for comparison with any existing commercial list or database. 39

<u>§ 5-232. Availability of online registration. 1. Every election</u> 40 41 district shall ensure that the following services are available to the 42 public at any time on the official public websites of the appropriate 43 local election officials in the state: online application for voter 44 registration, online assistance to applications in applying to register 45 to vote, online completion and submission by applications of the mail 46 voter registration application form pursuant to section 5-210, including 47 assistance with providing a signature in electronic form as required under section 5-234 of this title, and online receipt of completed voter 48 49 registration applications. 50 2. Any county or municipality shall accept an online voter registra-51 tion application provided by an individual under this section, and

ensure that the individual is registered to vote in the state, if (a) 52 the individual meets the same voter registration requirements applicable 53

10	the official shall send the individual a notice of the disposition of
11	the application.
12	§ 5-234. Signatures in electronic form. An individual provides a
13	signature in electronic form by executing a computerized mark in the
14	signature field on an online voter registration application; or submit-
15	ting with the application an electronic copy of the individual's hand-
16	written signature through electronic means.
17	§ 5-236. Nonpartisan manner. The services made available under this
18	title shall be provided in a manner that ensures that the online appli-
19	cation does not seek to influence an applicant's political preference or
20	party registration and there is no display on the website promoting any
21	political preference or party allegiance, except that nothing in this
22	section may be construed to prohibit an applicant from registering to
23	vote as a member of a political party.
24	§ 5-238. Protection of security information. The state board of
25	elections shall establish appropriate technological security measures to
26	prevent to the greatest extent practicable any unauthorized access to
27	information provided by individuals using the services made available
28	under section 5-232 of this title.
29	§ 5-240. Use of additional telephone-based system. The board of
30	elections shall make the services made available online under section
31	5-232 of this title available through the use of an automated tele-
32	phone-based system, subject to the same terms and conditions applicable
33	under this section to the services made available online, in addition to
34	making the services available online in accordance with the requirements
35	of this section.
36	<u>§ 5-242. Use of internet to update registration information. 1. The</u>

38	registered voter on the computerized list may at any time update the
39	voter's registration information, including the voter's address and
40	electronic mail address, online through the official public website of
41	the election official responsible for the maintenance of the list, so
42	long as the voter attests to the contents of the update by providing a
43	signature in electronic form.
44	2. If a registered voter updates registration information, the appro-
45	priate state or local election official shall revise any information on
46	the computerized list to reflect the update made by the voter; and if
47	the updated registration information affects the voter's eligibility to
48	vote in an election, ensure that the information is processed with
49	respect to the election if the voter updates the information not later
50	than seven days before the election.
51	3. Upon the online submission of updated registration information by
52 52	an individual under this section, the appropriate state or local election official shall send the individual a notice confirming receipt

List maintenance, privacy and security. 1. The state board of 11 elections shall publish on their website all standards established under this section. The state board of elections shall establish standards 12 13 governing the comparison of data on the statewide computerized voter 14 registration list, the data provided by various source agencies under section 5-200 of this title, including the specific data elements and 15 16 data matching rules to be used for purposes of determining: (a) whether 17 a data record from any source agency represents the same individual as a record in another source agency or on the statewide list; (b) whether a 18 19 data record from any source agency represents an individual already 20 registered to vote in the state; (c) whether two data records in the 21 statewide computerized voter registration list represent duplicate records for the same individual; (d) whether a data record supplied by 22 any list maintenance source represents an individual already registered 23 to vote in the state; and (e) which information will be treated as more 24 current and reliable when data records from multiple sources present 25 26 information for the same individual. 27 2. The state board of elections shall establish uniform and non-discriminatory standards describing the specific conditions under which an 28 29 individual will be determined for list maintenance purposes to be ineli-30 gible to vote in an election. 31 3. The state board of elections shall publish and enforce a privacy and security policy specifying each class of users who shall have 32 33 authorized access to the computerized statewide voter registration list, 34 specifying for each such class the permission and levels of access to be 35 granted, and setting forth other safeguards to protect the privacy and security of the information on the list. Such policy shall include secu-36 37 rity safequards to protect personal information in the data transfer 38 process, the online or telephone interface, the maintenance of the voter registration database, and audit procedures to track individual access 39 40 to the system. 41 4. The state board of elections shall establish policies and enforce-42 ment procedures to prevent unauthorized access to or use of the comput-43 erized statewide voter registration list, any list or other information 44 provided by a source agency, or any maintenance source for the list. 45 Nothing in this subdivision shall be construed to prohibit access to 46 information required for official purposes for purposes of voter regis-47 tration, election administration, and the enforcement of election laws. 48 5. The state board of elections shall establish policies and enforce-49 ment procedures to maintain security during inter-agency transfers of information required or permitted under this chapter. Each state agency 50 51 and third party participating in such inter-agency transfers of informa-52 tion shall facilitate and comply with such policies. Nothing in this 53 subdivision shall prevent a source agency from establishing and enforc-54 ing additional security measures to protect the confidentiality and integrity of inter-agency data transfers. No state or local election 55

official shall transfer or facilitate the transfer of information from 1 the computerized statewide voter registration list to any source agency. 2 3 6. Nothing in this section shall be construed to prevent a source 4 agency from contracting with a third party to assist in the transmission 5 of data to the state board of elections, so long as the data transб mission complies with the applicable requirements of this chapter. 7 7. The state board of elections shall establish standards and proce-8 dures to maintain all election records required for purposes of this 9 section. The identity of the specific source agency through which an indi-15 16 vidual consented to register to vote shall not be disclosed to the 17 public and shall not be retained after the individual is added to the computerized statewide voter registration list. 18 19 9. The state board of elections shall establish policies and enforce-20 ment procedures to ensure that personal information provided by source 21 agencies or otherwise transmitted under this section is kept confidential and is available only to authorized users. For purposes of these 22 policies and procedures, the term "personal information" means any of 23 24 the following: (a) any portion of an individual's social security number; 25 26 (b) any portion of an individual's motor vehicle driver's license 27 number or state identification card number; (c) an individual's signature; 28 29 (d) an individual's personal residence and contact information; 30 (e) sensitive information relating to persons in categories designated 31 confidential by federal or state law, including victims of domestic 32 violence or stalking, prosecutors and law enforcement personnel, and 33 participants in a witness protection program; (f) an individual's phone number; 34 35 (q) an individual's email address; 36 (h) any indication of an individual's status as a citizen or nonciti-37 zen of the United States; and 38 (i) such other information as the state board of the elections may 39 designate as confidential to the extent reasonably necessary to prevent identity theft or impersonation, except that such board may not desig-40 nate as confidential under this subdivision the name, address, or date 41 42 of registration of an individual, or where applicable, the self-identi-43 fied racial or ethnic category of the individual. 44 10. The state board of elections shall ensure that, with respect to 45 any individual who declines the opportunity to register to vote, the 46 individual's information is not included on the computerized statewide voter registration list and is not provided to a third party (except to 47 the extent required under other law). Nothing in this subdivision shall 48 be construed to preclude an individual who has previously declined the 49 opportunity to register to vote from subsequently registering to vote. 50 51 <u>§ 5-246.
