

STATE OF NEW YORK

7520

IN SENATE

January 19, 2018

Introduced by Sen. HANNON -- read twice and ordered printed, and when printed to be committed to the Committee on Health

AN ACT to amend the public health law, in relation to including certain chronic and often misunderstood illnesses, primarily affecting women for which there are no diagnostic tests or cures within the health care and wellness education and outreach program

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

1 Section 1. Subdivision 1 of section 207 of the public health law is
2 amended by adding a new paragraph (o) to read as follows:

3 (o) Chronic and often misunderstood illnesses which primarily affect
4 women for which there are no diagnostic tests or cures, including but
5 not limited to:

6 (1) myalgic encephalomyelitis/chronic fatigue syndrome (ME/CFS), a
7 multi-system disease associated with neurological, immunological and
8 energy metabolism impairment characterized by long-standing and debili-
9 tating fatigue with a delayed exacerbation of symptoms and loss of
10 stamina following even minimal mental or physical function; symptoms may
11 also include cognitive dysfunction, sleep abnormalities, autonomic
12 manifestations and pain; and

13 (2) fibromyalgia (FM), a complex chronic pain disorder characterized
14 by widespread musculoskeletal pain accompanied by fatigue, cognitive
15 difficulties and sleep problems; symptoms may also include tension head-
16 aches, temporomandibular joint (TMJ) disorders, irritable bowel
17 syndrome, anxiety and depression.

18 Given there are no diagnostic tests or biomarkers, and no approved
19 treatments for myalgic encephalomyelitis/chronic fatigue syndrome and
20 few for fibromyalgia, diagnosis and management of these diseases can be
21 more difficult and, as a result, education and awareness of health care
22 providers and the public is imperative. Provided that the program for
23 such illnesses shall include an advisory council under this section that
24 shall include representatives of people with encephalomyelitis/chronic
25 fatigue syndrome and fibromyalgia, and their families and health care
26 providers who specialize in treating such illnesses and other chronic
27 and often misunderstood illnesses which primarily affect women for which
28 there are no diagnostic tests or cures, among others.

29 § 2. This act shall take effect immediately.

EXPLANATION--Matter in italics (underscored) is new; matter in brackets
[-] is old law to be omitted.
