costs, costs of direct care personnel including home health aides,
personal care attendants and other direct service personnel, opportu-

the traumatic brain injury program waiver, in an aggregate amount of
three million dollars minus the cost of conducting the study; provided
further, that nothing in this section shall be deemed to affect payment

federal participation is not available for such costs.

§ 9-a. Subdivision 7 of section 4403-f of the public health law is
amended by adding a new paragraph (j) to read as follows:

(j) Limitations on licensed home care service agency contracts. (i)
The commissioner may establish methodologies to limit the number of
licensed home care services agencies licensed pursuant to article thir-
ty-six of the public health law with which managed long term care plans
may enter into contracts, provided that such limitations are consistent
with the specifications set forth in this paragraph.

(ii) Managed long term care plans operating in the city of New York
and/or the counties of Nassau, Suffolk, and Westchester may enter into
contracts with licensed home care services agencies in such region in a
maximum number calculated based upon the following methodology:
(A) As of October first, two thousand eighteen, one contract per
seventy-five members enrolled in the plan within such region; and
(B) As of October first, two thousand nineteen, one contract per one
hundred members enrolled in the plan within such region.

(iii) Managed long term care plans operating in counties other than
those in the city of New York and the counties of Nassau, Suffolk, and
Westchester may enter into contracts with licensed home care services
agencies in such region in a maximum number calculated based upon the
following methodology:
(A) As of October first, two thousand eighteen, one contract per forty-five members enrolled in the plan within such region.

(B) As of October first, two thousand nineteen, one contract per sixty members enrolled in the plan within such region.

(iv) Notwithstanding subparagraphs (ii) and (iii) of this paragraph, a managed long term care plan shall not enter into less than the number of contracts with licensed home care services agencies in each county in which the plan operates as is necessary to remain consistent with network adequacy standards, as determined by the department in accordance with federal regulations.

(v) When calculating the number of additional contracts that a managed long term care plan may enter using the methodologies established pursuant to this paragraph, any fractional result shall be rounded down.

(vi) The commissioner may increase the number of licensed home care services agencies with which a managed long term care plan may contract, on a county by county basis, if the commissioner determines that such increase is necessary to: ensure adequate access to services in the geographic area including, but not limited to, special needs services and services that are culturally and linguistically appropriate; or to avoid disruption in services in the geographic area.

(vii) Any licensed home care services agency that ceases operation as a result of this paragraph shall conform with all applicable requirements, including but not limited to demonstrating to the department's satisfaction continuity of care for individuals receiving services from the agency.

(viii) The commissioner may require managed long term care plans to provide evidence of compliance with this paragraph, on an annual basis.

(ix) In implementing the provisions of this paragraph, the commissioner shall, to the extent practicable, consider and select methodologies that seek to maximize continuity of care and minimize disruption to the provider labor workforce, and shall, to the extent practicable and consistent with the ratios set forth herein, continue to support contracts between managed long term care plans and licensed home care services agencies that are based on a commitment to quality and value.

(x) This subparagraph applies where implementation of the limits on contracts with licensed home care service agencies of this paragraph (i) would otherwise require an enrollee's care to be transferred from the enrollee's current licensed home care service agency to another licensed care service agency, and (ii) the enrollee (or the enrollee's authorized representative) wants the enrollee to continue to be cared for by one or more employees of the current licensed home care service agency, and that continuation would otherwise be provided. In such a case: the enrollee's managed long term care plan may contract with the enrollee's current licensed home care service agency for the purpose of continuing the enrollee's care by such employee or employees, and the contract shall not count towards the limits on contracts under this paragraph for a period of three months.

incorporators, directors, sponsors, stockholders or operators; (c) the financial resources of the proposed licensed home health care service agency and its sources of financial revenues; and (d) such other matters as it shall deem pertinent.

6. Neither [public need,] tax status nor profit-making status shall be criteria for licensure.

However, a license may be temporarily suspended or limited without a hearing for a period not in excess of thirty days upon written notice to the agency following a finding by the department that the public health or safety is in imminent danger.

Notwithstanding the provisions of this section, no licensed home care services agency shall be permitted to operate unless it has registered with the department pursuant to section thirty-six hundred five-b of this article.

§ 9-d. The public health law is amended by adding a new section 3605-b to read as follows:

(b) A LHCSA that fails to submit a complete and accurate set of all required registration materials by the deadline established by the commissioner shall be required to pay a fee of five hundred dollars for each month or part thereof that the LHCSA is in default. (c) The department shall post on its public website a list of all LHCSAs, which shall indicate the current registration status of each LHCSA.

(d) The department shall institute proceedings to revoke the license of any LHCSA that fails to register for two annual registration periods, whether or not such periods are consecutive. The department shall have the discretion to pursue revocation of the license of a LHCSA on grounds that it evidences a pattern of late registration over the course of multiple years.

§ 9-e. Effective April 1, 2018, the commissioner of health shall place a moratorium on the processing and approval of applications seeking licensure of a licensed home care services agency pursuant to section 3605 of the public health law that have not received establishment approval or contingent establishment approval by the public health and health planning council, except for: (a) an application seeking licensure of a licensed home care services agency that is submitted with an application for approval as an assisted living program authorized pursuant to section 461-l of the social services law; (b) an application seeking approval to transfer ownership for an existing licensed home care services agency that has been licensed and operating for a minimum of five years for the purpose of consolidating ownership of two or more

application addresses a serious concern such as a lack of access to home
care services in the geographic area or a lack of adequate and appropri-
ate care, language and cultural competence, or special needs services.
Such moratorium shall expire on March 31, 2020. In implementing the
provisions of this section, the commissioner shall, to the extent prac-

§ 12. This act shall take effect immediately; provided, however, that the amendments to paragraph (b) of subdivision 7 of section 4403-f of the public health law made by sections three, four and five of this act shall not affect the expiration of such paragraph pursuant to subdivision (i) of section 111 of part H of chapter 59 of the laws of 2011, as amended, and shall be deemed to expire therewith; provided, further, that the amendments to section 4403-f of the public health law made by sections three, four, five and nine-a of this act shall not affect the repeal of such section pursuant to chapter 659 of the laws of 1997, as amended, and shall be deemed repealed therewith; provided, further, that section four of this act shall take effect on October 1, 2018; provided, further, that section nine-b of this act shall take effect April 1, 2020; provided further that the commissioner of health is authorized to issue regulations establishing the methodology for the determination of public need pursuant to subdivision 4 of section 3605 of the public health law, as amended by section two of this act, prior to such date; provided, further, that section nine-f of this act shall apply to marketing contracts entered into after the effective date of this act; and provided, further that the amendments to section 364-j of the social services law made by section ten of this act shall not affect the repeal of such section and shall be deemed repealed therewith.

The commissioner may assess penalties under this subdivision in instances of failure to meet the participation targets established pursuant to this subdivision, where the department has determined that such failure reflected the absence of a good faith and reasonable effort to achieve the participation targets, except that managed care providers shall not be penalized for the failure of a health home to work collaboratively toward meeting the participation targets and a health home shall not be penalized for the failure of a managed care provider to work collaboratively toward meeting the participation targets.

social services law, as amended by section 7 of part D of chapter 57 of
the laws of 2017, is amended to read as follows:

(d) In addition to the amounts paid pursuant to paragraph (b) of this

however that this professional dispensing fee will not apply to drugs

ity Act.

§ 2. Intentionally omitted.

§ 3. Intentionally omitted.

§ 4. Intentionally omitted.

§ 5. Intentionally omitted.

§ 6. Intentionally omitted.

§ 7. Subdivision 4 of section 365-a of the social services law is
amended by adding a new paragraph (h) to read as follows:

(h) opioids prescribed in violation of the treatment plan standards of
subdivision eight of section thirty-three hundred thirty-one of the
public health law or treatment plan standards as otherwise required by
the commissioner.

§ 7-a. Section 3331 of the public health law is amended by adding a
new subdivision 8 to read as follows:

8. No opioids shall be prescribed to a patient initiating or being
maintained on opioid treatment for pain which has lasted more than three
months or past the time of normal tissue healing, unless the medical
record contains a written treatment plan that follows generally accepted
national professional or governmental guidelines. The requirements of
this paragraph shall not apply in the case of patients who are being
treated for cancer that is not in remission, who are in hospice or other
end-of-life care, or whose pain is being treated as part of palliative
care practices.

§ 8. Section 280 of the public health law, as added by section 1 of
part D of chapter 57 of the laws of 2017, is amended to read as follows:

§ 280. Medicaid drug cap. 1. The legislature hereby finds and declares
that there is a significant public interest for the Medicaid program to
manage drug costs in a manner that ensures patient access while provid-
ing financial stability for the state and participating providers.
Since two thousand eleven, the state has taken significant steps to
contain costs in the Medicaid program by imposing a statutory limit on
annual growth. Drug expenditures, however, continually outpace other
cost components causing significant pressure on the state, providers, and patient access operating under the Medicaid global cap. It is therefore intended that the department establish a Medicaid drug cap as a separate component within the Medicaid global cap as part of a focused and sustained effort to balance the growth of drug expenditures with the growth of total Medicaid expenditures.

2. The commissioner shall establish a year to year department of health [state-funds] state funds Medicaid drug [spending] expenditure growth target as follows:

   (a) for state fiscal year two thousand seventeen--two thousand eighteen, be limited to the ten-year rolling average of the medical component of the consumer price index plus five percent and minus a pharmacy savings target of fifty-five million dollars; and

   (b) for state fiscal year two thousand eighteen--two thousand nineteen, be limited to the ten-year rolling average of the medical component of the consumer price index plus four percent and minus a pharmacy savings target of eighty-five million dollars.

   (c) for state fiscal year two thousand nineteen--two thousand twenty, be limited to the ten-year rolling average of the medical component of the consumer price index plus four percent and minus a pharmacy savings target of eighty-five million dollars.

3. The department and the division of the budget shall assess on a quarterly basis the projected total amount to be expended in the year on a cash basis by the Medicaid program for each drug, and the projected annual amount of state funds Medicaid drug expenditures on a cash basis for all drugs, which shall be a component of the projected department of health state funds Medicaid expenditures calculated for purposes of sections ninety-one and ninety-two of part H of chapter fifty-nine of the laws of two thousand eleven. For purposes of this section, state funds Medicaid drug expenditures include amounts expended for drugs in both the Medicaid fee-for-service program and Medicaid managed care programs, minus the amount of any drug rebates or supplemental drug rebates received by the department, including rebates pursuant to subdivision five of this section with respect to rebate targets. The department and the division of the budget shall report quarterly to the drug utilization review board the projected state funds Medicaid drug expenditures including the amounts, in aggregate thereof, attributable to the net cost of: changes in the utilization of drugs by Medicaid recipients; changes in the number of Medicaid recipients; changes to the cost of brand name drugs and changes to the cost of generic drugs. The information contained in the report shall not be publicly released in a manner that allows for the identification of an individual drug or manufacturer or that is likely to compromise the financial competitive, or proprietary nature of the information.

   (a) In the event the director of the budget determines, based on Medicaid drug expenditures for the previous quarter or other relevant information, that the total department of health state funds Medicaid drug expenditure is projected to exceed the annual growth limitation imposed by subdivision two of this section, the commissioner may identify and refer drugs to the drug utilization review board established by section three hundred sixty-nine-bb of the social services law for a recommendation as to whether a target supplemental Medicaid rebate should be paid by the manufacturer of the drug to the department and the target amount of the rebate.

   (b) If the department intends to refer a drug to the drug utilization review board pursuant to paragraph (a) of this subdivision, the depart-
ment shall notify the manufacturer of such drug and shall attempt to reach agreement with the manufacturer on a rebate for the drug prior to referring the drug to the drug utilization review board for review.

(c) In the event that the commissioner and the manufacturer have previously agreed to a supplemental rebate for a drug pursuant to paragraph (b) of this subdivision or paragraph (e) of subdivision seven of section three hundred sixty-seven-a of the social services law, the drug shall not be referred to the drug utilization review board for any further supplemental rebate for the duration of the previous rebate agreement.

(d) The department shall consider a drug's actual cost to the state, including current rebate amounts, prior to seeking an additional rebate pursuant to paragraph (b) or (c) of this subdivision and shall take into consideration whether the manufacturer of the drug is providing significant discounts relative to other drugs covered by the Medicaid program.

(e) The commissioner shall be authorized to take the actions described in this section only so long as total Medicaid drug expenditures are projected to exceed the annual growth limitation imposed by subdivision two of this section.

4. In determining whether to recommend a target supplemental rebate for a drug, the drug utilization review board shall consider the actual cost of the drug to the Medicaid program, including federal and state rebates, and may consider, among other things:

(a) the drug's impact on the Medicaid drug spending growth target and the adequacy of capitation rates of participating Medicaid managed care plans, and the drug's affordability and value to the Medicaid program; or

(b) significant and unjustified increases in the price of the drug; or

(c) whether the drug may be priced disproportionately to its therapeutic benefits.

5. (a) If the drug utilization review board recommends a target rebate amount on a drug referred by the commissioner, the commissioner shall require a supplemental rebate to be paid by the drug's manufacturer in an amount not to exceed such target rebate amount. With respect to a rebate required in state fiscal year two thousand seventeen--two thousand eighteen, the rebate requirement shall apply beginning with the month of April, two thousand seventeen, without regard to the date the department enters into the rebate agreement with the manufacturer.

(b) The supplemental rebate required by paragraph (a) of this subdivision shall apply to drugs dispensed to enrollees of managed care providers pursuant to section three hundred sixty-four-j of the social services law and to drugs dispensed to Medicaid recipients who are not enrollees of such providers.

(c) If the drug utilization review board recommends a target rebate amount for a drug and the department is unable to negotiate a rebate from the manufacturer in an amount that is at least seventy-five percent of the target rebate amount, the commissioner is authorized to waive the provisions of paragraph (b) of subdivision three of section two hundred seventy-three of this article and the provisions of subdivisions twenty-five and twenty-five-a of section three hundred sixty-four-j of the social services law with respect to such drug; however, this waiver shall not be implemented in situations where it would prevent access by a Medicaid recipient to a drug which is the only treatment for a particular disease or condition. Under no circumstances shall the commissioner be authorized to waive such provisions with respect to more than two drugs in a given time.
(d) Where the department and a manufacturer enter into a rebate agreement pursuant to this section, which may be in addition to existing rebate agreements entered into by the manufacturer with respect to the same drug, no additional rebates shall be required to be paid by the manufacturer to a managed care provider or any of a managed care provider's agents, including but not limited to any pharmacy benefit manager, while the department is collecting the rebate pursuant to this section.

(e) In formulating a recommendation concerning a target rebate amount for a drug, the drug utilization review board may consider:

(i) publicly available information relevant to the pricing of the drug;

(ii) information supplied by the department relevant to the pricing of the drug;

(iii) information relating to value-based pricing;

(iv) the seriousness and prevalence of the disease or condition that is treated by the drug;

(v) the extent of utilization of the drug;

(vi) the effectiveness of the drug in treating the conditions for which it is prescribed, or in improving a patient's health, quality of life, or overall health outcomes;

(vii) the likelihood that use of the drug will reduce the need for other medical care, including hospitalization;

(viii) the average wholesale price, wholesale acquisition cost, retail price of the drug, and the cost of the drug to the Medicaid program minus rebates received by the state;

(ix) in the case of generic drugs, the number of pharmaceutical manufacturers that produce the drug;

(x) whether there are pharmaceutical equivalents to the drug; and

(xi) information supplied by the manufacturer, if any, explaining the relationship between the pricing of the drug and the cost of development of the drug and/or the therapeutic benefit of the drug, or that is otherwise pertinent to the manufacturer's pricing decision; any such information provided shall be considered confidential and shall not be disclosed by the drug utilization review board in a form that identifies a specific manufacturer or prices charged for drugs by such manufacturer.

6. (a) If the drug utilization review board recommends a target rebate amount and the department is unsuccessful in entering into a rebate agreement with the manufacturer of the drug satisfactory to the department, the drug manufacturer shall in that event be required to provide to the department, on a standard reporting form developed by the department, the following information:

(i) the actual cost of developing, manufacturing, producing (including the cost per dose of production), and distributing the drug;

(ii) research and development costs of the drug, including payments to predecessor entities conducting research and development, such as biotechnology companies, universities and medical schools, and private research institutions;

§ 4. Section 40 of chapter 266 of the laws of 1986, amending the civil practice law and rules and other laws relating to malpractice and professional medical conduct, as amended by section 18 of part H of chapter 57 of the laws of 2017, is amended to read as follows:

§ 40. The superintendent of financial services shall establish rates for policies providing coverage for physicians and surgeons medical malpractice for the periods commencing July 1, 1985 and ending June 30, [2018] 2019; provided, however, that notwithstanding any other provision of law, the superintendent shall not establish or approve any increase in rates for the period commencing July 1, 2009 and ending June 30, 2010. The superintendent shall direct insurers to establish segregated accounts for premiums, payments, reserves and investment income attributable to such premium periods and shall require periodic reports by the
insurers regarding claims and expenses attributable to such periods to
monitor whether such accounts will be sufficient to meet incurred claims
and expenses. On or after July 1, 1989, the superintendent shall impose
a surcharge on premiums to satisfy a projected deficiency that is
attributable to the premium levels established pursuant to this section
for such periods; provided, however, that such annual surcharge shall
not exceed eight percent of the established rate until July 1, 2018, at which time and thereafter such surcharge shall not exceed twenty-five percent of the approved adequate rate, and that such annual
surcharges shall continue for such period of time as shall be sufficient
to satisfy such deficiency. The superintendent shall not impose such
surcharge during the period commencing July 1, 2009 and ending June 30,
2010. On and after July 1, 1989, the surcharge prescribed by this
section shall be retained by insurers to the extent that they insured
physicians and surgeons during the July 1, 1985 through June 30, 2018
policy periods; in the event and to the extent physicians and
surgeons were insured by another insurer during such periods, all or a
pro rata share of the surcharge, as the case may be, shall be remitted
to such other insurer in accordance with rules and regulations to be
promulgated by the superintendent. Surcharges collected from physicians
and surgeons who were not insured during such policy periods shall be
apportioned among all insurers in proportion to the premium written by
each insurer during such policy periods; if a physician or surgeon was
insured by an insurer subject to rates established by the superintendent
during such policy periods, and at any time thereafter a hospital, health
maintenance organization, employer or institution is responsible
for responding in damages for liability arising out of such physician's
or surgeon's practice of medicine, such responsible entity shall also
remit to such prior insurer the equivalent amount that would then be
collected as a surcharge if the physician or surgeon had continued to
remain insured by such prior insurer. In the event any insurer that
provided coverage during such policy periods is in liquidation, the
property/casualty insurance security fund shall receive the portion of
surcharges to which the insurer in liquidation would have been entitled.
The surcharges authorized herein shall be deemed to be income earned for
the purposes of section 2303 of the insurance law. The superintendent,
in establishing adequate rates and in determining any projected defi-
ciency pursuant to the requirements of this section and the insurance
law, shall give substantial weight, determined in his discretion and
judgment, to the prospective anticipated effect of any regulations
promulgated and laws enacted and the public benefit of stabilizing
malpractice rates and minimizing rate level fluctuation during the peri-
od of time necessary for the development of more reliable statistical
experience as to the efficacy of such laws and regulations affecting
medical, dental or podiatric malpractice enacted or promulgated in 1985,
1986, by this act and at any other time. Notwithstanding any provision
of the insurance law, rates already established and to be established by
the superintendent pursuant to this section are deemed adequate if such
rates would be adequate when taken together with the maximum authorized
annual surcharges to be imposed for a reasonable period of time whether
or not any such annual surcharge has been actually imposed as of the
establishment of such rates.
§ 5. Section 5 and subdivisions (a) and (e) of section 6 of part J of
chapter 63 of the laws of 2001, amending chapter 266 of the laws of

§ 3. Subdivision 13 of section 631 of the executive law, as amended by
chapter 39 of the laws of 2012, is amended to read as follows:
13. Notwithstanding any other provision of law, rule, or regulation to
the contrary, when any New York state accredited hospital, accredited
sexual assault examiner program, or licensed health care provider
furnishes services to any sexual assault survivor, including but not
limited to a health care forensic examination in accordance with the sex
offense evidence collection protocol and standards established by the
department of health, such hospital, sexual assault examiner program, or
licensed healthcare provider shall provide such services to the person
without charge and shall bill the office directly. The office, in
consultation with the department of health, shall define the specific
services to be covered by the sexual assault forensic exam reimbursement
fee, which must include at a minimum forensic examiner services, hospi-

room at the time of the forensic rape examination pursuant to paragraph

provider must accept this fee as payment in full for these specified
services. No additional billing of the survivor for said services is
permissible. A sexual assault survivor may voluntarily assign any
private insurance benefits to which she or he is entitled for the
healthcare forensic examination, in which case the hospital or health-
care provider may not charge the office; provided, however, in the event
the sexual assault survivor assigns any private health insurance bene-

program or licensed health care provider. A hospital, sexual assault
examiner program or licensed health care provider shall, at the time of

benefits to which the sexual assault survivor is entitled on a form
prescribed by the office; provided, however, such sexual assault survi-
vor shall be advised orally and in writing that he or she may decline to
provide such information regarding private health insurance benefits if
he or she believes that the provision of such information would substan-

event, the sexual assault forensic exam fee shall be paid by the office.
Such sexual assault survivor shall also be advised that providing such
information may provide additional resources to pay for services to
other sexual assault victims. If he or she declines to provide such health insurance information, he or she shall indicate such decision on the form provided by the hospital, sexual assault examiner program or licensed health care provider, which form shall be prescribed by the office.

paid into the opioid stewardship fund for each state fiscal year as set
forth in subdivision two of this section.
(b) "Ratable share" shall mean the individual portion of the opioid
stewardship payment to be paid by each manufacturer and distributor
licensed under this article that sells or distributes opioids in the
state of New York.
(c) Notwithstanding any inconsistent provision of law to the contrary,
"distribute" shall mean to deliver a controlled substance other than by
administering or dispensing to the ultimate user, including intra-compa-
ny transfers between any division, affiliate, subsidiary, parent or
other entity under complete common ownership and control. For purposes
of this section, "distribute" shall not include controlled substances
surrendered to reverse distributors, or donated to recipient entities or
third-party intermediaries pursuant to the unused prescription drug
donation and redispensing program of section two hundred eighty-b of
this chapter.

2. Opioid stewardship payment imposed on manufacturers and distribu-
tors. All manufacturers and distributors licensed under this article
(hereinafter referred to as "licensees"), that sell or distribute
opioids in the state of New York shall be required to pay an opioid
stewardship payment. On an annual basis, the commissioner shall certify
to the state comptroller the amount of all revenues collected from
opioid stewardship payments and any penalties imposed. The amount of
revenues so certified shall be deposited quarterly into the opioid
stewardship fund established pursuant to section ninety-seven-aaaaa of
the state finance law. No licensee shall pass the cost of their ratable
share amount to a purchaser, including the ultimate user of the opioid.
or such licensee shall be subject to penalties pursuant to subdivision

ten of this section.

3. Determination of opioid stewardship payment. The total opioid
stewardship payment amount shall be one hundred million dollars annual-
ly, subject to downward adjustments pursuant to subdivision nine of this
section.

4. Reports and records. Each manufacturer and distributor licensed
under this article that sells or distributes opioids in the state of New
York shall provide to the commissioner a report detailing all opioids
sold or distributed by such manufacturer or distributor in the state of
New York. Such report shall include:

(a) the manufacturer's or distributor's name, address, phone number,
   federal Drug Enforcement Agency (DEA) registration number and controlled
   substance license number issued by the department;

(b) the name, address and DEA registration number of the entity to
   whom the opioid was sold or distributed;

(c) the date of the sale or distribution of the opioid;

(d) the gross receipt total, in dollars, of all opioids sold or
   distributed;

(e) the name and National Drug Code (NDC) of the opioid sold or
   distributed;

(f) the number of containers and the strength and metric quantity of
   controlled substance in each container of the opioid sold or distrib-
   uted;

(g) the total number of morphine milligram equivalents (MMEs) sold or
   distributed; and

(h) any other elements as deemed necessary by the commissioner.

4-a. Initial and future reports. (a) Such information shall be
reported annually to the department in such form as defined by the
commissioner, provided however that the initial report provided pursuant
to subdivision four shall consist of all opioids sold or distributed in
the state of New York for the two thousand seventeen calendar year, and
must be submitted by August 1, 2018. Subsequent annual reports shall be
submitted on April first of each year based on the actual opioid sales
and distributions of the prior calendar year.

(b) For the purpose of such annual reporting, MMEs shall be determined
pursuant to a formulation to be issued by the department and updated as
the department deems appropriate.

5. Determination of ratable share. Each manufacturer and distributor
licensed under this article that sells or distributes opioids in the
state of New York shall pay a portion of the total opioid stewardship
payment amount. The ratable share shall be calculated as follows:

(a) The total amount of MMEs sold or distributed in the state of New
York by the licensee for the preceding calendar year, as reported by the
licensee pursuant to subdivision four of this section, shall be divided
by the total amount of MME sold in the state of New York by all licen-
sees pursuant to this article to determine the licensee payment percent-
age. The licensee payment percentage shall be multiplied by the total
opioid stewardship payment. The product of such calculation shall be
the licensee's ratable share. The department shall have the authority
to adjust the total number of a licensee's MMEs to account for the
nature and use of the product, as well as the type of entity purchasing
the product from the licensee, when making such determination and adjust
the ratable share accordingly.

(b) The licensee's total amount of MME sold or distributed, as well as
the total amount of MME sold or distributed by all licensees under this
article, used in the calculation of the ratable share shall not include the MME of those opioids which are: (i) manufactured in New York state, but whose final point of delivery or sale is outside of New York state; (ii) sold or distributed to entities certified to operate pursuant to article thirty-two of the mental hygiene law, or article forty of the public health law; or (iii) the MMEs attributable to buprenorphine, methadone or morphine.

(c) The department shall provide to the licensee, in writing, on or before October fifteenth, two thousand eighteen, the licensee's ratable share for the two thousand seventeen calendar year. Thereafter, the department shall notify the licensee in writing annually on or before October fifteenth of each year based on the opioids sold or distributed for the prior calendar year.

7. Rebate of ratable share. In any year for which the commissioner determines that a licensee failed to report required information as required by this section, those licensees complying with this section shall receive a reduced assessment of their ratable share in the following year equal to the amount in excess of any overpayment in the prior payment period.

8. Licensee opportunity to appeal. A licensee shall be afforded an opportunity to submit information to the department to justify why the ratable share provided to the licensee, pursuant to paragraph (c) of subdivision five of this section, or amounts paid thereunder are in error or otherwise not warranted. If the department determines thereafter that all or a portion of such ratable share, as determined by the commissioner pursuant to subdivision five of this section, is not warranted, the department may: (a) adjust the ratable share; (b) adjust the assessment of the ratable share in the following year equal to the amount in excess of any overpayment in the prior payment period; or (c) refund amounts paid in error.

9. Department annual review. The department shall annually review the amount of state operating funds spent in the office of alcoholism and substance abuse services (OASAS) budget for opioid prevention, treatment and recovery. The commissioner of OASAS shall certify to the department the amount of annual spending for such services, utilizing available information on patient demographics and the actual cost of services delivered by the state and by state-funded providers. The certification of such spending shall begin in state fiscal year two thousand eighteen-nineteen, and continue annually thereafter. The total amount of such spending shall be provided to the department by the commissioner of OASAS no later than June thirtieth of each year. There shall be no stewardship fund payments beginning on July first in the event state operating funds spent in the OASAS budget for opioid prevention, treatment and recovery in the most recently reported year is equal to or less than state operating funds spent for such purposes in state fiscal year two thousand nine-ten.

10. Penalties. (a) The department may assess a civil penalty in an amount not to exceed one thousand dollars per day against any licensee that fails to comply with subdivisions four and four-a of this section.
(b) In addition to any other civil or criminal penalty provided by law, where a licensee has failed to pay its ratable share in accordance with subdivision six of this section, the department may also assess a penalty of no less than ten percent and no greater than three hundred percent of the ratable share due from such licensee.

(c) Where the ratable share, or any portion thereof, has been passed on to a purchaser by a licensee, the commissioner may impose a penalty not to exceed one million dollars per incident.
