FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

This bill would amend chapter 93 of the Laws of 2005 and chapter 445 of the Laws of 2006, which provided members of public retirement systems who contract any form of disease or disability related to exposure to any elements in connection with the World Trade Center (WTC) attack of September 11, 2001 to be presumptive evidence that such disability, or death as a result of such disability was the result of an accident and was sustained in the performance of duty. The provisions of this act will not be subject to Section 25 of the Retirement and Social Security Law.

Insofar as this bill would affect the New York State and Local Employees' Retirement and the New York State and Local Police and Fire Retirement System, this bill would extend the deadline for filing notice regarding the eligibility for benefits for certain members who participated in the World Trade Center rescue, recovery or cleanup operation to September 11, 2022.

If this bill is enacted, it would reclassify certain current and future retirement benefits. The cost of the revised benefit will depend upon the applicant's age, service, salary, plan, and benefit type otherwise payable.

Benefit	None	Ordinary	In Performance Service	
without		Disability	of Duty	
enactment:			Disability	
Cost for WTC	9 times	5 times	2.5 times	2 times
benefit:	salary	salary	salary	salary

This bill would also lead to more deaths being classified as "accidental". For each death classified as accidental due to this bill, the cost would depend on the age, service, salary, plan, and status at time of death. It is estimated that the cost for each ERS and PFRS individual affected would average approximately 3.5 times final average salary and 8 times final average salary, respectively.

These cost would be shared by the State of New York and the participating employers in the ERS and PFRS.
