1 Section 1. Legislative findings and intent. (a) New York state boasts  
2 a diverse array of colleges and universities that enhance community  
3 life, promote economic opportunity, improve health and safety and ensure  
4 quality education. The New York state community solutions matching grant  
5 program will serve as a catalyst for partnerships between institutions  
6 of higher education and communities to solve community problems through  
7 research, outreach activities and the exchange of information. These  
8 institutions of higher education will help to address the challenges  
9 facing New York state communities and provide critical services and  
10 programs to assist the broad needs of New Yorkers.

11 (b) Research and outreach activities assisted under this program shall  
12 focus on problems associated with, but not limited to, housing, economic  
13 development, neighborhood revitalization, infrastructure, health care,  
14 job training, education, planning, community organizing and other areas  
15 deemed appropriate by the empire state development corporation. Funds  
16 received under this program shall be used for new and innovative  
17 programs that will address the problems identified in the eligible  
18 applicant's application or to expand and grow existing programs run by  
19 the applicant that are already addressing challenges and needs in their
