FISCAL NOTE. -- Pursuant to Legislative Law, Section 50:

This bill would grant improved disability pensions to airport fire-fighters and training and safety officers in the New York State division of military and naval affairs who sustain a disability related to heart disease, lung disease and certain forms of cancer. This bill would help individuals who sustained such disabilities to establish the presumption that they were incurred in the performance and discharge of duty, unless the contrary be proven by competent evidence. The benefit for a heart or cancer related accidental disability, or a lung disease related performance of duty disability would be 75% of final average salary (FAS) minus worker's compensation (WC).

If this bill is enacted, the disability benefits of affected members with heart, lung or certain cancer related disabilities would increase from approximately 1/3 of FAS to 75% of FAS minus WC. The estimated increase in the annual contributions of the state of New York for the fiscal year ending March 31, 2018 would be approximately \$24,000.

In addition to the annual contributions discussed above, there will be an immediate past service cost of \$202,000 which will be borne by the state of New York as a one-time payment. This estimate is based on the assumption that payment will be made on February 1, 2018.

These estimated costs are based on 61 members having an annual salary for the fiscal year ending March 31, 2016 of approximately \$3.7 million. Summary of relevant resources:
