The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. Article 28 of the agriculture and markets law is renumbered article 26-C, section 500 is renumbered section 420 and a new section 421 is added to read as follows:

§ 421. Retail food store, food service establishment and food warehouse grading system. 1. The commissioner shall establish a system for grading inspection results for retail food stores, food service establishments and food warehouses, as defined in section four hundred twenty of this article. Such system shall use and post letters A, B or C to identify and represent such grading and classification with all other lower grades being deemed to be failing grades. In establishing such system of grading, the commissioner shall take into account the provisions of title eight of article thirteen of the public health law and the provisions of the sanitary code to establish a grading system that reflects the safety and sanitation of the premises and food handling practices to ensure compliance with state and local laws.

2. Such retail food stores, food service establishments and food warehouses shall conspicuously post near the entrance to such establishment the letter grade identifying and representing the result of such establishment's most recently graded inspection by the department. Such posting shall be done in accordance with rules and regulations promulgated by the commissioner. In addition to a letter grade, such establishment shall receive the findings upon which such grade is based. The retail food store, food service establishment or food warehouse may appeal such subsequent assignment of a letter grade designation to the commissioner
