AN ACT to amend the retirement and social security law, in relation to impairments of health, presumption and staph/MRSA

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

1 Section 1. The retirement and social security law is amended by adding
2 a new section 363-ddd to read as follows:

3 § 363-ddd. Impairments of health; presumption; Staph/MRSA. Notwith-
4 standing any provision of this chapter or of any general, special or
5 local law to the contrary, any police officer or firefighter who is
6 covered by the provisions of section three hundred sixty-three of this
7 title and who contracts methicillin resistant staphylococcus aureus
8 (MRSA) or Staph/MRSA will be presumed to have contracted such disease in
9 the performance or discharge of his or her duties as the natural and
10 proximate result of an accident and to be disabled from the performance
11 of his or her duties unless the contrary be proven by competent
12 evidence.

13 § 2. Notwithstanding any other provision of law to the contrary, none
14 of the provisions of this act shall be subject to section 25 of the
15 retirement and social security law.

16 § 3. This act shall take effect immediately.

FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

This bill will affect certain members of the New York State and Local Police and Fire Retirement System by presuming that contracting MRSA or

Staph/MRSA will qualify them for an accidental disability retirement, unless the contrary be proven by competent evidence.

If this bill is enacted, it would lead to more disabilities being classified as "accidental". The cost of the revised benefit will depend upon the applicant's age, service, salary, plan, and benefit type otherwise payable.

Benefit without enactment:	None	Ordinary Disability	In Performance of Duty Disability	Service
Cost for revised benefit:	9 times salary	5 times salary	2.5 times salary	2 times salary

However, we anticipate that few additional accidental disability retirements will be granted, and thus, the resulting costs are expected to be negligible.
