A participant in the twenty-five year improved benefit retirement program shall contribute additional member contributions until the later of (i) the date as of which he or she is eligible to retire with twenty-five years of credited service under such retirement program, or (ii) the first anniversary of the starting date of the twenty-five year improved benefit retirement program. The additional contributions required by this paragraph shall be in lieu of additional member contributions required by subdivision d of section four hundred forty-five-d of this article, as added by chapter ninety-six of the laws of nineteen hundred ninety-five, and no member paying additional contributions pursuant to this section shall be required to pay additional contributions pursuant to such subdivision d of section four hundred forty-five-d of this article.

3. (i) Subject to the provisions of subparagraph (ii) of this paragraph, where any additional member contributions required by paragraph

one of this subdivision are not paid by deductions from a participant's compensation pursuant to paragraph two of this subdivision:

(A) that participant shall be charged with a contribution deficiency consisting of such unpaid amounts, together with interest thereon, compounded annually; and

(B) such interest on each amount of undeducted contributions shall accrue from the end of the payroll period for which such amount would have been deducted from compensation if he or she had been a participant at the beginning of that payroll period and such deductions had been required for such payroll period until such amount is paid to the retirement system; and

(C) (1)interest on each such amount included in such participant's contribution deficiency pursuant to this subparagraph shall be calculated as if such additional member contributions never had been paid by such participant, and such interest shall accrue from the end of the payroll period to which an amount of such additional member contributions is attributable, compounded annually, until such amount is paid to the retirement system.

(2) the rate of interest to be applied to each such amount during the period for which interest accrues on that amount shall be equal to the rate or rates of interest required by law to be used during that same period to credit interest on the accumulated deductions of retirement system members.

(ii) Except as provided in subparagraph (iii) of this paragraph, no interest shall be due on any unpaid additional contributions which are not attributable to the period prior to the first full payroll period referred to in paragraph two of this subdivision.

(iii) Should any person who, pursuant to paragraph seven of this subdivision, has withdrawn any additional member contributions (and any interest paid thereon) again become a participant in the twenty-five year improved benefit retirement program pursuant to paragraph five of subdivision b of this section, an appropriate amount shall be included in such participant's contribution deficiency (including interest thereon as calculated pursuant to subclause two of clause (C) of subparagraph (i) of this paragraph) for any credited service with respect to which such person received a refund of additional member contributions (including any amount of an unpaid loan balance deemed to have been returned to such person pursuant to paragraph seven of this subdivision), as if such additional member contributions never had been paid.

4. The board of trustees of the retirement system may, consistent with the provisions of this subdivision, promulgate regulations for the payment of the additional member contributions required by this subdivision, and any interest thereon, by a participant in the twenty-five year improved benefit retirement program (including the deduction of such contributions, and any interest thereon, from his or her compensation).

5. Where a participant who is otherwise eligible for service retirement pursuant to subdivision c of this section did not, prior to the effective date of retirement, pay the entire amount of a contribution deficiency chargeable to him or her pursuant to paragraph three of this subdivision, or repay the entire amount of a loan of his or her additional member contributions pursuant to paragraph eight of this subdivision (including accrued interest on such loan), that participant, nevertheless, shall be eligible to retire pursuant to subdivision c of this section, provided, however, that where such participant is not entitled to a refund of additional member contributions pursuant to paragraph seven of this subdivision, such participant's service retirement benefit

calculated pursuant to the applicable provisions of subdivision c of this section shall be reduced by a life annuity (calculated in accordance with the method set forth in subdivision i of section six hundred thirteen-b of this chapter) which is actuarially equivalent to:

(i) the amount of any unpaid contribution deficiency chargeable to such member pursuant to paragraph three of this subdivision; plus

(ii) the amount of any unpaid balance of a loan of his or her additional member contributions pursuant to paragraph eight of this subdivision (including accrued interest on such loan).

6. Subject to the provisions of paragraph five of this subdivision, where a participant has not paid in full any contribution deficiency chargeable to him or her pursuant to paragraph three of this subdivision, and a benefit, other than a refund of a member's accumulated deductions or a refund of additional member contributions pursuant to paragraph seven of this subdivision, becomes payable by the retirement system to the participant or to his or her designated beneficiary or estate, the actuarial equivalent of any such unpaid amount shall be deducted from the benefit otherwise payable.

7. (i) All additional member contributions required by this subdivision (and any interest thereon) which are received by the retirement system shall be paid into its contingent reserve fund and shall be the property of the retirement system. Such additional member contributions (and any interest thereon) shall not for any purpose be deemed to be member contributions or accumulated deductions of a member of the retirement system under section 13-125 or section 13-162 of the administrative code while he or she is a participant in the twenty-five year improved benefit retirement program or otherwise.

(ii) Should a participant in the twenty-five year improved benefit retirement program, who has rendered less than five years of credited service cease to hold a position as a water supply police member for any reason whatsoever, his or her accumulated additional member contributions made pursuant to this subdivision (together with any interest thereon paid to the retirement system) which remain credited to such participant's account may be withdrawn by him or her pursuant to procedures promulgated in regulations of the board of trustees of the retirement system, together with interest thereon at the rate of interest required by law to be used to credit interest on the accumulated deductions of retirement system members compounded annually.

(iii) Notwithstanding any other provision of law to the contrary, (A) no person shall be permitted to withdraw from the retirement system any additional member contributions paid pursuant to this subdivision or any interest paid thereon, except pursuant to and in accordance with the preceding subparagraphs of this paragraph; and (B) no person, while he or she is a participant in the twenty-five year improved benefit retirement program, shall be permitted to withdraw any such additional member contributions or any interest paid thereon pursuant to any of the preceding subparagraphs of this paragraph or otherwise.

8. A participant in the twenty-five year improved benefit retirement program shall be permitted to borrow from his or her additional member contributions, including any interest paid thereon, which are credited to the additional contributions account established for such participant in the contingent reserve fund of the retirement system. The borrowing from such additional member contributions pursuant to this paragraph shall be governed by the same rights, privileges, obligations and procedures set forth in section six hundred thirteen-b of this chapter which govern the borrowing by members subject to article fifteen of this chap-

ter of member contributions made pursuant to section six hundred thirteen of this chapter. The board of trustees of the retirement system may, consistent with the provisions of this subdivision and the provisions of section six hundred thirteen-b of this chapter as made applicable to this subdivision, promulgate regulations governing the borrowing of such additional member contributions.

9. Wherever a person has an unpaid balance of a loan of his or her additional member contributions pursuant to paragraph eight of this subdivision at the time he or she becomes entitled to a refund of his or her additional member contributions pursuant to subparagraph (ii) of paragraph seven of this subdivision, the amount of such unpaid loan balance (including accrued interest) shall be deemed to have been returned to such member, and the refund of such additional contributions shall be the net amount of such contributions, together with interest thereon in accordance with the provisions of such subparagraph.

10. Notwithstanding any other provision of law to the contrary, the provisions of section one hundred thirty-eight-b of this chapter shall not be applicable to the additional member contributions which are required by this subdivision.

11. Notwithstanding any other provision of law to the contrary, the additional member contributions which are required by this subdivision shall not be reduced under any program for increased-take-home-pay.

(i) Each participant in the twenty-five year retirement program shall be charged with a contribution deficiency consisting of the total amounts of additional member contributions such person is required to make pursuant to paragraphs one and two of this subdivision which are not deducted from his or her compensation pursuant to paragraph three of this subdivision, if any, together with interest thereon, compounded annually, and computed in accordance with the provisions of subparagraphs (ii) and (iii) of this paragraph.

(ii) (A) The interest required to be paid on each such amount specified in subparagraph (i) of this paragraph shall accrue from the end of the payroll period for which such amount would have been deducted from compensation if he or she had been a participant at the beginning of that payroll period and such deduction had been required for such payroll period, until such amount is paid to the retirement system.

(B) The rate of interest to be applied to each such amount during the period for which interest accrues on that amount shall be equal to the rate or rates of interest required by law to be used during that same period to credit interest on the accumulated deductions of retirement system members.

(iii) Except as otherwise provided in paragraph five of this subdivision, no interest shall be due on any unpaid additional member contributions which are not attributable to a period prior to the first full payroll period referred to in paragraph three of this subdivision.

5. (i) Should any person who, pursuant to subparagraph (ii) of paragraph ten of this subdivision, has received a refund of his or her additional member contributions including any interest paid on such contributions, again become a participant in the twenty-five year retirement program pursuant to paragraph six of subdivision b of this section, an appropriate amount shall be included in such participant's contribution deficiency (including interest thereon as calculated pursuant to subparagraph (ii) of this paragraph) for any credited service for which such person received a refund of such additional member contributions (including any amount of an unpaid loan balance deemed to have been returned to such person pursuant to paragraph twelve of this subdivision), as if such additional member contributions never had been paid.

(ii) (A) Interest on a participant's additional member contributions included in such participant's contribution deficiency pursuant to

subparagraph (i) of this paragraph shall be calculated as if such additional member contributions had never been paid by such participant, and such interest shall accrue from the end of the payroll period to which an amount of such additional member contributions is attributable, until such amount is paid to the retirement system.

(B) The rate of interest to be applied to each such amount during the period for which interest accrues on that amount shall be five percent per annum, compounded annually.

6. Where a participant who is otherwise eligible for service retirement pursuant to subdivision c of this section did not, prior to the effective date of retirement, pay the entire amount of a contribution deficiency chargeable to him or her pursuant to paragraphs four and five of this subdivision, or repay the entire amount of a loan of his or her additional member contributions pursuant to paragraph eleven of this subdivision (including accrued interest on such loan), that participant, nevertheless, shall be eligible to retire pursuant to subdivision c of this section, provided, however, that such participant's service retirement benefit calculated pursuant to paragraph two of such subdivision c shall be reduced by a life annuity (calculated in accordance with the method set forth in subdivision i of section six hundred thirteen-b of this article) which is actuarially equivalent to:

(i) the amount of any unpaid contribution deficiency chargeable to such member pursuant to paragraphs four and five of this subdivision; plus

(ii) the amount of any unpaid balance of a loan of his or her additional member contributions pursuant to paragraph eleven of this subdivision (including accrued interest on such loan).

7. Where a participant who is otherwise eligible for a vested right to a deferred benefit pursuant to subdivision d of this section did not, prior to the date of discontinuance of service, pay the entire amount of a contribution deficiency chargeable to him or her pursuant to paragraphs four and five of this subdivision, or repay the entire amount of a loan of his or her additional member contributions pursuant to paragraph eleven of this subdivision (including accrued interest on such loan), that participant, nevertheless, shall be eligible for a vested right to a deferred benefit pursuant to subdivision d of this section, provided, however, that the deferred vested benefit calculated pursuant to paragraph three of such subdivision d shall be reduced by a life annuity (calculated in accordance with the method set forth in subdivision i of section six hundred thirteen-b of this article) which is actuarially equivalent to:

(i) the amount of any unpaid contribution deficiency chargeable to such member pursuant to paragraphs four and five of this subdivision; plus

(ii) the amount of any unpaid balance of a loan of his or her additional member contributions pursuant to paragraph eleven of this subdivision (including accrued interest on such loan).

8. The head of a retirement system which includes participants in the twenty-five year retirement program in its membership may, consistent with the provisions of this subdivision, promulgate regulations for the payment of such additional member contributions, and any interest thereon, by such participants (including the deduction of such contributions, and any interest thereon, from the participant's compensation).

9. Subject to the provisions of paragraphs six and seven of this subdivision, where a participant has not paid in full any contribution deficiency chargeable to him or her pursuant to paragraphs four and five

of this subdivision, and a benefit, other than a refund of member contributions pursuant to section six hundred thirteen of this article or a refund of additional member contributions pursuant to subparagraph (ii) of paragraph ten of this subdivision, becomes payable under this article to the participant or to his or her designated beneficiary or estate, the actuarial equivalent of any such unpaid amount shall be deducted from the benefit otherwise payable.

10. (i) Such additional member contributions (and any interest thereon) shall be paid into the contingent reserve fund of the retirement system of which the participant is a member and shall not for any purpose be deemed to be member contributions or accumulated contributions of a member under section six hundred thirteen of this article or otherwise while he or she is a participant in the twenty-five year retirement program or otherwise.

(ii) Should a participant in the twenty-five year retirement program who has rendered less than five years of credited service cease to hold a position as a water supply police member for any reason whatsoever, his or her accumulated additional member contributions made pursuant to this subdivision (together with any interest thereon paid to the retirement system) may be withdrawn by him or her pursuant to procedures promulgated in regulations of the board of trustees of the retirement system, together with interest thereon at the rate of five percent per annum, compounded annually.

(iii) Notwithstanding any other provision of law to the contrary, (A) no person shall be permitted to withdraw from the retirement system any additional member contributions paid pursuant to this subdivision or any interest paid thereon, except pursuant to and in accordance with the preceding subparagraphs of this paragraph; and (B) no person, while he or she is a participant in the twenty-five year retirement program, shall be permitted to withdraw any such additional member contributions or any interest paid thereon pursuant to any of the preceding subparagraphs of this paragraph or otherwise.

11. A participant in the twenty-five year retirement program shall be permitted to borrow from his or her additional member contributions (including any interest paid thereon) which are credited to the additional contributions account established for such participant in the contingent reserve fund of the retirement system. The borrowing from such additional member contributions pursuant to this paragraph shall be governed by the rights, privileges, obligations and procedures set forth in section six hundred thirteen-b of this article which govern the borrowing of member contributions made pursuant to section six hundred thirteen of this article. The board of trustees of the retirement system may, consistent with the provisions of this subdivision and the provisions of section six hundred thirteen-b of this article as made applicable to this subdivision, promulgate regulations governing the borrowing of such additional member contributions.

12. Whenever a person has an unpaid balance of a loan of his or her additional member contributions pursuant to paragraph eleven of this subdivision at the time he or she becomes entitled to a refund of his or her additional member contributions pursuant to subparagraph (ii) of paragraph ten of this subdivision, the amount of such unpaid loan balance (including accrued interest) shall be deemed to have been returned to such member, and the refund of such additional contributions shall be the net amount of such contributions, together with interest thereon in accordance with the provisions of such subparagraph (ii).

§ 6. Subdivision d of section 613 of the retirement and social security law is amended by adding a new paragraph 12 to read as follows:

12. (i) The city of New York shall, in the case of a water supply police member (as defined in paragraph one of subdivision a of section six hundred four-j of this article) who is a participant in the twenty-five year retirement program (as defined in paragraph four of subdivision a of such section six hundred four-j), pick up and pay to the retirement system of which such participant is a member, all additional member contributions which otherwise would be required to be deducted from such member's compensation pursuant to paragraphs one and two of subdivision e of such section six hundred four-j (not including any additional member contributions due for any period prior to the first full payroll period referred to in paragraph three of such subdivision e), and shall effect such pick up on each and every payroll of such participant for each and every payroll period with respect to which such paragraph three would otherwise require such deductions.

(ii) An amount equal to the amount of additional contributions picked up pursuant to this paragraph shall be deducted by such employer from the compensation of such member (as such compensation would be in the absence of a pick up program applicable to him or her hereunder) and shall not be paid to such member.

(iii) The additional member contributions picked up pursuant to this paragraph for any such member shall be paid by such employer in lieu of an equal amount of additional member contributions otherwise required to be paid by such member under the applicable provisions of subdivision e of section six hundred four-j of this article, and shall be deemed to be and treated as employer contributions pursuant to section 414(h) of the Internal Revenue Code.

(iv) For the purpose of determining the retirement system rights, benefits and privileges of any member whose additional member contributions are picked up pursuant to this paragraph, such picked up additional member contributions shall be deemed to be and treated as part of such member's additional member contributions under the applicable provisions of subdivision e of section six hundred four-j of this article.

(v) With the exception of federal income tax treatment, the additional member contributions picked up pursuant to subparagraph (i) of this paragraph shall for all other purposes, including computation of retirement benefits and contributions by employers and employees, be deemed employee salary. Nothing contained in this subdivision shall be construed as superseding the provisions of section four hundred thirty-one of this chapter, or any similar provision of law which limits the salary base of computing retirement benefits payable by a public retirement system.

§ 7. Section 13-125.2 of the administrative code of the city of New York is amended by adding a new subdivision a-9 to read as follows:

a-9. Notwithstanding any other provision of law to the contrary, on or after the starting date for pick up, the employer responsible for pick up shall, in the case of a water supply police member (as defined in paragraph two of subdivision a of section four hundred forty-five-j of the retirement and social security law) who is a participant in the twenty-five year improved benefit retirement program (as defined in paragraph three of such subdivision a of section four hundred forty-five-j), pick up and pay to the retirement system all additional member contributions which otherwise would be required to be deducted from such member's compensation pursuant to subdivision d of such section four

hundred forty-five-j, and shall effect such pick up on each and every payroll of such participant for each and every payroll period with respect to which such subdivision d would otherwise require such deductions.

§ 8. Subparagraph (ii) of paragraph 1 of subdivision c of section 13-125.2 of the administrative code of the city of New York, as amended by chapter 682 of the laws of 2003, is amended to read as follows:

(ii) the determination of the amount of such member's Tier I or Tier II nonuniformed-force member contributions eligible for pick up by the employer or additional member contributions required to be picked up pursuant to subdivision a-one, subdivision a-two, subdivision a-three, subdivision a-four, subdivision a-five, subdivision a-six, subdivision a-seven [~~or~~], subdivision a-eight, or subdivision a-9 of this section; and

§ 9. Subdivision d of section 13-125.2 of the administrative code of the city of New York is amended by adding a new paragraph 2-h to read as follows:

(2-h) For the purpose of determining the retirement system rights, benefits and privileges of any member who is a participant in the twenty-five year improved benefit retirement program (as defined in paragraph three of subdivision a of section four hundred forty-five-j of the retirement and social security law), the additional member contributions of such participant picked up pursuant to subdivision a-nine of this section shall be deemed to be and treated as a part of such member's additional member contributions under subdivision d of such section four hundred forty-five-j.

§ 10. Paragraph 3 of subdivision d of section 13-125.2 of the administrative code of the city of New York, as amended by chapter 682 of the laws of 2003, is amended to read as follows:

(3) Interest on contributions picked up for any Tier I or Tier II non-uniformed-force member pursuant to this section (other than additional member contributions picked up pursuant to subdivision a-one, subdivision a-two, subdivision a-three, subdivision a-four, subdivision a-five, subdivision a-six, subdivision a-seven [~~or~~], subdivision a-eight, or subdivision a-nine of this section) shall accrue in favor of the member and be payable to the retirement system at the same rate, for the same time periods, in the same manner and under the same circumstances as interest would be required to accrue in favor of the member and be payable to the retirement system on such contributions if they were made by such member in the absence of a pick up program applicable to such member under the provisions of this section.

§ 11. Subdivision a of section 603 of the retirement and social security law, as amended by chapter 18 of the laws of 2012, is amended to read as follows:

a. The service retirement benefit specified in section six hundred four of this article shall be payable to members who have met the minimum service requirements upon retirement and attainment of age sixty-two, other than members who are eligible for early service retirement pursuant to subdivision c of section six hundred four-b of this article, subdivision c of section six hundred four-c of this article, subdivision d of section six hundred four-d of this article, subdivision c of section six hundred four-e of this article, subdivision c of section six hundred four-f of this article, subdivision c of section six hundred four-g of this article, subdivision c of section six hundred four-h of this article [~~or~~], subdivision c of section six hundred four-i of this article, or subdivision c of section six hundred four-j of this article,

provided, however, a member of a teachers' retirement system or the New York state and local employees' retirement system who first joins such system before January first, two thousand ten or a member who is a uniformed court officer or peace officer employed by the unified court system who first becomes a member of the New York state and local employees' retirement system before April first, two thousand twelve may retire without reduction of his or her retirement benefit upon attainment of at least fifty-five years of age and completion of thirty or more years of service, provided, however, that a uniformed court officer or peace officer employed by the unified court system who first becomes a member of the New York state and local employees' retirement system on or after January first, two thousand ten and retires without reduction of his or her retirement benefit upon attainment of at least fifty-five years of age and completion of thirty or more years of service pursuant to this section shall be required to make the member contributions required by subdivision f of section six hundred thirteen of this article for all years of credited and creditable service, provided further that the [~~the~~] preceding provisions of this subdivision shall not apply to a New York city revised plan member.

§ 12. Nothing contained in sections six and eleven of this act shall be construed to create any contractual right with respect to members to whom such sections apply. The provisions of such sections are intended to afford members the advantages of certain benefits contained in the Internal Revenue Code, and the effectiveness and existence of such sections and benefits they confer are completely contingent thereon.

§ 13. This act shall take effect immediately, provided, however that:

(a) The amendments to subdivision a of section 603 of the retirement and social security law made by section eleven of this act shall not affect the expiration of such subdivision as provided in subdivision (b) of section 13 of chapter 682 of the laws of 2003, and shall expire therewith;

(b) The provisions of section six of this act shall remain in force and effect only so long as, pursuant to federal law, contributions picked up under section 613 of the retirement and social security law are not includable as gross income of a member for federal income tax purposes until distributed or made available to the member; and

FISCAL NOTE. -- Pursuant to Legislative Law, Section 50:

SUMMARY OF BILL: This proposed legislation would amend certain provisions of the Retirement and Social Security Law (RSSL) and the Administrative Code of the City of New York (ACCNY), and add RSSL Sections 445-j and 604-j to establish a 25-Year Retirement Program for Tier 2, 4, and 6 New York City Employees' Retirement System (NYCERS) members who are employed in the title of Water Supply Police (WSP 25-Year Plan).

Effective Date: Upon enactment.

MEMBERS ELIGIBLE TO JOIN: Those NYCERS members who are sworn officers of the water supply police employed by the City of New York (City), appointed to protect the sources, works, and transmission of water supplied to the City, and to protect persons on or in the vicinity of such water sources, works, and transmission pursuant to subdivision o of section 1.20 of the Criminal Procedure Law.

For purposes of this Fiscal Note, these members are collectively referred to as "Water Supply Police Members."

Participation in the WSP 25-Year Plan is optional for anyone who is eligible to participate in the Plan on the date of enactment by filing an election form within 180 days of enactment. Anyone who is a member of NYCERS (i.e. subject to Article 15) on the date of enactment and subsequently becomes employed as a Water Supply Police Member also has 180 days upon becoming such a member to elect to join the WSP 25-Year Plan.

Any new Water Supply Police Member who becomes a Tier 6 NYCERS member after the date of enactment is mandated into the Plan. However, if the member exceeds age 30 upon being mandated into the WSP 25-Year Plan, the member has the option not to participate in the Plan by filing an application to opt out of the Plan within 180 days of becoming a Water Supply Police Member.

IMPACT ON BENEFITS: Currently, Water Supply Police Members generally participate in one of the NYCERS general plans (i.e. basic Tier 4 62/5 Plan, Tier 6 63/10 Plan or Improved Tier 4 57/5, 55/25 Plans). There are currently no active Tier 2 Water Supply Police Members. Therefore, the following summary only applies to Tier 4 and Tier 6 Water Supply Police Members.

The proposed legislation would provide the following benefits to Water Supply Police Members under the WSP 25-Year Plan:

* Service retirement benefit: Upon attaining 25 years of any NYCERS Credited Service, including service as a Water Supply Police Member, a benefit equal to 50% of Final Average Salary (FAS) for the first 25 years of Credited Service plus 2% of FAS for each additional year of Credited Service up to a maximum of 30 years of such service.

* Final Average Salary: Three-Year Average (FAS3) for Tier 4 members and Five-Year Average (FAS5) for Tier 6 members.

* Vested benefit:

* Eligibility is:

* At least five, but less than 25, years of Credited Service for Tier 4 and Tier 6 members.

* Payable at:

* The date the member would have completed 25 years of Credited Service for Tier 4, and

* Age 63 for Tier 6.

* Amount:

* 2% of FAS for each year of Credited Service.

* Other benefits: Members of the proposed WSP 25-Year Plan are entitled to the same disability and death benefits as other Tier 4 and Tier 6 members under the respective basic plans.

ADDITIONAL MEMBER CONTRIBUTIONS: Members of the WSP 25-Year Plan are required to make, in addition to the Basic Member Contributions, to the extent payable, Additional Member Contributions equal to 6% of compensation for all service as a Plan participant on and after the starting date of the Plan until the later of a maximum of 30 years of Credited Service or the one year anniversary of the enactment of the Plan.

FINANCIAL IMPACT - ACTUARIAL PRESENT VALUES: With respect to NYCERS and based on the anticipated group of members joining the WSP 25-Year Plan and the actuarial assumptions and methods described herein, if the proposed legislation were enacted, the Actuarial Present Value (APV) of Benefits (APVB) would increase by approximately $2.3 million, consisting of an increase in APV of member contributions of approximately $1.5 million, and an increase in APV of future employer contributions of approximately $0.8 million.

Under the Entry Age Normal cost method used to determine the employer contributions to NYCERS, there would be an increase in the Unfunded Accrued Liability (UAL) of approximately $2.2 million offset by a decrease in the APV of future employer Normal Cost of $1.4 million. The decrease in the APV of future employer Normal Cost is primarily due to the expected future working lifetime of the affected members.

FINANCIAL IMPACT - ANNUAL EMPLOYER CONTRIBUTIONS: In accordance with ACCNY Section 13.638.2(k-2), new UAL attributable to benefit changes are to be amortized as determined by the Actuary but generally over the remaining working lifetime of those impacted by the benefit changes. As of June 30, 2017, if this proposed legislation is enacted, the remaining working lifetime of the Water Supply Police Members assumed to join the WSP 25-Year Plan is approximately 13 years.

For this proposed legislation, the increase in UAL of $2.2 million was amortized over a 13-year period (12 payments under the One-Year Lag Methodology) using level dollar payments resulting in an increase in annual employer contributions beginning with approximately $259,000 per year.

CONTRIBUTION TIMING: If enacted during the 2018 Legislative Session before June 30, 2018, the WSP 25-Year Plan would likely first be reflected in the June 30, 2018 census data. In accordance with the One-Year Lag Methodology (OYLM) used to determine employer contributions, the increase in employer contributions would first be reflected in Fiscal Year 2020.

OTHER COSTS: Not measured in this Fiscal Note are the following:

* The initial, additional administrative costs of NYCERS and other City agencies to implement the proposed legislation.

* The impact of this proposed legislation on Other Postemployment Benefit (OPEB) costs.

CENSUS DATA: The census data used for the calculations presented herein is as of June 30, 2017. This data, under the OYLM, will be used to determine the Fiscal Year 2019 employer contributions for members who are eligible for and who could potentially benefit from this proposed legislation.

Census data is submitted by NYCERS administrative staff, participating employers' payroll facilities, Office of Payroll Administration (OPA), and Financial Information Services Agency (FISA). This data is then reviewed by the Office of the Actuary (OA) for consistency and reasonability.

Where applicable, June 30, 2017 salaries have been adjusted by the Actuary to reflect contract settlements with retroactive effect and the assumption of pattern bargaining. Estimates of liabilities attributable to the related additional benefits payable have been applied to the results contained herein.

The 53 eligible Water Supply Police Members as of June 30, 2017 assumed to join the WSP 25-Year Plan had an average age of approximately 38.0, average service of approximately 13.8 years, and an average annual salary of approximately $72,031.

ACTUARIAL ASSUMPTIONS AND METHODS: The additional employer contributions presented herein have been calculated based on the same actuarial assumptions and methods in effect for the June 30, 2016 (Lag) actuarial valuations used to determine the Preliminary Fiscal Year 2018 employer contributions of NYCERS except that the actuarial method includes a change in the application of the Entry Age Normal cost method. Please note these assumptions and methods are subject to change as this valuation is not considered final until the end of the Fiscal Year 2018.

To determine the impact of the elective nature of the proposed legislation, a subgroup of Water Supply Police Members was developed based on who would potentially benefit actuarially. The net APV of future employer costs (i.e the APVB less the APV of future member contributions) of each member's benefit was determined under their current plan and under the WSP 25-Year Plan. If the net APV of future employer cost under the WSP 25-Year Plan was greater than or equal to the APV of future employer cost under the member's current plan, the member was deemed to benefit actuarially and is assumed to participate in the WSP 25-Year Plan.

Based on this analysis, it was determined that those members who are hired after the age of 30 and have the option of joining the WSP 25-Year Plan in the future will not benefit actuarially from the Plan. Therefore, it was further assumed that future Plan participation, in addition to those existing members who will benefit from the Plan, will be limited to those hired at the age of 30 or younger who are mandated into the Plan. However, since it is expected that Water Supply Police Members hired at the age of 30 or younger will generally not benefit under the plan (i.e. they have a decrease in APV of future employer costs as compared to the Tier 6 63/10 Plan that they would otherwise participate in absent this proposed legislation), the costs presented in this Fiscal Note are borne only form current NYCERS members who are assumed to benefit from, and thus opt to join, the WSP 25-Year Plan.
