# IN ASSEMBLY

January 12, 2017

Introduced by M. of A. JENNE -- read once and referred to the Committee on Health

AN ACT to amend the public health law, in relation to requiring general hospitals to offer information about an anti-viral prophylaxis to high-risk infants for the prevention of respiratory syncytial virus

**The People of the State of New York, represented in Senate and Assembly, do enact as follows:**

Section 1. The public health law is amended by adding a new section 2805-z to read as follows:

**§ 2805-z. Prevention of respiratory syncytial virus in premature infants. It shall be the duty of the administrative officer or other designated person at each facility licensed pursuant to this article caring for newborn infants to offer to the person in parental relation to a premature infant or child under the age of two and at risk for respiratory syncytial virus U.S. food and drug administration information about approved medication for the prophylaxis for respiratory syncytial virus (RSV) for said infant or child.**

§ 2. This act shall take effect immediately.

EXPLANATION--Matter in *italics* (underscored) is new; matter in brackets [-] is old law to be omitted.
