tion, and shall, in no event, impose a fee greater than the actual expenses incurred through the rental of the space used by the not-for-profit or charitable organization. Actual expenses may include any additional staff or contractor time, facilities maintenance activities, utilities charges and additional security measures incurred directly due to the presence of the program in the schoolhouse or on the grounds when not in use for school purposes and activities conducted by the program. Actual expenses shall not include any staff or contractor time, maintenance activities, utility costs or security measures that would have been incurred if the program had not been held. If more than one organization is holding an activity in the schoolhouse or on the grounds when not in use for school purposes at the same time, actual expenses shall be divided proportionately between such organizations and shall not exceed the total actual expenses incurred. The not-for-profit or charitable organization, upon request, shall be provided with documentation of the actual expenses incurred.

§ 3. Subdivision 27 of section 2590-h of the education law, as amended by chapter 345 of the laws of 2009, is amended to read as follows:

27. Promulgate regulations, in conjunction with each community superintendent, establishing a plan for providing access to school facilities in each community school district, when not in use for school purposes, in accordance with the provisions of section four hundred fourteen of this chapter. Such plan shall set forth a reasonable system of fees not to exceed the actual costs and specify that no part of any fee shall directly or indirectly benefit or be deposited into an account which inures to the benefit of the custodians or custodial engineers. Actual costs may include any additional staff or contractor time, facilities maintenance activities, utilities charges and additional security measures incurred directly due to the presence of an organization in school facilities when not in use for school purposes and the activities conducted by that organization. Actual costs shall not include any staff or contractor time, maintenance activities, utility costs or security measures that would have been incurred if those activities had not been held. If more than one organization is holding an activity in the school facilities when not in use for school purposes at the same time, actual costs shall be divided proportionately between such organizations and shall not exceed the total actual costs incurred. The plan shall provide that the organization shall, upon request, be provided with documentation of the actual costs incurred. Notwithstanding any other provision of law, rule or regulation to the contrary, such plan may provide that either no fee or a minimal fee shall be charged for the use of school facilities by a not-for-profit or charitable organization that presents some form of educational instruction or academic material, or provides physical education, arts instruction, community service or other activities to promote youth development.

§ 4. Subdivision 27 of section 2590-h of the education law, as amended by chapter 720 of the laws of 1996, is amended to read as follows:

27. Develop, in conjunction with each community superintendent, a plan for providing access to school facilities in each community school district, when not in use for school purposes, in accordance with the provisions of section four hundred fourteen of this chapter. Such plan shall set forth a reasonable system of fees not to exceed the actual costs and specify that no part of any fee shall directly or indirectly benefit or be deposited into an account which inures to the benefit of the custodians or custodial engineers. Actual costs may include any additional staff or contractor time, facilities maintenance activities,

utilities charges and additional security measures incurred directly due to the presence of an organization in school facilities when not in use for school purposes and the activities conducted by that organization. Actual costs shall not include any staff or contractor time, maintenance activities, utility costs or security measures that would have been incurred if those activities had not been held. If more than one organization is holding an activity in the school facilities when not in use for school purposes at the same time, actual costs shall be divided proportionately between such organizations and shall not exceed the total actual costs incurred. The plan shall provide that the organization shall, upon request, be provided with documentation of the actual costs incurred. Notwithstanding any other provision of law, rule or regulation to the contrary, such plan may provide that either no fee or a minimal fee shall be charged for the use of school facilities by a not-for-profit or charitable organization. The use of such facilities shall only be for bona fide after-school programs that present some form of educational instruction or academic material, or promote physical education.
