3520

2017-2018 Regular Sessions

## IN SENATE

January 24, 2017

---

Introduced by Sen. FLANAGAN -- read twice and ordered printed, and when printed to be committed to the Committee on Higher Education

AN ACT to amend the education law, in relation to the educational preparation for practice of professional nursing

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

1 Section 1. The legislature hereby finds and declares that with the  
2 increasing complexity of the American healthcare system and rapidly  
3 expanding technology, the educational preparation of the registered  
4 professional nurse must be expanded. The nurse of the future must be  
5 prepared to partner with multiple disciplines as a collaborator and  
6 manager of the complex patient care journey. Shorter lengths of stays,  
7 higher patient acuity, and more sophisticated technologies and proce-  
8 dures are increasing the complexity of patient care - which in turn  
9 places great demands on nursing competencies. Other countries are  
10 responding to these changes by requiring the baccalaureate degree as an  
11 entry requirement for nursing licensure while other professions are  
12 demanding master and doctoral degrees as their entry point. Several  
13 recent research studies clearly demonstrate the added value of addi-  
14 tional education in relation to improved patient outcomes; one study  
15 demonstrates that each ten percent increase in the number of baccalau-  
16 reate prepared nurses results in a five percent decrease in surgical  
17 patient deaths. Therefore, the legislature finds that expanding the  
18 educational requirements for the profession of nursing, while maintain-  
19 ing the multiple entry points into the profession, is needed. This  
20 legislation affects future nurses graduating from associate degree or  
21 diploma nursing programs who would be required to obtain a baccalaureate  
22 in nursing within ten years of initial licensure. All current nurses  
23 licensed in New York and students in programs preparing for registered  
24 professional nursing are to be exempt from the new requirement. This  
25 legislation is mirrored after the progressive education requirement for

1 teachers in New York state. Numerous regulatory and accrediting bodies  
2 have recommended this change as a means to address sophisticated patient  
3 care needs resulting from shorter lengths of stay, higher acuity and  
4 more sophisticated interventions. This proposal is the result of a grow-  
5 ing body of research evidence that additional education results in  
6 better patient outcomes. Therefore by requiring the baccalaureate degree  
7 for continued registration as a registered professional nurse this  
8 legislation seeks to be responsive to meet the increasingly complex  
9 health care needs of the residents of New York state.

10 § 2. Subdivision 2 of section 6905 of the education law, as amended by  
11 chapter 994 of the laws of 1971 and such section as renumbered by chap-  
12 ter 50 of the laws of 1972, is amended to read as follows:

13 (2) Education: have received an education, and a diploma or degree in  
14 professional nursing, in accordance with the commissioner's regulations,  
15 and in order to continue to maintain registration as a registered  
16 professional nurse in New York state, have attained a baccalaureate  
17 degree in nursing within ten years of initial licensure in accordance  
18 with the commissioner's regulations. The department, in its discretion,  
19 may issue a conditional registration to a licensee who fails to complete  
20 the baccalaureate degree but who agrees to meet the additional require-  
21 ment within one year. The fee for such a conditional registration shall  
22 be the same as, and in addition to, the fee for the triennial registra-  
23 tion. The duration of such conditional registration shall be for one  
24 year and may be extended, with the payment of a fee, for no more than  
25 one additional year. Any licensee who is notified of the denial of a  
26 registration for failure to complete the additional educational require-  
27 ments and who practices as a registered professional nurse without such  
28 registration may be subject to disciplinary proceedings pursuant to  
29 section sixty-five hundred ten of this title;

30 § 3. The provisions of this act shall not apply to:

31 a. any student entering a generic baccalaureate program preparing  
32 registered professional nurses after the effective date of this act;

33 b. any student currently enrolled in, or having an application pending  
34 in, a program preparing registered nurses as of the effective date of  
35 this act;

36 c. any person already licensed as a registered professional nurse or  
37 any unlicensed graduate professional nurse who is eligible to take the  
38 National Council Licensure Examination as of the effective date of this  
39 act.

40 § 4. This act shall take effect immediately and the commissioner of  
41 education is authorized to promulgate any rule or regulation necessary  
42 to implement the provisions of this act.
