37 requisition is not approvable in accordance with the terms of the
38 contract. Notwithstanding the foregoing, where the public owner is other
39 than the city of New York and is a municipal corporation which requires
40 an elected official to approve progress payments, "promptly pay" shall
41 mean payment within forty-five days, excluding legal holidays, of
42 receipt of the requisition unless such requisition is not approvable in
43 accordance with the terms of the contract.

46 (b) Not later than forty-five business days after the date when the
47 project has reached substantial completion, the public owner shall

(c) Each public owner other than the city of New York which is required to make a payment from public funds pursuant to a contract and which does not make such contract payment by the required payment date shall make an interest payment to the contractor on the amount of the contract payment which is due unless failure to make such contract payment is the result of a lien, attachment, or other legal process against the money due said contractor, or unless the amount of the interest payment as computed in accordance with the provisions set forth hereinafter is less than ten dollars. Interest payments on amounts due to a contractor pursuant to this paragraph shall be paid to the contractor for the period beginning on the day after the required payment date and ending on the payment date for those payments required according to this section and shall be paid at the rate of interest in effect on the date when the interest payment is made. Notwithstanding any other provision of law to the contrary, interest shall be computed at the rate equal to the overpayment rate set by the commissioner of taxation and finance pursuant to subsection (e) of section one thousand ninety-six of the tax law. A pro rata share of such interest shall be paid by the contractor or subcontractor, as the case may be, to subcontractors and materialmen in a proportion equal to the percentage of their pro rata share of the contract payment. Such pro rata share of interest shall be due to such subcontractors and materialmen only for those payments which are not paid to such subcontractors and materialmen prior to the date upon which interest begins to accrue between the public owner and the contractor. Such pro rata shares of interest shall be computed daily until such payments are made to the subcontractors and materialmen.

Nothing in this paragraph shall prevent the public owner from approving the requisition, subject to receipt of the state funds. State funds shall mean monies provided to the public owner by the state, its officers, boards, departments, commissions, or a public authority and public benefit corporation, a majority of the members of which have been appointed by the governor or who serve as members by virtue of holding a civil office of the state, or a combination thereof.

§ 4. This act shall take effect immediately and shall apply to contracts entered into on and after such effective date.
