budget conference committee, for specific areas of the budget to be determined by the general budget conference committee. Such procedures shall include a requirement that all meetings of the general budget conference committee and of the subcommittees be held in public. The general budget conference committee shall provide estimates of any moneys estimated to be available for the ensuing fiscal year from sources other than in subdivision six of section twenty-three of this article. Such estimate when combined with those estimates required by subdivision six of section twenty-three of this article shall be all moneys from such sources described in this subdivision estimated to be available to make disbursements authorized by the appropriation bills submitted by the governor pursuant to section three of article seven of the constitution and acted on by the legislature for the ensuing fiscal year. The general budget conference committee shall establish limitations on disbursements which may be agreed to by each budget conference subcommittee to insure that total disbursements to be made for the ensuing fiscal year do not exceed the final estimate of moneys and revenues available to make such disbursements as provided by subdivision six of section twenty-three of this article. The number of budget conference subcommittees and the membership of the budget conference subcommittee shall be determined by the general budget conference committee; provided, however, that no less than one member of each budget conference subcommittee shall be appointed each by the temporary president of the senate, the minority leader of the senate, the speaker of the assembly and the minority leader of the assembly.

3. After the establishment of limitations on disbursements for each budget conference subcommittee as provided by subdivision two of this section, each budget conference subcommittee shall convene at a time or times determined by the general budget conference committee and shall report back to the general budget conference committee at a time or times determined by the general budget conference committee on the results of efforts to resolve the differences between each house in the specific areas of the budget assigned to each subcommittee. On completion of efforts to resolve all differences between each house, each budget conference subcommittee shall submit a final report to the general budget conference committee on the results of such efforts and make recommendations for final action to be taken on the budget bills submitted by the governor for the ensuing fiscal year. Each final report shall also indicate the estimated impact that each recommendation would have on state finances for the ensuing and next two succeeding fiscal years.

4. The general budget conference committee shall either approve the final report of each budget conference subcommittee or agree upon modifications of such subcommittee reports, and, the general budget conference committee shall report in writing to the temporary president of the senate, the minority leader of the senate, the speaker of the assembly and the minority leader of the assembly on all recommendations for final action to be taken on the budget bills submitted by the governor for the ensuing fiscal year. The final general conference committee report shall include the estimated impact of any proposed modifications to law that affect receipts for the ensuing and next two succeeding fiscal years. Such final general conference committee report shall be made available to the public.

There shall be transferred to the tax stabilization reserve fund all of such surplus moneys, up to and including an amount equivalent to [~~two-tenths~~] **one-half** of one per centum of such norm, unless such transfer would increase such reserve fund to an amount in excess of [~~two~~] **five** per centum of the amount of the norm for such fiscal year, in which event such transfer shall be limited to such amount as will increase such reserve fund to such [~~two~~] **five** per centum limitation. § 4. The legislative law is amended by adding a new section 53-a to read as follows:

After the commencement of the fiscal year of the state, until all the appropriation bills submitted by the governor for that fiscal year and all the bills submitted by the governor containing the proposed legislation recommended in the budget for that fiscal year shall have been finally acted on by both houses of the legislature, neither house shall consider or take any action whatsoever on any other bill, resolution or other matter pending before either such house or any committee thereof, except for appropriation bills submitted to the legislature on message from the governor certifying to the necessity of the immediate passage of such bill.

§ 5. Section 54 of the legislative law is amended by adding three new subdivisions 3, 4 and 5 to read as follows:

The summary report shall further describe the impact of proposed legislative amendments on the receipt and disbursement estimates contained in the executive budget for such fiscal year and for the succeeding two fiscal years. The summary report shall be in such format as the division of the budget may determine.

5. The division of the budget summary report as described in subdivision four of this section shall be placed on the desks of each member of the legislature, and shall be made available to the public for a period of at least forty-eight hours prior to the passage of the appropriation bills and related legislation by each house.
