3. The attorney general shall annually provide all county clerks with a complete listing of all recognized courts, tribunals, and judicial and quasi judicial bodies.

- § 3. The executive law is amended by adding a new section 719 to read as follows:
- § 719. Public protection of public officers. 1. Legislative intent. The legislature finds and determines that the state of New York and the United States of America have recently seen a disturbing number of retaliatory actions against public officers in the conduct of their official duties that present a profound threat to our freedom and liberty as a free people. These actions often seek to circumvent the processes of free speech, fair elections, the administration of justice and the proper conduct of the judicial system, to which our constitutions are dedicated, and in an effort to obtain change, engage in intimidation, violence, death, destruction and/or deception.

The legislature further finds and determines that one of the practices frequently employed by persons taking these retaliatory actions, in an effort to undermine state authority and civil integrity, is to issue orders, judgments, decrees, proclamations or other quasi judicial documents from what have been termed as "common law courts" or "citizen courts". These "courts" have no real standing authority, in law or equity, and merely serve as a subterfuge for these persons.

The legislature additionally finds and determines that a further practice employed by persons taking these retaliatory actions, in an effort to undermine state authority and civil integrity, is to file records or instruments, that are traditionally recognized under the civil justice system, including liens and encumbrances of real or personal property, in retaliation for or on account of the performance of the official duties of a public officer. These records or instruments, which are meritless, frivolous, false, fictitious or fraudulent, are merely filed with the purpose to intimidate or injure the public official.

The legislature finally finds and declares that when public officers in performance of their official duties are issued with civil or criminal papers from these "common law courts" or "citizen courts", or have a meritless, frivolous, false, fictitious or fraudulent record or instrument filed against them, a great deal of confusion and injury can result, and the integrity of our real court and judicial system is thereby threatened. These misfounded individuals use the respect and integrity that our court and judicial system has taken centuries to obtain, to intimidate their victims and impose their will. It is a process based in misconduct, fraud, deception, and deceit, and it cannot be allowed to continue.

2. Public officer protection team. There shall be established a public officer protection team. Such team shall consist of the commissioner of the division, the superintendent of state police, the commissioner of criminal justice services, the attorney general, the chief administrative judge of the office of court administration, the president of the New York state association of county clerks, and the president of the New York state sheriff's association. The public officer protection team shall meet no less than biannually to discuss strategies and develop recommendations to protect public officers from intimidation, threats, violence, injury and retaliation in the course of their official duties, and the reduction of the filing of retaliatory records or instruments against public officers and jurisprudential fraud. On or before the thirty-first of December of each year, the public officer protection team shall develop and transmit recommenda-

tions to the governor, the speaker of the assembly, and the temporary president of the senate, on legislative and administrative measures that can be taken to protect public officers from intimidation, threats, violence, injury and retaliation in the course of their official duties, and the reduction of the filing of retaliatory records or instruments against public officers and jurisprudential fraud.
