6 consisting of such unpaid amounts, together with interest thereon,
7 compounded annually; and

8 (B) such interest on each amount of undeducted contributions shall

7 (i) the amount of any unpaid contribution deficiency chargeable to
8 such member pursuant to paragraph three of this subdivision; plus

9 (ii) the amount of any unpaid balance of a loan of his or her addi-

15 sion, and a benefit, other than a refund of a member's accumulated
16 deductions or a refund of additional member contributions pursuant to
17 paragraph seven of this subdivision, becomes payable by the retirement
18 system to the participant or to his or her designated beneficiary or
19 estate, the actuarial equivalent of any such unpaid amount shall be
20 deducted from the benefit otherwise payable.

21 7. (i) All additional member contributions required by this subdivi-
22 sion (and any interest thereon) which are received by the retirement
23 system shall be paid into its contingent reserve fund and shall be the
24 property of the retirement system. Such additional member contributions
25 (and any interest thereon) shall not for any purpose be deemed to be
26 member contributions or accumulated deductions of a member of the
27 retirement system under section 13-125 or section 13-162 of the adminis-
28 trative code while he or she is a participant in the twenty-five year
29 improved benefit retirement program or otherwise.

38 ment system, together with interest thereon at the rate of interest
39 required by law to be used to credit interest on the accumulated
40 deductions of retirement system members compounded annually.

42 no person shall be permitted to withdraw from the retirement system any
43 additional member contributions paid pursuant to this subdivision or any
44 interest paid thereon, except pursuant to and in accordance with the
45 preceding subparagraphs of this paragraph; and (B) no person, while he

49 preceding subparagraphs of this paragraph or otherwise.

50 8. A participant in the twenty-five year improved benefit retirement
51 program shall be permitted to borrow from his or her additional member

56 shall be governed by the same rights, privileges, obligations and proce-

The board of trustees of the retirement system may, consistent with the provisions of this subdivision and the provisions of section six hundred thirteen-b of this chapter as made applicable to this subdivision, promulgate regulations governing the borrowing of such additional member contributions.

9. Wherever a person has an unpaid balance of a loan of his or her additional member contributions pursuant to paragraph eight of this subdivision at the time he or she becomes entitled to a refund of his or her additional member contributions pursuant to subparagraph (ii) of paragraph seven of this subdivision, the amount of such unpaid loan balance (including accrued interest) shall be deemed to have been returned to such member, and the refund of such additional contributions shall be the net amount of such contributions, together with interest thereon in accordance with the provisions of such subparagraph.

10. Notwithstanding any other provision of law to the contrary, the provisions of section one hundred thirty-eight-b of this chapter shall not be applicable to the additional member contributions which are required by this subdivision.

11. Notwithstanding any other provision of law to the contrary, the additional member contributions which are required by this subdivision shall not be reduced under any program for increased-take-home-pay.

35 and shall not be eligible for the benefits of subdivision c of this
36 section.

37 6. Where any participant in the twenty-five year retirement program

40 again become such a participant on that date.

41 7. Notwithstanding any other provision of law to the contrary, any

44 subdivision for the full one hundred eighty day period provided for in
45 such applicable paragraph and who fails to timely file a duly executed
46 application for such participation with the retirement system, shall not
47 thereafter be eligible to become a participant in such program.

7 2. (i) Notwithstanding any other provision of law to the contrary, and
8 subject to the provisions of paragraph six of subdivision e of this
9 section, the early service retirement benefit for participants in the
10 twenty-five year retirement program who retire pursuant to paragraph one
11 of this subdivision shall be a retirement allowance consisting of:

12 (A) an amount, on account of the required minimum period of service,
13 equal to fifty percent of his or her final average salary; plus

19 shall equal that payable upon completion of thirty years of service.

20 d. Vesting. 1. A participant in the twenty-five year retirement
21 program:

22 (i) who discontinues service as such a participant, other than by
23 death or retirement; and

24 (ii) who prior to such discontinuance, completed five but less than
25 twenty-five years of credited service; and

26 (iii) who, subject to the provisions of paragraph seven of subdivision
27 e of this section, has paid, prior to such discontinuance, all addi-
28 tional member contributions and interest (if any) required by subdivi-
29 sion e of this section; and

30 (iv) who does not withdraw in whole or in part his or her accumulated
31 member contributions pursuant to section six hundred thirteen of this
32 article unless such participant thereafter returns to public service and
33 repays the amounts so withdrawn, together with interest, pursuant to
34 such section six hundred thirteen; shall be entitled to receive a
35 deferred vested benefit as provided in this subdivision.

36 2. (i) Upon such discontinuance under the conditions and in compliance
37 with the provisions of paragraph one of this subdivision, such deferred
38 vested benefit shall vest automatically.

39 (ii) Such vested benefit shall become payable on the earliest date on
40 which such discontinued member could have retired for service if such
41 discontinuance had not occurred.

42 3. Subject to the provisions of paragraph seven of subdivision e of
43 this section, such deferred vested benefit shall be a retirement allow-
44 ance consisting of an amount equal to two percent of such discontinued
45 member's final average salary, multiplied by the number of years of
46 credited service.

47 e. Additional member contributions. 1. In addition to the member
48 contributions required by section six hundred thirteen of this article,
49 each participant in the twenty-five year retirement program shall
50 contribute to the retirement system of which he or she is a member
51 (subject to the applicable provisions of subdivision d of section six
52 hundred thirteen of this article) an additional six percent of his or
53 her compensation earned from (i) all credited service, as a participant
54 in the twenty-five year retirement program, rendered on or after the
55 starting date of the twenty-five year retirement program, and (ii) all
56 credited service after such person ceases to be a participant, but

1 before he or she again becomes a participant pursuant to paragraph six
2 of subdivision b of this section. The additional contributions required
3 by this subdivision shall be in lieu of additional member contributions
4 required by subdivision d of section six hundred four-c of this article,
5 as added by chapter ninety-six of the laws of nineteen hundred ninety-
6 five, and no member making contributions pursuant to this section shall
7 be required to make contributions pursuant to such subdivision d of
8 section six hundred four-c of this article.

9 2. A participant in the twenty-five year retirement program shall
10 contribute additional member contributions until the later of (i) the
11 first anniversary of the starting date of the twenty-five year retire-
12 ment program, or (ii) the date on which he or she completes thirty years
13 of credited service as a water supply police member.

14 3. Commencing with the first full payroll period after each person
15 becomes a participant in the twenty-five year retirement program, addi-
16 tional member contributions at the rate specified in paragraph one of
17 this subdivision shall be deducted (subject to the applicable provisions
18 of subdivision d of section six hundred thirteen of this article) from
19 the compensation of such participant on each and every payroll of such
20 participant for each and every payroll period for which he or she is
21 such a participant.

22 4. (i) Each participant in the twenty-five year retirement program
23 shall be charged with a contribution deficiency consisting of the total
24 amounts of additional member contributions such person is required to
25 make pursuant to paragraphs one and two of this subdivision which are
26 not deducted from his or her compensation pursuant to paragraph three of
27 this subdivision, if any, together with interest thereon, compounded
28 annually, and computed in accordance with the provisions of subpara-
29 graphs (ii) and (iii) of this paragraph.

30 (ii) (A) The interest required to be paid on each such amount speci-
31 fied in subparagraph (i) of this paragraph shall accrue from the end of
32 the payroll period for which such amount would have been deducted from
33 compensation if he or she had been a participant at the beginning of
34 that payroll period and such deduction had been required for such
35 payroll period, until such amount is paid to the retirement system.

36 (B) The rate of interest to be applied to each such amount during the
37 period for which interest accrues on that amount shall be equal to the
38 rate or rates of interest required by law to be used during that same
39 period to credit interest on the accumulated deductions of retirement
40 system members.

41 (iii) Except as otherwise provided in paragraph five of this subdivi-
42 sion, no interest shall be due on any unpaid additional member contrib-
43 utions which are not attributable to a period prior to the first full
44 payroll period referred to in paragraph three of this subdivision.

45 5. (i) Should any person who, pursuant to subparagraph (ii) of para-
46 graph ten of this subdivision, has received a refund of his or her addi-
47 tional member contributions including any interest paid on such contrib-
48 utions, again become a participant in the twenty-five year retirement
49 program pursuant to paragraph six of subdivision b of this section, an
50 appropriate amount shall be included in such participant's contribution
51 deficiency (including interest thereon as calculated pursuant to subpar-
52 agraph (ii) of this paragraph) for any credited service for which such
53 person received a refund of such additional member contributions
54 (including any amount of an unpaid loan balance deemed to have been
55 returned to such person pursuant to paragraph twelve of this subdivi-
56 sion), as if such additional member contributions never had been paid.

1 (ii) (A) Interest on a participant's additional member contributions
2 included in such participant's contribution deficiency pursuant to
3 subparagraph (i) of this paragraph shall be calculated as if such addi-
4 tional member contributions had never been paid by such participant, and
5 such interest shall accrue from the end of the payroll period to which
6 an amount of such additional member contributions is attributable, until
7 such amount is paid to the retirement system.

8 (B) The rate of interest to be applied to each such amount during the
9 period for which interest accrues on that amount shall be five percent
10 per annum, compounded annually.

11 6. Where a participant who is otherwise eligible for service retire-
12 ment pursuant to subdivision c of this section did not, prior to the
13 effective date of retirement, pay the entire amount of a contribution
14 deficiency chargeable to him or her pursuant to paragraphs four and five
15 of this subdivision, or repay the entire amount of a loan of his or her
16 additional member contributions pursuant to paragraph eleven of this
17 subdivision (including accrued interest on such loan), that participant,
18 nevertheless, shall be eligible to retire pursuant to subdivision c of
19 this section, provided, however, that such participant's service retire-
20 ment benefit calculated pursuant to paragraph two of such subdivision c
21 shall be reduced by a life annuity (calculated in accordance with the
22 method set forth in subdivision i of section six hundred thirteen-b of
23 this article) which is actuarially equivalent to:

24 (i) the amount of any unpaid contribution deficiency chargeable to
25 such member pursuant to paragraphs four and five of this subdivision;
26 plus

27 (ii) the amount of any unpaid balance of a loan of his or her addi-
28 tional member contributions pursuant to paragraph eleven of this subdivi-
29 vision (including accrued interest on such loan).

30 7. Where a participant who is otherwise eligible for a vested right to
31 a deferred benefit pursuant to subdivision d of this section did not,
32 prior to the date of discontinuance of service, pay the entire amount of
33 a contribution deficiency chargeable to him or her pursuant to para-
34 graphs four and five of this subdivision, or repay the entire amount of
35 a loan of his or her additional member contributions pursuant to para-
36 graph eleven of this subdivision (including accrued interest on such
37 loan), that participant, nevertheless, shall be eligible for a vested
38 right to a deferred benefit pursuant to subdivision d of this section,
39 provided, however, that the deferred vested benefit calculated pursuant
40 to paragraph three of such subdivision d shall be reduced by a life
41 annuity (calculated in accordance with the method set forth in subdivi-
42 sion i of section six hundred thirteen-b of this article) which is actu-
43 arially equivalent to:

44 (i) the amount of any unpaid contribution deficiency chargeable to
45 such member pursuant to paragraphs four and five of this subdivision;
46 plus

47 (ii) the amount of any unpaid balance of a loan of his or her addi-
48 tional member contributions pursuant to paragraph eleven of this subdivi-
49 vision (including accrued interest on such loan).

50 8. The head of a retirement system which includes participants in the
51 twenty-five year retirement program in its membership may, consistent
52 with the provisions of this subdivision, promulgate regulations for the
53 payment of such additional member contributions, and any interest there-
54 on, by such participants (including the deduction of such contributions,
55 and any interest thereon, from the participant's compensation).

1 9. Subject to the provisions of paragraphs six and seven of this
2 subdivision, where a participant has not paid in full any contribution
3 deficiency chargeable to him or her pursuant to paragraphs four and five
4 of this subdivision, and a benefit, other than a refund of member
5 contributions pursuant to section six hundred thirteen of this article
6 or a refund of additional member contributions pursuant to subparagraph
7 (ii) of paragraph ten of this subdivision, becomes payable under this
8 article to the participant or to his or her designated beneficiary or
9 estate, the actuarial equivalent of any such unpaid amount shall be
10 deducted from the benefit otherwise payable.

11 10. (i) Such additional member contributions (and any interest there-
12 on) shall be paid into the contingent reserve fund of the retirement
13 system of which the participant is a member and shall not for any
14 purpose be deemed to be member contributions or accumulated contrib-
15 utions of a member under section six hundred thirteen of this article or
16 otherwise while he or she is a participant in the twenty-five year
17 retirement program or otherwise.

18 (ii) Should a participant in the twenty-five year retirement program
19 who has rendered less than five years of credited service cease to hold
20 a position as a water supply police member for any reason whatsoever,
21 his or her accumulated additional member contributions made pursuant to
22 this subdivision (together with any interest thereon paid to the retire-
23 ment system) may be withdrawn by him or her pursuant to procedures
24 promulgated in regulations of the board of trustees of the retirement
25 system, together with interest thereon at the rate of five percent per
26 annum, compounded annually.

27 (iii) Notwithstanding any other provision of law to the contrary, (A)
28 no person shall be permitted to withdraw from the retirement system any
29 additional member contributions paid pursuant to this subdivision or any
30 interest paid thereon, except pursuant to and in accordance with the
31 preceding subparagraphs of this paragraph; and (B) no person, while he
32 or she is a participant in the twenty-five year retirement program,
33 shall be permitted to withdraw any such additional member contributions
34 or any interest paid thereon pursuant to any of the preceding subpara-
35 graphs of this paragraph or otherwise.

36 11. A participant in the twenty-five year retirement program shall be
37 permitted to borrow from his or her additional member contributions
38 (including any interest paid thereon) which are credited to the addi-
39 tional contributions account established for such participant in the
40 contingent reserve fund of the retirement system. The borrowing from
41 such additional member contributions pursuant to this paragraph shall be
42 governed by the rights, privileges, obligations and procedures set forth
43 in section six hundred thirteen-b of this article which govern the
44 borrowing of member contributions made pursuant to section six hundred
45 thirteen of this article. The board of trustees of the retirement system
46 may, consistent with the provisions of this subdivision and the
47 provisions of section six hundred thirteen-b of this article as made
48 applicable to this subdivision, promulgate regulations governing the
49 borrowing of such additional member contributions.

50 12. Whenever a person has an unpaid balance of a loan of his or her
51 additional member contributions pursuant to paragraph eleven of this
52 subdivision at the time he or she becomes entitled to a refund of his or
53 her additional member contributions pursuant to subparagraph (ii) of
54 paragraph ten of this subdivision, the amount of such unpaid loan
55 balance (including accrued interest) shall be deemed to have been
56 returned to such member, and the refund of such additional contributions

1 shall be the net amount of such contributions, together with interest
2 thereon in accordance with the provisions of such subparagraph (ii).

3 § 6. Subdivision d of section 613 of the retirement and social securi-
4 ty law is amended by adding a new paragraph 12 to read as follows:

5 12. (i) The city of New York shall, in the case of a water supply
6 police member (as defined in paragraph one of subdivision a of section
7 six hundred four-j of this article) who is a participant in the twenty-
8 five year retirement program (as defined in paragraph four of subdivi-
9 sion a of such section six hundred four-j), pick up and pay to the
10 retirement system of which such participant is a member, all additional
11 member contributions which otherwise would be required to be deducted
12 from such member's compensation pursuant to paragraphs one and two of
13 subdivision e of such section six hundred four-j (not including any
14 additional member contributions due for any period prior to the first
15 full payroll period referred to in paragraph three of such subdivision
16 e), and shall effect such pick up on each and every payroll of such
17 participant for each and every payroll period with respect to which such
18 paragraph three would otherwise require such deductions.

19 (ii) An amount equal to the amount of additional contributions picked
20 up pursuant to this paragraph shall be deducted by such employer from
21 the compensation of such member (as such compensation would be in the
22 absence of a pick up program applicable to him or her hereunder) and
23 shall not be paid to such member.

24 (iii) The additional member contributions picked up pursuant to this
25 paragraph for any such member shall be paid by such employer in lieu of
26 an equal amount of additional member contributions otherwise required to
27 be paid by such member under the applicable provisions of subdivision e
28 of section six hundred four-j of this article, and shall be deemed to be
29 and treated as employer contributions pursuant to section 414(h) of the
30 Internal Revenue Code.

31 (iv) For the purpose of determining the retirement system rights,
32 benefits and privileges of any member whose additional member contrib-
33 utions are picked up pursuant to this paragraph, such picked up addi-
34 tional member contributions shall be deemed to be and treated as part of
35 such member's additional member contributions under the applicable
36 provisions of subdivision e of section six hundred four-j of this arti-
37 cle.

38 (v) With the exception of federal income tax treatment, the additional
39 member contributions picked up pursuant to subparagraph (i) of this
40 paragraph shall for all other purposes, including computation of retire-
41 ment benefits and contributions by employers and employees, be deemed
42 employee salary. Nothing contained in this subdivision shall be
43 construed as superseding the provisions of section four hundred thirty-
44 one of this chapter, or any similar provision of law which limits the
45 salary base of computing retirement benefits payable by a public retire-
46 ment system.

47 § 7. Section 13-125.2 of the administrative code of the city of New
48 York is amended by adding a new subdivision a-9 to read as follows:

49 a-9. Notwithstanding any other provision of law to the contrary, on or
50 after the starting date for pick up, the employer responsible for pick

53 the retirement and social security law) who is a participant in the
54 twenty-five year improved benefit retirement program (as defined in
55 paragraph three of such subdivision a of section four hundred forty-
56 five-j), pick up and pay to the retirement system all additional member

contributions which otherwise would be required to be deducted from such member's compensation pursuant to subdivision d of such section four hundred forty-five-j, and shall effect such pick up on each and every payroll of such participant for each and every payroll period with respect to which such subdivision d would otherwise require such deductions.

§ 8. Subparagraph (ii) of paragraph 1 of subdivision c of section 13-125.2 of the administrative code of the city of New York, as amended by chapter 682 of the laws of 2003, is amended to read as follows:

§ 9. Subdivision d of section 13-125.2 of the administrative code of the city of New York is amended by adding a new paragraph 2-h to read as follows:

(2-h) For the purpose of determining the retirement system rights, benefits and privileges of any member who is a participant in the twenty-five year improved benefit retirement program (as defined in paragraph three of subdivision a of section four hundred forty-five-j of the retirement and social security law), the additional member contributions of such participant picked up pursuant to subdivision a-nine of this section shall be deemed to be and treated as a part of such member's additional member contributions under subdivision d of such section four hundred forty-five-j.

§ 10. Paragraph 3 of subdivision d of section 13-125.2 of the administrative code of the city of New York, as amended by chapter 682 of the laws of 2003, is amended to read as follows:

(3) Interest on contributions picked up for any Tier I or Tier II non-uniformed-force member pursuant to this section (other than additional member contributions picked up pursuant to subdivision a-one, subdivision a-two, subdivision a-three, subdivision a-four, subdivision a-five, subdivision a-six, subdivision a-seven ~~[ex]~~, subdivision a-eight, or subdivision a-nine of this section) shall accrue in favor of the member and be payable to the retirement system at the same rate, for the same time periods, in the same manner and under the same circumstances as interest would be required to accrue in favor of the member and be payable to the retirement system on such contributions if they were made by such member in the absence of a pick up program applicable to such member under the provisions of this section.

§ 11. Subdivision a of section 603 of the retirement and social security law, as amended by chapter 18 of the laws of 2012, is amended to read as follows:

a. The service retirement benefit specified in section six hundred four of this article shall be payable to members who have met the minimum service requirements upon retirement and attainment of age sixty-two, other than members who are eligible for early service retirement pursuant to subdivision c of section six hundred four-b of this article, subdivision c of section six hundred four-c of this article, subdivision d of section six hundred four-d of this article, subdivision c of section six hundred four-e of this article, subdivision c of section six hundred four-f of this article, subdivision c of section six hundred four-g of this article, subdivision c of section six hundred four-h of

20 that the [~~the~~] preceding provisions of this subdivision shall not apply
21 to a New York city revised plan member.

22 § 12. Nothing contained in sections six and eleven of this act shall
23 be construed to create any contractual right with respect to members to
24 whom such sections apply. The provisions of such sections are intended
25 to afford members the advantages of certain benefits contained in the
26 Internal Revenue Code, and the effectiveness and existence of such
27 sections and benefits they confer are completely contingent thereon.

41 and ten of this act shall not affect the expiration of such provisions
42 as provided for in chapter 681 of the laws of 1992, as amended.

FISCAL NOTE. -- Pursuant to Legislative Law, Section 50:

SUMMARY OF BILL: This proposed legislation would amend certain provisions of the Retirement and Social Security Law (RSSL) and the Administrative Code of the City of New York (ACCNY), and add RSSL Sections 445-j and 604-j to establish a 25-Year Retirement Program for Tier 2, 4, and 6 New York City Employees' Retirement System (NYCERS) members who are employed in the title of Water Supply Police (WSP 25-Year Plan).

Effective Date: Upon enactment.

MEMBERS ELIGIBLE TO JOIN: Those NYCERS members who are sworn officers of the water supply police employed by the City of New York (City), appointed to protect the sources, works, and transmission of water supplied to the City, and to protect persons on or in the vicinity of

such water sources, works, and transmission pursuant to subdivision o of section 1.20 of the Criminal Procedure Law.

For purposes of this Fiscal Note, these members are collectively referred to as "Water Supply Police Members."

Participation in the WSP 25-Year Plan is optional for anyone who is eligible to participate in the Plan on the date of enactment by filing an election form within 180 days of enactment. Anyone who is a member of NYCERS (i.e. subject to Article 15) on the date of enactment and subsequently becomes employed as a Water Supply Police Member also has 180 days upon becoming such a member to elect to join the WSP 25-Year Plan.

Any new Water Supply Police Member who becomes a Tier 6 NYCERS member after the date of enactment is mandated into the Plan. However, if the member exceeds age 30 upon being mandated into the WSP 25-Year Plan, the member has the option not to participate in the Plan by filing an application to opt out of the Plan within 180 days of becoming a Water Supply Police Member.

IMPACT ON BENEFITS: Currently, Water Supply Police Members generally participate in one of the NYCERS general plans (i.e. basic Tier 4 62/5 Plan, Tier 6 63/10 Plan or Improved Tier 4 57/5, 55/25 Plans). There are currently no active Tier 2 Water Supply Police Members. Therefore, the following summary only applies to Tier 4 and Tier 6 Water Supply Police Members.

The proposed legislation would provide the following benefits to Water Supply Police Members under the WSP 25-Year Plan:

- * Service retirement benefit: Upon attaining 25 years of any NYCERS Credited Service, including service as a Water Supply Police Member, a benefit equal to 50% of Final Average Salary (FAS) for the first 25 years of Credited Service plus 2% of FAS for each additional year of Credited Service up to a maximum of 30 years of such service.

- * Final Average Salary: Three-Year Average (FAS3) for Tier 4 members and Five-Year Average (FAS5) for Tier 6 members.

- * Vested benefit:

- * Eligibility is:

- * At least five, but less than 25, years of Credited Service for Tier 4 and Tier 6 members.

- * Payable at:

- * The date the member would have completed 25 years of Credited Service for Tier 4, and

- * Age 63 for Tier 6.

- * Amount:

- * 2% of FAS for each year of Credited Service.

- * Other benefits: Members of the proposed WSP 25-Year Plan are entitled to the same disability and death benefits as other Tier 4 and Tier 6 members under the respective basic plans.

ADDITIONAL MEMBER CONTRIBUTIONS: Members of the WSP 25-Year Plan are required to make, in addition to the Basic Member Contributions, to the extent payable, Additional Member Contributions equal to 6% of compensation for all service as a Plan participant on and after the starting date of the Plan until the later of a maximum of 30 years of Credited Service or the one year anniversary of the enactment of the Plan.

FINANCIAL IMPACT - ACTUARIAL PRESENT VALUES: With respect to NYCERS and based on the anticipated group of members joining the WSP 25-Year Plan and the actuarial assumptions and methods described herein, if the proposed legislation were enacted, the Actuarial Present Value (APV) of Benefits (APVB) would increase by approximately \$2.3 million, consisting of an increase in APV of member contributions of approximately \$1.5

million, and an increase in APV of future employer contributions of approximately \$0.8 million.

Under the Entry Age Normal cost method used to determine the employer contributions to NYCERS, there would be an increase in the Unfunded Accrued Liability (UAL) of approximately \$2.2 million offset by a decrease in the APV of future employer Normal Cost of \$1.4 million. The decrease in the APV of future employer Normal Cost is primarily due to the expected future working lifetime of the affected members.

FINANCIAL IMPACT - ANNUAL EMPLOYER CONTRIBUTIONS: In accordance with ACCNY Section 13.638.2(k-2), new UAL attributable to benefit changes are to be amortized as determined by the Actuary but generally over the remaining working lifetime of those impacted by the benefit changes. As of June 30, 2017, if this proposed legislation is enacted, the remaining working lifetime of the Water Supply Police Members assumed to join the WSP 25-Year Plan is approximately 13 years.

For this proposed legislation, the increase in UAL of \$2.2 million was amortized over a 13-year period (12 payments under the One-Year Lag Methodology) using level dollar payments resulting in an increase in annual employer contributions beginning with approximately \$259,000 per year.

CONTRIBUTION TIMING: If enacted during the 2018 Legislative Session before June 30, 2018, the WSP 25-Year Plan would likely first be reflected in the June 30, 2018 census data. In accordance with the One-Year Lag Methodology (OYLM) used to determine employer contributions, the increase in employer contributions would first be reflected in Fiscal Year 2020.

OTHER COSTS: Not measured in this Fiscal Note are the following:

- * The initial, additional administrative costs of NYCERS and other City agencies to implement the proposed legislation.

- * The impact of this proposed legislation on Other Postemployment Benefit (OPEB) costs.

CENSUS DATA: The census data used for the calculations presented herein is as of June 30, 2017. This data, under the OYLM, will be used to determine the Fiscal Year 2019 employer contributions for members who are eligible for and who could potentially benefit from this proposed legislation.

Census data is submitted by NYCERS administrative staff, participating employers' payroll facilities, Office of Payroll Administration (OPA), and Financial Information Services Agency (FISA). This data is then reviewed by the Office of the Actuary (OA) for consistency and reasonability.

Where applicable, June 30, 2017 salaries have been adjusted by the Actuary to reflect contract settlements with retroactive effect and the assumption of pattern bargaining. Estimates of liabilities attributable to the related additional benefits payable have been applied to the results contained herein.

The 53 eligible Water Supply Police Members as of June 30, 2017 assumed to join the WSP 25-Year Plan had an average age of approximately 38.0, average service of approximately 13.8 years, and an average annual salary of approximately \$72,031.

ACTUARIAL ASSUMPTIONS AND METHODS: The additional employer contributions presented herein have been calculated based on the same actuarial assumptions and methods in effect for the June 30, 2016 (Lag) actuarial valuations used to determine the Preliminary Fiscal Year 2018 employer contributions of NYCERS except that the actuarial method includes a change in the application of the Entry Age Normal cost method. Please

note these assumptions and methods are subject to change as this valuation is not considered final until the end of the Fiscal Year 2018.

To determine the impact of the elective nature of the proposed legislation, a subgroup of Water Supply Police Members was developed based on who would potentially benefit actuarially. The net APV of future employer costs (i.e. the APVB less the APV of future member contributions) of each member's benefit was determined under their current plan and under the WSP 25-Year Plan. If the net APV of future employer cost under the WSP 25-Year Plan was greater than or equal to the APV of future employer cost under the member's current plan, the member was deemed to benefit actuarially and is assumed to participate in the WSP 25-Year Plan.

Based on this analysis, it was determined that those members who are hired after the age of 30 and have the option of joining the WSP 25-Year Plan in the future will not benefit actuarially from the Plan. Therefore, it was further assumed that future Plan participation, in addition to those existing members who will benefit from the Plan, will be limited to those hired at the age of 30 or younger who are mandated into the Plan. However, since it is expected that Water Supply Police Members hired at the age of 30 or younger will generally not benefit under the plan (i.e. they have a decrease in APV of future employer costs as compared to the Tier 6 63/10 Plan that they would otherwise participate in absent this proposed legislation), the costs presented in this Fiscal Note are borne only from current NYCERS members who are assumed to benefit from, and thus opt to join, the WSP 25-Year Plan.
