2017-2018 Regular Sessions

IN ASSEMBLY

May 18, 2017

Introduced by M. of A. PEOPLES-STOKES -- (at request of the State Comptroller) -- read once and referred to the Committee on Governmental Operations

AN ACT to amend the state finance law, in relation to establishing the ethical standards for state agency contractors act

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. Legislative findings and intent. The legislature finds that 1 2 to a great extent, state agencies and public authorities rely on 3 contractors to help accomplish a broad array of complex, inherently 4 governmental and mission-critical functions. State agencies and public authorities contract for services that involve the contractors' exercise 5 of judgment, providing operational and policy advice to state officers 6 7 and employees, overseeing other contractors and, at times, working 8 alongside state officers and employees on the same projects. This inter-9 mingling of public and private workforce reveals a need to address what 10 processes are in place to ensure the integrity of government operations 11 and maintain public confidence.

While a majority of contractors deliver services with integrity, some contractors could, nonetheless, engage in misconduct during the course of the contract term - for example, engaging in acts for personal financial gain, accepting inappropriate gifts, or inappropriately negotiating for certain jobs.

Furthermore, in carrying out the day-to-day tasks for state agencies and public authorities, contractors often require extensive access to and use of nonpublic government information. Protection of nonpublic information is critical, because unauthorized disclosure can erode the integrity of government operations and lead to situations in which such information is misused for private gain, potentially harming important interests such as the privacy of individuals, commercial business proprietary rights, security, and law enforcement.

EXPLANATION--Matter in <u>italics</u> (underscored) is new; matter in brackets [-] is old law to be omitted.

LBD00495-01-7

The legislature further finds that opportunities for organizational 1 2 and personal conflicts of interest by contractors, and the misuse of nonpublic information by contractors through negligence or misconduct, 3 4 can have a significant effect on the government's ability to perform its 5 primary functions, potentially resulting in inappropriate use of taxpayб er dollars, damaged reputation, and loss of public trust. 7 The legislature further finds that while few cases of improper conduct 8 by contractors have been publicly identified, safeguards are lacking to 9 identify whether organizational or personal conflicts of interest exist 10 among contractors. The cost to the state of contractors or their employ-11 ees engaging in actions reaping organizational or personal gain - an outcome increasingly likely based on sheer numbers - would likely never 12 13 be known, let alone calculable, as long as there is no transparency. 14 § 2. Short title. This act shall be known and may be cited as the 15 "ethical standards for state agency contractors act". 16 § 3.
