9103--A

IN SENATE

June 17, 2018

Introduced by Sen. LAVALLE -- read twice and ordered printed, and when printed to be committed to the Committee on Rules -- committee discharged, bill amended, ordered reprinted as amended and recommitted to said committee

AN ACT authorizing the lease of certain lands located at the State University of New York at Stony Brook; and providing for the repeal of such provisions upon expiration thereof

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. Legislative findings. The legislature finds that as part of the Amended and Restated Integration and Affiliation Agreement, dated as 2 3 of April 7, 2017 (the "IAA"), between The Southampton Hospital Association ("SHA") and the state university of New York acting through its Stony Brook University Hospital ("SBUH"), the parties committed to work together to construct, if feasible, a new hospital facility on Stony Brook University's (the "University") Southampton campus ("New SH") to replace the current SHA facilities, which are currently leased to SBUH which uses them to operate a hospital in Southampton, New York. New SH 10 is a key part of the strategy for the growth of Stony Brook Medicine and 11 University as a regional center of health care and a national leader in 12 innovation and discovery. It will be a state of the art facility located 13 on the Southampton campus that replaces an aging plant located in the 14 midst of Southampton village. New SH will serve as the focus of innovative hospital, community, and population based health care for the East End and beyond. It will also be an anchor for the development of the 16 Southampton campus as a site of advanced technology, clinical research, 17 and education for the health sciences and the general health care commu-18 nity. In addition to its proximity to other health science programs, the 19 20 new location will enhance access to care for the community and broaden 21 the reach of Stony Brook Medicine well beyond its current area.

The legislature further finds that granting the trustees of the state university of New York the authority and power to lease and otherwise contract to make available grounds and facilities of the campus of the State University of New York at Stony Brook will enable SBUH to fulfill
