

STATE OF NEW YORK

2831

2017-2018 Regular Sessions

IN ASSEMBLY

January 23, 2017

Introduced by M. of A. ENGLEBRIGHT, RIVERA, TITUS, LUPARDO, M. G. MILLER
-- Multi-Sponsored by -- M. of A. COLTON, CUSICK, FARRELL, GUNTHER,
PERRY -- read once and referred to the Committee on Health

AN ACT to amend the social services law, the environmental conservation
law and the public health law, in relation to the protection of air
quality for day care centers

The People of the State of New York, represented in Senate and Assem-
bly, do enact as follows:

1 Section 1. Legislative intent. The legislature finds and declares that
2 it shall be the policy of the state of New York to provide every child
3 with an environmentally safe and healthy learning environment in which
4 to grow, learn and mature into productive and healthy adults. To ensure
5 that day care facilities provide this setting for our children, the
6 legislature finds that standards for day care facilities must be protec-
7 tive of children's environmental health and safety. Children are unique-
8 ly vulnerable to and may be severely affected by exposure to chemicals,
9 hazardous wastes and other environmental hazards, which affect their
10 learning abilities as well as create chemical-based responses and sensi-
11 tivities. It is the purpose of this legislation to reduce as much as
12 possible such exposures for children and day care facility staff.

13 § 2. Section 390-a of the social services law is amended by adding
14 three new subdivisions 6, 7 and 8 to read as follows:

15 6. (a) No license shall be issued or renewed for a child day care
16 center as defined in section three hundred ninety of this title, or a
17 head start day care center funded pursuant to title V of the federal
18 economic opportunity act of nineteen hundred sixty-four, as amended, if
19 the building or its outdoor recreational area would be adversely
20 impacted due to its proximity to existing and known environmental
21 hazards, including industrial facilities, combustion facilities, inac-
22 tive hazardous waste sites, hazardous substance sites, municipal or
23 commercial landfills, and other environmental health hazards such as

EXPLANATION--Matter in italics (underscored) is new; matter in brackets
[-] is old law to be omitted.

LBD07102-01-7

1 radon, lead, chlorinated hydrocarbons and other toxic contaminants as
2 determined by the departments of environmental conservation and health.

3 (b) The commissioner of children and family services shall consult
4 with the commissioners of environmental conservation and health prior to
5 the approval of any new site for a child day care center or head start
6 day care center to ensure that such facility or its outdoor recreational
7 area will not be adversely impacted due to its proximity to any existing
8 and known environmental or environmental health hazards.

9 7. (a) No license shall be issued to a new child day care center or
10 new head start day care center unless the building shall provide for the
11 following where applicable: heating, ventilation and air conditioning
12 systems that meet currently accepted industry ventilation standards;
13 placement of air intake vents so as to maximize healthful indoor air
14 quality; design practices that minimize ingress of and conditions favor-
15 able to pest populations; construction techniques and ventilation
16 systems designed to eliminate radon levels in indoor air; and other
17 measures necessary to maintain healthful, safe and comfortable condi-
18 tions therein.

19 (b) Child day care centers or head start day care centers which are
20 licensed prior to the effective date of this subdivision and which do
21 not meet the requirements of paragraph (a) of this subdivision, shall
22 meet such requirements within one year from the renewal date of their
23 license, otherwise such license shall not be renewed.

24 8. In the event that any new environmental or environmental health
25 hazard is identified due to its proximity to a child day care center or
26 head start day care center, the office of children and family services
27 shall request the department of health to evaluate the impact of such
28 hazard on the child day care center or head start day care center, and
29 if the new environmental or environmental health hazard is found to have
30 an impact, the department of health shall require such facility creating
31 such new environmental or environmental health hazard to remediate the
32 hazard within ninety days without any adverse action upon the license or
33 license renewal of the child day care center or head start day care
34 center.

35 § 3. The environmental conservation law is amended by adding a new
36 section 3-0320 to read as follows:

37 § 3-0320. Information for the office of children and family services.

38 Pursuant to subdivision six of section three hundred ninety-a of the
39 social services law the department shall annually provide all necessary
40 information to the office of children and family services regarding
41 existing and known locations of existing and known environmental
42 hazards, including industrial facilities, combustion facilities, inac-
43 tive hazardous waste sites, hazardous substance sites, municipal or
44 commercial landfills, and other environmental health hazards such as
45 radon, lead, chlorinated hydrocarbons and other toxic contaminants as
46 determined by the department and the department of health. Whenever the
47 office of children and family services requests such information from
48 the department, such information shall be provided within thirty days of
49 receipt of such request.

50 § 4. The public health law is amended by adding a new section 201-a to
51 read as follows:

52 § 201-a. Information for the office of children and family services.
53 Pursuant to subdivision six of section three hundred ninety-a of the
54 social services law, the department shall annually provide all necessary
55 information to the office of children and family services regarding
56 existing and known locations of environmental health hazards such as

1 radon, lead, chlorinated hydrocarbons and other toxic contaminants.
2 Whenever the office of children and family services requests such infor-
3 mation from the department, such information shall be provided within
4 thirty days of receipt of such request.

5 § 5. This act shall take effect on the ninetieth day after it shall
6 have become a law.
