FISCAL NOTE. -- Pursuant to Legislative Law, Section 50:

SUMMARY OF BILL: This proposed legislation would amend provisions of Article 11 and 14 of the Retirement and Social Security Law to permit certain correction officer members of the New York City Employees' Retirement System (NYCERS), who are participants in the Tiers 2 and 3 Twenty-Year Improved Benefit Program for correction officers (CO-20 Plans) and such plans for ranks of correction captains and above (CC-20 Plans), and who cease to hold the title of correction officer, other than by retirement or separation with a vested benefit, on and after 15 years of credited service, to withdraw their accumulated additional member contributions (AMCs) with interest (Applicable Members). However, since there are currently no Tier 2 CO-20 or CC-20 Plan members who would be affected by this proposed legislation, the analysis contained herein is limited to Tier 3 CO-20 and CC-20 Plan members.

Effective Date: Upon enactment.

BACKGROUND: Currently, Applicable Members with less than 15 years of credited service who cease to hold the title of correction officer and

withdraw from their respective CO-20 or CC-20 Plan are eligible for a refund of AMCs. Applicable Members who have rendered 15 or more years of credited service and cease to hold the title of correction officer and withdraw from their respective CO-20 or CC-20 Plan forfeit AMCs.

AMCs are generally required for the first 20 years of credit service in the CO-20 or CC-20 Plans. For Tier 3 CO-20 Plan members first employed as a correction officer after June 30, 1988, AMCs are 3.61% of salary. AMCs for Tier 3 CC-20 Plan members first employed as a correction officer after October 31, 1992 are 7.46% of salary.

The proposed legislation would permit Applicable Members with 15 or more years of credited service to withdraw from their respective Plan and receive a refund of AMCs, with interest, upon the cessation of holding a correction officer title. Applicable Members who withdraw from their respective Plan and receive a refund of AMCs would no longer be eligible to receive a CO-20 or CC-20 Plan benefit, but may still be entitled to a benefit in an applicable underlying basic plan.

FINANCIAL IMPACT - ACTUARIAL PRESENT VALUES: Based on the census data and actuarial assumptions and methods described herein, the enactment of this proposed legislation would increase the Actuarial Present Value (APV) of Benefits (APVB) and APV of future employer contributions by approximately \$15.5 million.

Under the Entry Age Normal cost method used to determine the employer contributions to NYCERS, there would be an increase in the Unfunded Accrued Liability (UAL) of approximately \$7.6 million and an increase in the APV of future employer Normal Cost of \$7.9 million.

FINANCIAL IMPACT - ANNUAL EMPLOYER CONTRIBUTIONS: In accordance with the Administrative Code of the City of New York (ACCNY) Section 13-638.2(k-2), new UAL attributable to benefit changes are to be amortized as determined by the Actuary but generally over the remaining working lifetime of those impacted by the benefit changes. As of June 30, 2017, the remaining working lifetime of the members in CO-20 and CC-20 Plans is approximately eight years.

For the purposes of this Fiscal Note, the increase in UAL was amortized over an eight-year period (seven payments under the One-Year Lag Methodology) using level dollar payments. This payment plus the increase in the Normal Cost results in an increase in annual employer contributions of approximately \$2.5 million.

OTHER COSTS: Not measured in this Fiscal Note are the additional administrative costs of NYCERS and other New York City agencies to implement the proposed legislation.

CONTRIBUTION TIMING: For the purposes of this Fiscal Note, it is assumed that the changes in the APV of future employer contributions and annual employer contributions would be reflected for the first time in the June 30, 2017 actuarial valuation of NYCERS. In accordance with the One-Year Lag Methodology (OYLM) used to determine employer contributions, the increase in employer contributions would first be reflected in Fiscal Year 2019.

CENSUS DATA: The estimates presented herein are based on census data used in the Preliminary June 30, 2017 (Lag) actuarial valuation of NYCERS to determine Preliminary Fiscal Year 2019 employer contributions.

ACTUARIAL ASSUMPTIONS AND METHODS: The changes in the APV of future employer contributions, and annual employer contributions presented herein have been calculated based on the same actuarial assumptions and methods in effect for the June 30, 2017 (Lag) actuarial valuations used to determine the Preliminary Fiscal Year 2019 employer contributions of NYCERS. Please note these assumptions and methods are subject to change

as this valuation is not considered final until the end of Fiscal Year 2019.
