2 sale per year for profit. Such term shall not include duly incorporated
3 humane societies dedicated to the care of unwanted animals which make
4 such animals available for adoption whether or not a fee for such
5 adoption is charged.

6 § 421. Preemption of local laws. The provisions of this article shall
7 apply to all municipalities, including cities with a population of one
8 million or more, and shall supersede any local law, rule, regulation or
9 ordinance regulating or licensing breeders. Nothing in this section
10 shall be construed to limit or restrict any municipality from enforcing
11 any local law, rule, regulation or ordinance of general application to
12 businesses governing public health, safety or the rights of consumers.

13 § 422. Minimum standards of animal care. Breeders shall comply with
14 the following minimum standards of care for every animal in their custo-
15 dy or possession.

16 1. Housing. (a) Animals shall be housed in primary enclosures or
17 cages, which shall be constructed so as to be structurally sound. Such
18 enclosures shall be maintained in good repair to contain the animal
19 housed inside and protect it from injury. Surfaces shall have an imper-
20 vious surface so as not to permit the absorption of fluids and which can
21 be thoroughly and repeatedly cleaned and disinfected without retaining
22 odors.

23 (b) Primary enclosures or cages housing the animals shall provide
24 sufficient space to allow each animal adequate freedom of movement to
25 make normal postural adjustments, including the ability to stand up,
26 turn around, and lie down with its limbs outstretched. If the flooring
27 is constructed of metal strands, such strands shall either be greater
28 than one-eighth inch in diameter (nine gauge wire) or shall be coated
29 with material such as plastic or fiberglass, and shall be constructed so
30 as to not allow passage of the animal's feet through any opening in the
31 floor of the enclosure. Such flooring shall not sag or bend substantial-
32 ly between structural supports.

33 (c) Housing facilities shall be adequately ventilated at all times to
34 provide for the health and well-being of the animal. Ventilation shall
35 be provided by natural or mechanical means, such as windows, vents,
36 fans, or air conditioners. Ventilation shall be established to minimize
37 drafts, odors, and moisture condensation.

38 (d) The temperature surrounding the animal shall be compatible with
39 the health and well-being of the animal. Temperature shall be regulated
40 by heating and cooling to sufficiently protect each animal from extremes
41 of temperature and shall not be permitted to fall below or rise above
42 ranges which would pose a health hazard to the animal. This shall
43 include supplying shade from sunlight by natural or artificial means.

44 (e) The indoor facilities housing the animals shall be provided with
45 adequate lighting sufficient to permit routine inspection and cleaning
46 and be arranged so that each animal is protected from excessive illumi-
47 nation which poses a health hazard to the animal.

48 (f) The indoor and outdoor facilities housing the animals, including
49 the primary enclosure or cage, shall be designed to allow for the effi-
50 cient elimination of animal waste and water in order to keep the animal
51 dry and prevent the animal from coming into contact with these
52 substances. If drains are used they shall be constructed in a manner to
53 minimize foul odors and backups of sewage. If a drainage system is used
54 it shall comply with federal, state and local laws relating to pollution
55 control.

1 (g) In the event that a breeder has a pregnant or nursing dog on his
2 or her premises, the breeder shall provide a whelping box for such dog.

3 2. Sanitation. Housing facilities, including primary enclosures and
4 cages, shall be kept in a clean condition in order to maintain a healthy
5 environment for the animal. This shall include removing and destroying
6 any agents injurious to the health of the animal and periodic cleaning.
7 The primary enclosure or cage shall be constructed so as to eliminate
8 excess water, excretions, and waste material. Under no circumstances
9 shall the animal remain inside the primary enclosure or cage while it is
10 being cleaned with sterilizing agents or agents toxic to animals or
11 cleaned in a manner likely to threaten the health and safety of the
12 animal. Trash and waste products on the premises shall be properly
13 contained and disposed of so as to minimize the risks of disease,
14 contamination, and vermin.

15 3. Feeding and watering. (a) Animals shall be provided with wholesome
16 and palatable food, free from contamination and of nutritional value
17 sufficient to maintain each animal in good health.

18 (b) Animals shall be adequately fed at intervals not to exceed twelve
19 hours or at least twice in any twenty-four hour period in quantities
20 appropriate for the animal species' age, unless determined otherwise by
21 and under the direction of a duly licensed veterinarian.

22 (c) Food receptacles shall be provided in sufficient number, of
23 adequate size, and so located as to enable each animal in the primary
24 enclosure or cage to be supplied with an adequate amount of food.

25 (d) Animals shall be provided with regular access to clean, fresh
26 water, supplied in a sanitary manner sufficient for its needs, except
27 when there are instructions from a duly licensed veterinarian to with-
28 hold water for medical reasons.

29 4. Handling. Each animal shall be handled in a humane manner so as not
30 to cause the animal physical injury or harm.

31 5. Veterinary care. (a) All animals shall be inoculated as required by
32 state or local law. Veterinary care appropriate to the species shall be
33 provided without undue delay when necessary. Each animal shall be
34 observed each day by the breeder or by a person working under the
35 breeder's supervision.

36 (b) If an animal suffers from a congenital or hereditary condition,
37 disease or illness which, in the professional opinion of the breeder's
38 veterinarian, requires euthanasia, the veterinarian shall humanely
39 euthanize such animal without undue delay.

40 (c) In the event an animal is returned to a breeder due to a congen-
41 ital or hereditary condition, illness, or disease requiring veterinary
42 care, the breeder shall, without undue delay, provide the animal with
43 the proper veterinary care.
