Introduced by Sen. HANNON -- read twice and ordered printed, and when printed to be committed to the Committee on Health

AN ACT directing the department of health to conduct an assessment of alternatives to eliminate or reduce perfluorooctanoic acid in the municipal water supply in Petersburg, New York

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

1 Section 1. The department of health, in conjunction with the depart-  
2 ment of environmental conservation, shall perform, or require a third  
3 party to perform, a study and assessment of alternatives to eliminate or  
4 reduce perfluorooctanoic acid (PFOA) in the municipal water supply in  
5 the town of Petersburg, New York. The study will evaluate at least the  
6 following alternatives:

7 (a) Creation of an alternate water supply for the town of Petersburg,  
8 including, but not limited to, a new well field, a surface water supply  
9 source, and interconnection with an existing municipal water supply  
10 system, or any combination of those alternatives;

11 (b) Remediating and/or treating the sources of PFOA to the groundwater  
12 and the municipal water supply;

13 (c) Upgrading the existing municipal water supply beyond the full  
14 capacity system;

15 (d) Continuation of the existing interim remedial measures, including  
16 a full capacity granular activated carbon (GAC) water treatment system  
17 to address PFOA in the municipal water supply for the permitted maximum  
18 daily flow, point of entry treatment (POET) systems; and

19 (e) Any other alternatives deemed appropriate for study and assessment  
20 as determined by the department of health.

21 2. The commissioner of health shall ensure that officials from the  
22 town of Petersburg are provided with up-to-date information throughout  
23 the study and assessment process.

24 3. The results of such study and assessment shall be made publicly  
25 available no later than September 1, 2018.

26 § 2. This act shall take effect immediately.
