15 ter 109 of the laws of 2006, is amended to read as follows:

16 (d) A municipality that is granted an award or awards under this

53 and characteristics and to eliminate or prevent the development and  
54 spread of [~~deterioration and~~] blight through the clearance, replanning,  
55 reconstruction, rehabilitation, conservation or renewal of such areas,

11 tracks, bridge and tunnel approaches and entrances, or other similar  
12 facilities, over which air rights and easements or other rights of user  
13 necessary for the use and development of such air rights, to be devel-  
14 oped as air rights sites for the elimination of the blighting influence,  
15 or any combination thereof and may include land, buildings or improve-  
16 ments, or air rights and concomitant easements or other rights of user

22 municipal law, as amended by chapter 829 of the laws of 1968, is amended  
23 to read as follows:

24 (a) Notwithstanding anything contained in this article to the contra-  
25 ry, the commissioner may in the name of the state, within appropriations  
26 heretofore or hereafter made for state capital grants to assist in  
27 carrying out one or more local urban renewal programs, make or contract  
28 to make state capital grants to municipalities to assist in financing  
29 the cost of the preparation and completion of one or more community  
30 renewal programs.

31 A community renewal program may include, without being limited to (1)

42 § 520. Construction. This article shall be construed liberally to

50 five hereof and of authorizing municipalities to undertake one or more  
51 programs of urban renewal with respect to the clearance, replanning,

2 other uses and to apply for and accept federal or state loans, subsidies  
3 or grants in connection therewith. Insofar as the provisions of this  
4 article are inconsistent with the provisions of any other general,  
5 special or local law, the provisions of this article shall be control-  
6 ling.

16 blight and promote the economic and physical development of such areas  
17 through the construction, reconstruction, rehabilitation and improvement  
18 of residential, commercial and industrial structures and facilities
