1	(b) "Lymphedema" shall mean an accumulation of lymphatic fluid in the
2	interstitial tissue that causes swelling, most often in the arms and/or
3	legs, and occasionally in other parts of the body, from any cause.
4	
5	ficiency of lymphatic circulatory function (to include all forms of
6	lymphedema), lipedema, complex congenital diseases of the lymphatic
7	vasculature, including lymphangiomatosis, lymphangioleio-myomatosis,
8	lymphangiectasias, lymphangiomas, cystic hygromas, Gorham's disease,
9	lymphangiosarcoma, and complex vascular/lymphatic malformations.
10	3. In addition to such other criteria as the foundation may adopt in
11	rules and regulations for the consideration of applications for grants
12	pursuant to subdivision one of this section, the foundation shall:
13	(a) determine that the applicant is unable to obtain sufficient fund-
14	ing on reasonable terms from other public or private sources to permit
15	the institution's planned investment to proceed without the required
16	assistance;
17	(b) give priority to those applications for assistance from biomedical
18	research institutions that secure private support for research or commit
19	new resources to the expansion of lymphedema and lymphatic diseases
20	research; and
21	(c) consider the potential long term economic benefits to the state of
22	awarding the specific grant and whether the grant will result in a
23	reasonable likelihood of success in meeting the purposes for which it
24	was sought by the applicant.
25	4. The foundation, in consultation with the department of health, may
26	apply to the national institutes of health, the United States department
