11 contained in:

1 to public policy. For the purposes of this subdivision, an unreasonable
2 limitation includes, but is not limited to, any restriction on use that:

3 (a) inhibits the solar power system from functioning at its intended
4 maximum efficiency; or

5 (b) increases the solar power system's installation or maintenance
6 costs by an amount which is estimated to be greater than ten percent of
7 the total cost of the initial installation of the solar power system,
8 including the costs of labor and equipment.

9 3. Notwithstanding subdivision two of this section, a homeowners'
10 association may adopt or enforce a restriction on use to prohibit the
11 installation of a solar power system that is located on property owned
12 by the homeowners' association or that is located on property owned in
13 common by the members of the homeowners' association.

14 4. Any denial of a homeowner's installation of a solar power system by
15 a homeowners' association must include a detailed description of the
16 exact basis for rejection in writing with specific examples of the home-
17 owners' association's concerns, if applicable.

18 5. A solar power system must meet the requirements established by any
19 local, state or federal law, rule or regulation on health and safety
20 standards and those requirements imposed by state and local permitting
21 authorities.

22 6. A person may bring a civil action in a court of competent jurisdic-
23 tion for any violation of this section. In any action brought pursuant
24 to this section, the court may award the appropriate remedies and costs
25 of litigation, including reasonable attorneys' fees, to the prevailing
26 party.

27 § 2. This act shall take effect on the sixtieth day after it shall
28 have become a law.
