

STATE OF NEW YORK

5803

2017-2018 Regular Sessions

IN SENATE

May 1, 2017

Introduced by Sens. LANZA, AVELLA -- read twice and ordered printed, and when printed to be committed to the Committee on Children and Families

AN ACT to amend the executive law, in relation to creating the multi-disciplinary team demonstration program

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

1 Section 1. Legislative findings. The utilization of multi-disciplinary
2 teams (MDTs) can be extremely valuable in the implementation of certain
3 programs, particularly those which are likely to have a widespread
4 impact and affect several professions, as is the case with most systems
5 of mandatory reporting. MDTs make use of the experience, expertise, and
6 perspectives which may be unique to individuals involved in one of the
7 affected professions. Before a program is implemented which may have a
8 broad impact, MDTs can be a valuable resource in developing an effective
9 strategy that minimizes unintended negative consequences. In many
10 instances, it is appropriate for a government entity to establish an MDT
11 with which the entity may collaborate with and seek input from regarding
12 the specifics of a planned project.

13 Beyond the general usefulness of MDTs, where a proposed program which
14 will affect the members of many professions is to be created by statute,
15 it is often recommended to also include language providing for the
16 establishment of MDT to provide input on any specifics not contained in
17 the statute. This inclusion ensures that the involved professions have a
18 chance to be heard before a program is implemented in a way which might
19 adversely affect the members of such professions or the individuals
20 served by the professions.

21 § 2. The executive law is amended by adding a new section 501-i to
22 read as follows:

23 § 501-i. Multi-disciplinary team demonstration program. The office of
24 children and family services is hereby authorized, in conjunction with
25 the office for the aging, to establish a multi-disciplinary team demon-

1 stration program, subject to appropriation of funds for the program, to
2 establish multi-disciplinary teams at the county level for complex cases
3 of adult abuse, neglect, or financial exploitation. Such multi-discipli-
4 nary teams will be comprised of professionals across disciplines that
5 provide professional knowledge and expertise of their respective profes-
6 sional disciplines, as well as a full-time, skilled and experienced
7 multi-disciplinary team coordinator for each demonstration location. The
8 multi-disciplinary team coordinator will provide case consultation,
9 triage cases, facilitate county-level multi-disciplinary team meetings,
10 monitor progress, and facilitate coordination and cooperative action in
11 the provision of appropriate services to an individual identified as
12 being a victim of abuse, neglect, or financial exploitation, as well as
13 other duties associated with the role. Such multi-disciplinary teams
14 shall consist of representation by professionals generally authorized to
15 make decisions on behalf of their agency from selected public, private,
16 and voluntary agencies including but not limited to health/medical,
17 mental health, aging, protective services, human services, social work,
18 banking/financial institutions, legal services, and law enforcement
19 agencies, and include specialty services such as forensic accounting,
20 geriatrics, and psychiatry/geropsychiatry, on a fee-for-service basis. A
21 secure database use by the multi-disciplinary team coordinator for
22 intake, tracking, and outcomes of such cases will be established and
23 used as part of the demonstration program.

24 § 3. This act shall take effect immediately.
