STATE OF NEW YORK

7648

2017-2018 Regular Sessions

IN ASSEMBLY

May 5, 2017

Introduced by M. of A. CROUCH -- read once and referred to the Committee on Governmental Operations

AN ACT to amend the public buildings law, in relation to requiring the state install alternative energy infrastructure on the roofs of all state facilities where practicable or on state owned property adjacent to building

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. The section heading and subdivision 1 of section 83 of the public buildings law, as added by chapter 380 of the laws of 2009, are amended to read as follows:

Agency green building **and alternative energy infrastructure** construction requirements. 1. **(a)** The construction of new buildings and the substantial renovation of existing buildings shall comply with such green construction requirements and procedures as shall have been established by the office in regulations pursuant to subdivision two of this section.

(b) All state owned buildings shall comply with the alternative energy infrastructure standards and regulations promulgated by the office pursuant to subdivision two of this section. Such standards and regulations shall require the use of methods including, but not be limited to, installing alternative energy infrastructure where practicable on the roofs of all state owned buildings or, where the roof of a building is not practicable, state owned property adjacent to the building.

§ 2. This act shall take effect immediately.

EXPLANATION--Matter in *italics* (underscored) is new; matter in brackets [-] is old law to be omitted.
