8651

## IN SENATE

May 10, 2018

- Introduced by Sen. ALCANTARA -- read twice and ordered printed, and when printed to be committed to the Committee on Insurance
- AN ACT to amend the insurance law and the public health law, in relation to access to appropriate drugs at reasonable prices, formulary exceptions, standing prior authorizations and external appeals; to amend the insurance law, in relation to access to retail pharmacies, prescription synchronization, limits on patient drug costs, explanations of benefits and rebates; to amend the social services law, in relation to prescription drug synchronization; to amend the public health law, in relation to pharmacy benefit management; and to amend the education law, in relation to limits on copayments and drug substitutions

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

1 Section 1. The insurance law is amended by adding a new section 4806 2 to read as follows: 3 § 4806. Access to appropriate drugs at reasonable prices; formulary 4 exceptions; standing prior authorization requirement. (a) An insurer 5 offering a prescription drug benefit with a formulary of approved or preferred drugs shall establish a procedure by which it determines 6 whether a formulary drug provides appropriate therapeutic benefits to 7 8 meet the particular health care needs of an insured. If the insurer determines that no formulary drug provides appropriate therapeutic bene-9 10 fits to meet the particular health care needs of an insured, the insurer 11 shall cover the cost of an off-formulary drug for that insured, at no additional cost to the insured beyond what the insured would otherwise 12 pay for a preferred brand name drug on the formulary. The determinations 13 14 whether a drug provides appropriate therapeutic benefits and whether a 15 non-formulary drug is necessary to meet the particular health care needs 16 of the insured are utilization review decisions and are reviewable in accordance with article forty-nine of this chapter, including external 17 18 appeal. 19 (b) (1) For purposes of this section, "prior authorization requirement" means any practice implemented by an insurer in which coverage of 20

EXPLANATION--Matter in <u>italics</u> (underscored) is new; matter in brackets [-] is old law to be omitted.

LBD15227-01-8

1	<u>a prescription drug or device is dependent upon a covered person or a</u>
2	health care practitioner obtaining approval from the insurer prior to
3	the service, device, or drug being performed, received, or prescribed,
4	as applicable. "Prior authorization" includes prospective or utilization
5	review procedures conducted prior to providing a drug or device.
6	(2) An insurer which requires prior authorizations for particular
	prescription drugs shall have a procedure by which an insured who is
7	
8	being prescribed such drug for a chronic condition may obtain a standing
9	prior authorization for a drug for the lesser of the following from the
10	date of the approval: (i) twelve months; or (ii) the last day of the
11	covered person's eligibility under the policy or plan.
12	(3) As a condition of such standing prior authorization, if according
13	to the available medical and scientific evidence the patient's chronic
14	condition is likely to change during the standing referral period, the
15	insurer or health plan may require the prescribing health care practi-
16	tioner to certify to the insurer, not more frequently than on a quarter-
17	ly basis, that the patient's chronic condition has not changed mate-
18	rially with respect to the need for the prescription.
19	(4) A twelve-month standing prior authorization provided under para-
20	graph two of this subsection does not apply to and is not required for
21	any of the following:
22	(i) medications that have a typical course of administration of less
23	than one year or for which available medical or scientific evidence does
24	not support a twelve-month period of use, in which case the standing
25	prior authorization period shall be the typical course of administration
26	or the period of use supported by the available medical or scientific
27	evidence;
28	(ii) medications that require an initial trial period to determine
29	effectiveness and tolerability, except that after such trial period a
30	one-year, or greater, prior authorization period will be given; and
31	(iii) medications that are schedule II controlled substance or a sche-
32	dule III controlled substance containing hydrocodone.
33	(5) For drugs used to treat acute conditions, insurers shall grant
34	standing prior authorizations for the period that the medical and scien-
35	tific evidence shows to be the anticipated period for the course of
36	treatment to have its intended effect.
37	(6) The standing prior authorizations provided for in this section are
38	no longer valid and automatically terminate if there are changes to
39	federal or state laws or federal regulatory guidance or compliance
40	information finding that the drug in question is no longer approved or
41	safe for the prescribed purpose.
42	(7) If an AB-rated generic drug that is therapeutically equivalent to
43	the drug subject to a standing prior authorization becomes available,
44	the insurer may substitute such newly released drug for the drug subject
45	to the standing prior authorization, provided advance notice is given to
46	the insured.
47 10	(8) The determination whether the drug is being prescribed to treat a
48	chronic condition and the period over which the course of treatment for
49	an acute condition is anticipated to have its intended effect are utili-
50 E 1	zation review decisions and are reviewable in accordance with article
51	forty-nine of this chapter, including external appeal.
52	(c) (1) If a formulary drug being prescribed for an insured is removed
53	by the insurer from its formulary for reasons other than a determination
54	that the approval for the use of that drug has been withdrawn by the
55	U.S. Food and Drug Administration, the insurer shall continue to cover
56	that drug for that insured for a transitional period to the end of the

1	plan year at the same copayment as charged when the drug was on formu-
2	lary. Thereafter, the insured may seek continued coverage of the drug,
3	if appropriate, pursuant to the provisions of subsection (a) of this
4	section.
5	(2) If a formulary drug being prescribed for an insured is moved by
б	the insurer to a higher cost sharing tier in its formulary for reasons
7	other than release of an AB-rated generic drug, the insurer shall
8	continue to cover that drug for that insured for a transitional period
9	to the end of the plan year at the same copayment as charged when the
10	drug was on formulary. Thereafter, the insured may seek continued cover-
11	age of the drug, if appropriate, pursuant to the provisions of
12	subsection (a) of this section.
13	(3) If an insurer that provides prescription drug coverage enrolls a
14	new insured who is currently being prescribed a drug for a chronic
15	health condition, or as part of an ongoing course of treatment for an
16	acute condition, and that drug is not on the insurer's formulary, the
17	insurer shall cover that drug for that insured at no additional cost to
18	the insured beyond what the insured would otherwise pay for a preferred
19	brand name drug on the formulary, for a transitional period of ninety
	(90) days from the effective date of enrollment. The insured must adhere
20	
21	to the insurer's quality assurance requirements and provide to the
22	insurer necessary medical information related to the prescription and
23	otherwise adhere to the insurer's policies and procedures including, but
24	not limited to procedures regarding obtaining pre-authorization and a
25	treatment plan approved by the insurer. In no event shall this
26	subsection be construed to require an insurer to provide coverage for
27	benefits not otherwise covered. The transitional period does not
28	preclude the insured from seeking continued coverage of the drug, if
29	appropriate, pursuant to the provisions of subsection (a) of this
30	section.
31	§ 2. The public health law is amended by adding a new section 4406-h
32	to read as follows:
33	§ 4406-h. Access to appropriate drugs at reasonable prices; formulary
34	exceptions; standing prior authorization requirement. 1. A health main-
35	tenance organization offering a prescription drug benefit with a formu-
36	lary of approved or preferred drugs shall have a procedure by which it
37	determines whether a formulary drug provides appropriate therapeutic
38	benefits to meet the particular health care needs of an enrollee. If the
39	health maintenance organization determines that no formulary drug
40	provides appropriate therapeutic benefits to meet the particular health
41	care needs of an enrollee, the health maintenance organization shall
42	cover the cost of an off-formulary drug for that enrollee, at no addi-
43	
44	tional cost to the enrollee beyond what the enrollee would otherwise pay
	for a preferred brand name drug on the formulary. The determinations
45	
45 46	for a preferred brand name drug on the formulary. The determinations
	for a preferred brand name drug on the formulary. The determinations whether a drug provides appropriate therapeutic benefits and whether a
46	for a preferred brand name drug on the formulary. The determinations whether a drug provides appropriate therapeutic benefits and whether a non-formulary drug is necessary to meet the particular health care needs
46 47	for a preferred brand name drug on the formulary. The determinations whether a drug provides appropriate therapeutic benefits and whether a non-formulary drug is necessary to meet the particular health care needs of the insured are utilization review decisions and are reviewable in
46 47 48	for a preferred brand name drug on the formulary. The determinations whether a drug provides appropriate therapeutic benefits and whether a non-formulary drug is necessary to meet the particular health care needs of the insured are utilization review decisions and are reviewable in accordance with article forty-nine of this chapter, including external
46 47 48 49	for a preferred brand name drug on the formulary. The determinations whether a drug provides appropriate therapeutic benefits and whether a non-formulary drug is necessary to meet the particular health care needs of the insured are utilization review decisions and are reviewable in accordance with article forty-nine of this chapter, including external appeal.
46 47 48 49 50 51	for a preferred brand name drug on the formulary. The determinations whether a drug provides appropriate therapeutic benefits and whether a non-formulary drug is necessary to meet the particular health care needs of the insured are utilization review decisions and are reviewable in accordance with article forty-nine of this chapter, including external appeal. 2. (a) For purposes of this section, "prior authorization requirement" means any practice implemented by a health maintenance organization in
46 47 48 49 50 51 52	for a preferred brand name drug on the formulary. The determinations whether a drug provides appropriate therapeutic benefits and whether a non-formulary drug is necessary to meet the particular health care needs of the insured are utilization review decisions and are reviewable in accordance with article forty-nine of this chapter, including external appeal. 2. (a) For purposes of this section, "prior authorization requirement" means any practice implemented by a health maintenance organization in which coverage of a prescription drug or device is dependent upon a
46 47 48 49 50 51	for a preferred brand name drug on the formulary. The determinations whether a drug provides appropriate therapeutic benefits and whether a non-formulary drug is necessary to meet the particular health care needs of the insured are utilization review decisions and are reviewable in accordance with article forty-nine of this chapter, including external appeal. 2. (a) For purposes of this section, "prior authorization requirement" means any practice implemented by a health maintenance organization in

8

zation" includes prospective or utilization review procedures conducted prior to providing a drug or device. (b) A health maintenance organization which requires prior authorizations for particular prescription drugs shall have a procedure by which an enrollee who is being prescribed such drug for a chronic condition may obtain a standing prior authorization for a drug for the lesser of the following from the date of the approval: (i) twelve months; (ii) the last day of the enrollee's eligibility under the policy or plan.

9 (c) As a condition of such standing prior authorization, if according 10 to the available medical and scientific evidence the enrollee's chronic 11 condition is likely to change during the standing referral period, the insurer or health plan may require the prescribing health care practi-12 13 tioner to certify to the health maintenance organization, not more 14 frequently than on a quarterly basis, that the enrollee's chronic condition has not changed materially with respect to the need for the 15 16 prescription.

17 (d) A twelve-month standing prior authorization provided under subpar-18 agraph (i) of paragraph (b) of this subdivision does not apply to and is 19 not required for any of the following:

(i) medications that have a typical course of administration of less than one year or for which available medical or scientific evidence does not support a twelve-month period of use, in which case the standing prior authorization period shall be the typical course of administration or the period of use supported by the available medical or scientific evidence;

(ii) medications that require an initial trial period to determine
effectiveness and tolerability, except that after such trial period a
one-year, or greater, prior authorization period will be given; and

29 (iii) medications that are schedule II controlled substance or a sche-30 dule III controlled substance containing hydrocodone.

31 (e) For drugs used to treat acute conditions, insurers shall grant 32 standing prior authorizations for the period that the medical and scien-33 tific evidence shows to be the anticipated period for the course of 34 treatment to have its intended effect.

(f) The standing prior authorizations provided for in this section are no longer valid and automatically terminate if there are changes to federal or state laws or federal regulatory guidance or compliance information finding that the drug in question is no longer approved or safe for the prescribed purpose.

40 (g) If an AB-rated generic drug that is therapeutically equivalent to 41 the drug subject to a standing prior authorization becomes available, 42 the health maintenance organization may substitute such newly released

43 <u>drug for the drug subject to the standing prior authorization</u>, provided 44 <u>advance notice is given to the enrollee</u>.

(h) The determination whether the drug is being prescribed to treat a chronic condition and the period over which the course of treatment for an acute condition is anticipated to have its intended effect are utilitation review decisions and are reviewable in accordance with article forty-nine of this chapter, including external appeal.

3. (a) If a formulary drug being prescribed for an enrollee is removed by the health maintenance organization from its formulary for reasons other than a determination that the approval for the use of that drug has been withdrawn by the U.S. Food and Drug Administration, the health maintenance organization shall continue to cover that drug for that enrollee for a transitional period to the end of the plan year at the same copayment as charged when the drug was on formulary. Thereafter,

1	the enrollee may seek continued coverage of the drug, if appropriate,
2	pursuant to the provisions of subdivision one of this section.
3	(b) If a formulary drug being prescribed for an insured is moved by
4	the health maintenance organization to a higher cost sharing tier in its
5	formulary for reasons other than release of an AB-rated generic drug,
6	the health maintenance organization shall continue to cover that drug
7	for that enrollee for a transitional period to the end of the plan year
8	at the same copayment as charged when the drug was on formulary. There-
9	after, the enrollee may seek continued coverage of the drug, if appro-
10	priate, pursuant to the provisions of subdivision one of this section.
11	(c) If a health maintenance organization that provides prescription
12	drug coverage enrolls a new enrollee who is currently being prescribed a
13	drug for a chronic health condition, or as part of an ongoing course of
14	treatment for an acute condition, and that drug is not on the health
15	maintenance organization's formulary, the health maintenance organiza-
16	tion shall cover that drug for that enrollee at no additional cost to
17	the enrollee beyond what the enrollee would otherwise pay for a
18	preferred brand name drug on the formulary, for a transitional period of
19	ninety (90) days from the effective date of enrollment. The enrollee
20	must adhere to the health maintenance organization's quality assurance
21	requirements and provide to the health maintenance organization neces-
22	sary medical information related to the prescription and otherwise
23	adhere to the health maintenance organization's policies and procedures
24	including, but not limited to procedures regarding obtaining pre-author-
25	ization and a treatment plan approved by the health maintenance organ-
26	ization. In no event shall this subdivision be construed to require a
27	health maintenance organization to provide coverage for benefits not
28	otherwise covered. The transitional period does not preclude the enrol-
29	lee from seeking continued coverage of the drug, if appropriate, pursu-
30	ant to the provisions of subdivision one of this section.
31	§ 3. Section 4903 of the insurance law is amended by adding a new
32	subsection (i) to read as follows:
33	(i) (1) Each health plan shall make available to all participating
34	health care providers on its web site or provider portal a listing of
35	its prior authorization requirements, including specific information or
36	documentation that a provider must submit in order for the prior author-
37	ization request to be considered complete.
38	(2) Each health plan shall make available on its web site information
39	about the policies, contracts, or agreements offered by it that clearly
40	identifies specific services, drugs, or devices to which a prior author-
41	<u>ization requirement exists.</u>
42	(3) Each health plan shall give thirty (30) days advance written
43	notice to participating providers of any changes in prior authorization
44	requirements. Each health plan shall also give thirty (30) days advance
45	written notice to plan participants of any changes in prior authori-
46	zation requirements with respect to any services, drugs or devices which
47	such participant is currently being prescribed or has been prescribed in
48	the preceding year.
49	§ 4. Section 4903 of the public health law is amended by adding a new
50	subdivision 9 to read as follows:
51	9. (a) Each health plan shall make available to all participating
52	health care providers on its web site or provider portal a listing of
53	its prior authorization requirements, including specific information or
54	documentation that a provider must submit in order for the prior author-

55 ization request to be considered complete.

1	(b) Each health plan shall make available on its web site information
2	about the policies, contracts, or agreements offered by it that clearly
3	identifies specific services, drugs, or devices to which a prior author-
4	ization requirement exists.
5	(c) Each health plan shall give thirty (30) days advance written
б	notice to participating providers of any changes in prior authorization
7	requirements. Each health plan shall also give thirty (30) days advance
8	written notice to plan participants of any changes in prior authori-
9	zation requirements with respect to any services, drugs or devices which
10	such participant is currently being prescribed or has been prescribed in
11	the preceding year.
12	§ 5. Subsection (b) of section 4910 of the insurance law is amended by
13	adding a new paragraph 5 to read as follows:
14	(5) (A) The insured has had a drug prescription denied on the ground
15	that it is not on the health care plan's formulary, and that the health
16	care plan has a covered drug on the formulary which is effective to meet
17	the particular health care needs of an insured; and
18	(B) The insured's attending physician, who shall be a licensed physi-
19	cian or other health care provider qualified to prescribe drugs to treat
20	the insured for the health service sought, certifies that available
21	formulary drugs are not sufficiently effective to meet the insured's
22	health needs, or are otherwise contraindicated for the insured, and
23	recommends an off-formulary drug that will be effective to treat the
24	insured.
25	§ 6. Subdivision 2 of section 4910 of the public health law is amended
26	by adding a new paragraph (e) to read as follows:
27	(e) (i) The enrollee has had a drug prescription denied on the ground
28	that it is not on the health maintenance organization's formulary, and
29	that the health maintenance organization has a covered drug on the
30	formulary which is effective to meet the particular health care needs of
31	an enrollee; and
32	(ii) The enrollee's attending physician, who shall be a licensed
33	physician or other health care provider qualified to prescribe drugs to
	physician of other health care provider qualified to prescribe drugs to
34	treat the insured for the health service sought, certifies that avail-
34 35	treat the insured for the health service sought, certifies that avail- able formulary drugs are not sufficiently effective to meet the
34 35 36	treat the insured for the health service sought, certifies that avail- able formulary drugs are not sufficiently effective to meet the enrollee's health needs, or are otherwise contraindicated for the enrol-
34 35 36 37	treat the insured for the health service sought, certifies that avail- able formulary drugs are not sufficiently effective to meet the enrollee's health needs, or are otherwise contraindicated for the enrol- lee, and recommends an off-formulary drug that will be effective to
34 35 36 37 38	treat the insured for the health service sought, certifies that avail- able formulary drugs are not sufficiently effective to meet the enrollee's health needs, or are otherwise contraindicated for the enrol- lee, and recommends an off-formulary drug that will be effective to treat the enrollee.
34 35 36 37 38 39	treat the insured for the health service sought, certifies that avail- able formulary drugs are not sufficiently effective to meet the enrollee's health needs, or are otherwise contraindicated for the enrol- lee, and recommends an off-formulary drug that will be effective to treat the enrollee. § 7. Paragraph 4 of subsection (b) of section 4914 of the insurance law is amended by adding a new subparagraph (E) to read as as follows: (E) For external appeals requested pursuant to paragraph five of subsection (b) of section four thousand nine hundred ten of this title relating to an off-formulary drug denial, the external appeal agent shall review the utilization review agent's final adverse determination and, in accordance with the provisions of this title, shall make a determination as to whether the non-formulary drug shall be covered by the health plan; provided that such determination shall: (i) be conducted only by one or a greater odd number of clinical peer reviewers: (ii) be accompanied by a written statement: (a) that the off-formulary drug prescription shall be covered by the health care plan either when the reviewer or a majority of the panel of reviewers determines, upon review of the available medical and scientif-</pre>

the treating physician or otherwise be appropriate to meet the partic-1 2 ular health care needs of the insured, which is more likely to provide a 3 beneficial clinical outcome; or 4 (b) upholding the health plan's denial of coverage. 5 § 8. Subdivision 2 of section 4914 of the public health law is amended б by adding a new paragraph (e) to read as follows: 7 (e) For external appeals requested pursuant to paragraph (e) of subdi-8 vision two of section forty-nine hundred ten of this title relating to 9 an off-formulary drug denial, the external appeal agent shall review the 10 utilization review agent's final adverse determination and, in accordance with the provisions of this title, shall make a determination as to 11 whether the non-formulary drug shall be covered by the health mainte-12 13 nance organization; provided that such determination shall: 14 (i) be conducted only by one or a greater odd number of clinical peer reviewers; 15 16 (ii) be accompanied by a written statement: 17 (1) that the off-formulary drug prescription shall be covered by the 18 health maintenance organization either when the reviewer or a majority 19 of the panel of reviewers determines, upon review of the available 20 medical and scientific evidence, the formulary drug deemed sufficient by 21 the health maintenance organization will not be as effective in addressing the enrollee's health problem for which a drug has been prescribed 22 as the off-formulary drug prescribed by the treating physician or other-23 wise be appropriate to meet the particular health care needs of the 24 25 enrollee, which is more likely to provide a beneficial clinical outcome; 26 or 27 (2) upholding the health maintenance organization's denial of cover-28 age. 29 § 9. The opening paragraph of paragraph 28 of subsection (i) of 30 section 3216 of the insurance law, as added by chapter 589 of the laws 31 of 2011, is designated subparagraph (A) and a new subparagraph (B) is 32 added to read as follows: 33 (B) Notwithstanding any other provision of this paragraph, if a pres-34 criber, after consulting with the insurer regarding the appropriateness 35 of mail order delivery given: (i) the residence or delivery location of the insured; (ii) the medical condition of the insured; (iii) the stor-36 age requirements of the drug; (iv) the availability of the insured to 37 receive the prescription; or (v) the insured's ability to comprehend 38 pharmaceutical guidance and support over the telephone, determines that 39 40 a drug as prescribed on an individual basis is most appropriately filled 41 at a retail location, provided that an in-network retail pharmacy of the 42 patient's choosing agrees to the same reimbursement amount and is able 43 to fill the prescription, the prescriber's determination shall be final. 44 § 10. The opening paragraph of paragraph 18 of subsection (1) of 45 section 3221 of the insurance law is designated subparagraph (A) and a 46 new subparagraph (B) is added to read as follows: 47 (B) Notwithstanding any other provision of this paragraph, if a pres-48 criber, after consulting with the insurer regarding the appropriateness 49 of mail order delivery given: (i) the residence or delivery location of the insured; (ii) the medical condition of the insured; (iii) the stor-50 51 age requirements of the drug; (iv) the availability of the insured to receive the prescription; or (v) the insured's ability to comprehend 52

- 53 pharmaceutical guidance and support over the telephone, determines that 54 <u>a drug as prescribed on an individual basis is most appropriately filled</u>
  - 55 at a retail location, provided that an in-network retail pharmacy of the

1	patient's choosing agrees to the same reimbursement amount and is able
	to fill the prescription, the prescriber's determination shall be final.
2	
3	§ 11. The opening paragraph of subsection (kk) of section 4303 of the
4	insurance law is designated paragraph 1 and a new paragraph 2 is added
5	to read as follows:
6	(2) Notwithstanding any other provision of this subsection, if a pres-
7	criber, after consulting with the insurer regarding the appropriateness
8	of mail order delivery given: (A) the residence or delivery location of
9	the covered person; (B) the medical condition of the covered person; (C)
10	the storage requirements of the drug; (D) the availability of the
11	covered person to receive the prescription; or (E) the covered person's
12	ability to comprehend pharmaceutical guidance and support over the tele-
13	phone, determines that a drug as prescribed on an individual basis is
14	most appropriately filled at a retail location, provided that an in-net-
15	work retail pharmacy of the patient's choosing agrees to the same
16	reimbursement amount and is able to fill the prescription, the
17	prescriber's determination shall be final.
18	§ 12. The insurance law is amended by adding a new section 3224-d to
19	read as follows:
20	<u>§ 3224-d. Prescription synchronization. (a) Every individual or group</u>
21	health insurance policy providing prescription drug coverage when appli-
22	cable to permit synchronization shall permit and apply a daily prorated
23	cost-sharing rate to prescriptions that are dispensed by a network phar-
24	macy for less than a thirty day supply, when it is agreed among the
25	covered individual, a health care practitioner, and a pharmacist that
26	synchronization of multiple prescriptions for the treatment of a chronic
27	illness is in the best interest of the covered individual for the
28	management or treatment of that chronic illness provided that all of the
29	following apply:
30	(1) the medications are covered by the policy or plan;
31	(2) the medications are used for treatment and management of chronic
32	conditions that are subject to refills;
33	(3) the medications are not a schedule II controlled substance or a
34	schedule III controlled substance containing hydrocodone;
35	(4) the medications meet all prior authorization criteria specific to
36	medications at the time of the synchronization request;
37	(5) the medications are of a formulation that can be effectively split
38	over required short fill periods to achieve synchronization; and
39	(6) the medications do not have quantity limits or dose optimization
40	criteria or requirements that would be violated in fulfilling synchroni-
41	zation.
42	(b) No individual or group health insurance policy providing
42 43	prescription drug coverage shall deny coverage for the dispensing of a
	medication for partial fill when it is for purposes of synchronizing the
44	
45	patient's medications. When applicable to permit synchronization, every
46	individual or group health insurance policy must allow a pharmacy to
47	override any denial codes indicating that a prescription is being
48	refilled too soon for the purposes of medication synchronization.
49	(c) Dispensing fees for partially filled or refilled prescriptions
50	shall be paid in full for each prescription dispensed, regardless of any
51	pro-rated copay for the beneficiary or fee paid for alignment services.
52	(d) Nothing in this section shall be deemed to require health care
53	practitioners and pharmacists to synchronize the refilling of multiple
54	prescriptions for a covered individual.

1	(e) The requirements of this section shall apply only once for each
2	prescription drug subject to medication synchronization except when
3	either of the following occurs:
4	(1) the prescriber changes the dosage or frequency of administration
5	of the prescription drug subject to a medication synchronization; or
б	(2) the prescriber prescribes a different drug.
7	§ 13. The insurance law is amended by adding a new section 4303-a to
8	read as follows:
9	<u>§ 4303-a. Prescription synchronization. (a) Every hospital service</u>
10	corporation and health service corporation providing prescription drug
11	coverage when applicable to permit synchronization shall permit and
12	apply a daily prorated cost-sharing rate to prescriptions that are
13	dispensed by a network pharmacy for less than a thirty day supply, when
14	it is agreed among the covered individual, a health care practitioner,
15	and a pharmacist that synchronization of multiple prescriptions for the
16	treatment of a chronic illness is in the best interest of the covered
17	individual for the management or treatment of that chronic illness
18	provided that all of the following apply:
19	(1) the medications are covered by the policy or plan;
20	(2) the medications are used for treatment and management of chronic
21	conditions that are subject to refills;
22	(3) the medications are not a schedule II controlled substance or a
23	schedule III controlled substance containing hydrocodone;
24	(4) the medications meet all prior authorization criteria specific to
25	medications at the time of the synchronization request;
26	(5) the medications are of a formulation that can be effectively split
27	over required short fill periods to achieve synchronization; and
28	(6) the medications do not have quantity limits or dose optimization
29	criteria or requirements that would be violated in fulfilling synchroni-
30	zation.
31	(b) No hospital service corporation or health service corporation
32	providing prescription drug coverage shall deny coverage for the
33	dispensing of a medication for partial fill when it is for purposes of
34	synchronizing the patient's medications. When applicable to permit
35	synchronization, every hospital service corporation or health service
36	corporation providing prescription drug coverage must allow a pharmacy
37	to override any denial codes indicating that a prescription is being
38	refilled too soon for the purposes of medication synchronization.
39	(c) Dispensing fees for partially filled or refilled prescriptions
40	shall be paid in full for each prescription dispensed, regardless of any
41	pro-rated copay for the beneficiary or fee paid for alignment services.
42	(d) Nothing in this section shall be deemed to require health care
43	practitioners and pharmacists to synchronize the refilling of multiple
44	prescriptions for a covered individual.
45	(e) The requirements of this section shall apply only once for each
46	prescription drug subject to medication synchronization except when
47	either of the following occurs:
48	(1) The prescriber changes the dosage or frequency of administration
49	of the prescription drug subject to a medication synchronization; or
50	(2) The prescriber prescribes a different drug.
51	§ 14. Subdivision 9 of section 367-a of the social services law is
52	amended by adding a new paragraph (i) to read as follows:
53	<u>(i) (i) The department of health shall establish a program for</u>
54	synchronization of medications when it is agreed among the recipient, a
55	provider and a pharmacist that synchronization of multiple prescriptions
56	for the treatment of a chronic illness is in the best interest of the

1	patient for the management or treatment of a chronic illness provided
2	that the medications:
3	(A) are covered by the department of health pursuant to this title;
4	(B) are used for treatment and management of chronic conditions that
5	are subject to refills;
б	(C) are not a schedule II controlled substance or a schedule III
7	controlled substance containing hydrocodone;
8	(D) meet all prior authorization criteria specific to the medications
9	at the time of the synchronization request;
10	(E) are of a formulation that can be effectively split over required
11	short fill periods to achieve synchronization; and
12	(F) do not have quantity limits or dose optimization criteria or
13	requirements that would be violated in fulfilling synchronization.
14	(ii) The department of health shall not deny coverage for the dispens-
15	ing of a medication by a network pharmacy for a partial supply when it
16	is for the purpose of synchronizing the patient's medications. When
17	applicable to permit synchronization, the department of health shall
18	allow a pharmacy to override any denial codes indicating that a
19	prescription is being refilled too soon for the purposes of medication
20	synchronization.
21	(iii) To permit synchronization, the department of health shall apply
22	a prorated daily cost-sharing rate to any medication dispensed by a
23	network pharmacy pursuant to this section.
24	(iv) The dispensing fee paid to a network pharmacy contracted to
25	provide services pursuant to this section for a partial supply associ-
26	ated with a medication synchronization shall be paid in full and shall
27	not be prorated.
28	(v) The requirements of this paragraph applies only once for each
29	prescription drug subject to medication synchronization except when
30	either of the following occurs:
31	(A) the prescriber changes the dosage or frequency of administration
32	of the prescription drug subject to a medication synchronization; or
33	(B) the prescriber prescribes a different drug.
34	(vi) Nothing in this paragraph shall be deemed to require health care
35	practitioners and pharmacists to synchronize the refilling of multiple
36	prescriptions for a recipient.
37	§ 15. Subdivision 4 of section 364-j of the social services law is
38	amended by adding a new paragraph (w) to read as follows:
39	(w) (i) The department of health or a managed care organization
40	contracted to provide services pursuant to this section shall establish
41	a program for synchronization of medications when it is agreed among the
42	recipient, a provider and a pharmacist that synchronization of multiple
43	prescriptions for the treatment of a chronic illness is in the best
44	interest of the patient for the management or treatment of a chronic
45	illness provided that the medications:
46	(A) are covered by Medicaid services or a managed care organization
47	contracted to provide services pursuant to this chapter;
48	(B) are used for treatment and management of chronic conditions that
49	are subject to refills;
50	(C) are not a schedule II controlled substance or a schedule III
51	controlled substance containing hydrocodone;
52	(D) meet all prior authorization criteria specific to the medications
53	at the time of the synchronization request;
54	(E) are of a formulation that can be effectively split over required
55	<u>short fill periods to achieve synchronization; and</u>

1	(F) do not have quantity limits or dose optimization criteria or
2	requirements that would be violated in fulfilling synchronization.
3	(ii) The department of health or a managed care organization
4	contracted to provide services under this section shall not deny cover-
5	age for the dispensing of a medication by a network pharmacy for a
б	partial supply when it is for the purpose of synchronizing the patient's
7	medications. When applicable to permit synchronization, the department
8	of health or a managed care organization contracted to provide services
9	under this title shall allow a pharmacy to override any denial code
10	indicating that a prescription is being refilled too soon for the
11	purposes of medication synchronization.
12	(iii) To permit synchronization, the department of health or a managed
13	care organization contracted to provide services pursuant to this title
14	shall apply a prorated daily cost-sharing rate to any medication
15	dispensed by a network pharmacy pursuant to this section.
16	(iv) The dispensing fee paid to a network pharmacy contracted to
17	provide services pursuant to this section for a partial supply associ-
18	ated with a medication synchronization shall be paid in full and shall
19	not be prorated.
20	(v) The requirements of this paragraph applies only once for each
21	prescription drug subject to medication synchronization except when
22	either of the following occurs:
23	(A) the prescriber changes the dosage or frequency of administration
24	of the prescription drug subject to a medication synchronization; or
25	(B) the prescriber prescribes a different drug.
26	(vi) Nothing in this paragraph shall be deemed to require health care
27	practitioners and pharmacists to synchronize the refilling of multiple
28	prescriptions for a covered individual.
29	§ 16. Section 280-a of the public health law is amended by adding two
30	new subdivisions 3 and 4 to read as follows:
31	3. No pharmacy benefit manager shall, with respect to contracts
32	between such pharmacy benefit manager and a pharmacy or, alternatively,
33	such pharmacy benefit manager and a pharmacy's contracting agent, such
34	as a pharmacy services administrative organization:
35	(a) prohibit or penalize a pharmacist or pharmacy from disclosing to
36	an individual purchasing a prescription medication information regard-
37	ing:
38	(i) the cost of the prescription medication to the individual; or
39	(ii) the availability of any therapeutically equivalent alternative
40	medications or alternative methods of purchasing the prescription medi-
41	cation, including but not limited to, paying a cash price; or
42	(b) charge or collect from an individual a copayment that exceeds the
43	total submitted charges by the pharmacy for which the pharmacy paid. If
44	an individual pays a copayment, the pharmacy shall retain the adjudi-
45	cated costs and the pharmacy benefit manager shall not redact or recoup
46	the adjudicated cost.
47	4. Any provision of a contract that violates the provisions of this
48	section shall be deemed to be void and unenforceable.
49	§ 17. Subsection (h) of section 4325 of the insurance law, as added by
50	chapter 487 of the laws of 2010, is amended to read as follows:
51	(h) (i) No corporation or insurer organized or licensed under this
52	chapter which provides coverage for prescription drugs shall require, or
53	
	enter into a contract which permits, a copayment which exceeds the usual
54	enter into a contract which permits, a copayment which exceeds the usual and customary cost of such prescribed drug or which exceeds the total
54 55	enter into a contract which permits, a copayment which exceeds the usual and customary cost of such prescribed drug <u>or which exceeds the total</u> <u>price paid to the pharmacy for such prescribed drug after the insured</u>

1	(ii) In determining any coinsurance amount required to be paid for a
2	prescription drug, no insurer or corporation organized under this chap-
3	ter shall base its computation on a price higher than the actual price
4	paid by the pharmacy for the drug, taking into account any rebates
5	specific to the drug. The department of financial services shall issue
б	regulations setting forth the method each insurer or corporation organ-
7	ized under this chapter must use to determine the actual price paid by
8	the pharmacy.
9	(iii) Each insurer or corporation licensed under this article which
10	offers prescription drug coverage must itself or through its pharmacy
11	benefit manager issue a written explanation of benefit form to its
12	enrollees with respect to each prescription filled, containing all cate-
13	gories of information required of explanation of benefits forms for
14	medical benefits.
15	§ 18. Subdivision 6 of section 6810 of the education law is amended by
16	adding a new paragraph (b-1) to read as follows:
17	(b-1) The prescriber or pharmacist shall inform the patient whether he
18	or she has prescribed or substituted a different generic drug product
19	from the generic drug product the patient has previously received.
20	Notification required pursuant to this paragraph shall be provided both
21	written and orally, contemporaneously with the filling of the
22	prescription.
23	§ 19. Section 6826-a of the education law is amended by adding a new
24	subdivision 3 to read as follows:
25	3. The copayment amount shall not exceed the total price paid to the
26	pharmacy for the prescribed drug, except in cases where the insured has
27	not met the annual deductible requirement. The copayment charged to a
28	consumer for a prescription drug shall not exceed the amount which would
29	be charged if the drug were purchased without insurance coverage.
30	§ 20. Paragraph 1 of subsection (e) of section 3231 of the insurance
31	law is amended by adding a new subparagraph (C) to read as follows:
32	(C) an insurer shall annually certify to the department that, during
33	the prior benefit year, the insurer made available to enrollees at the
34	point of sale at least a majority (i.e., greater than fifty percent) of
35	the rebates.
36	(i) For purposes of this subparagraph, "rebate" means:
37	(1) negotiated price concessions including but not limited to base
38	rebates and reasonable estimates of any price protection rebates and
39	performance-based rebates that may accrue directly or indirectly to the
40	issuer during the coverage year from a manufacturer, dispensing pharma-
41	cy, or other party to the transaction; and
42	(2) reasonable estimates of any fees and other administrative costs
43	that are passed through to the issuer and serve to reduce the issuer's
44	prescription drug liabilities for the coverage year.
45	(ii) In providing the certification required under this section, an
46	issuer shall not publish or otherwise reveal information regarding the
47	actual amount of rebates the issuer received on a product-, manufactur-
48	er-, or pharmacy-specific basis. Such information is protected as a
49	trade secret, is not a public record as defined in the public officers
50	law and shall not be disclosed directly or indirectly. An insurer shall
51	impose the confidentiality protections of this section on any third
52	parties or vendors with which it contracts that may receive or have
53	access to rebate information.
54	§ 21. Subsection (b) of section 3221 of the insurance law is amended
55	to read as follows:

12

8

1 (b) <u>(1)</u> No such policy shall be delivered or issued for delivery in 2 this state unless a schedule of the premium rates pertaining to such 3 form shall have been filed with the superintendent.

4 (2) An insurer shall annually certify to the department that, during 5 the prior benefit year, the insurer made available to enrollees at the 6 point of sale at least a majority (i.e., greater than fifty percent) of 7 the rebates.

(A) For purposes of this paragraph, "rebate" means:

9 <u>(i) Negotiated price concessions including but not limited to base</u> 10 <u>rebates and reasonable estimates of any price protection rebates and</u> 11 <u>performance-based rebates that may accrue directly or indirectly to the</u> 12 <u>issuer during the coverage year from a manufacturer, dispensing pharma-</u> 13 <u>cy, or other party to the transaction; and</u>

(ii) Reasonable estimates of any fees and other administrative costs
that are passed through to the issuer and serve to reduce the issuer's
prescription drug liabilities for the coverage year.

17 (B) In providing the certification required under this section, an issuer shall not publish or otherwise reveal information regarding the 18 19 actual amount of rebates the issuer received on a product-, manufactur-20 er-, or pharmacy-specific basis. Such information is protected as a 21 trade secret, is not a public record as defined in the public officers 22 law and shall not be disclosed directly or indirectly. An insurer shall impose the confidentiality protections of this section on any third 23 24 parties or vendors with which it contracts that may receive or have 25 access to rebate information.

§ 22. Severability. If any item, clause, sentence, subparagraph, subdivision or other part of this act, or the application thereof to any person or circumstances shall be held to be invalid, such holding shall not affect, impair or invalidate the remainder of this act but it shall be confined in its operation to the item, clause, sentence, subparagraph, subdivision or other part of this act directly involved in such holding, or to the person and circumstances therein involved.

33 § 23. This act shall take effect immediately and shall apply to insurance policies issued, amended, or renewed on or after January 1, 2019; 34 provided, however, that the amendments to subdivision 9 of section 367-a 35 36 of the social services law made by section fourteen of this act shall 37 not affect the expiration of such subdivision pursuant to section 4 of 38 chapter 19 of the laws of 1998, as amended, and shall expire therewith; and provided, further, that the amendments to section 364-j of the 39 social services law made by section fifteen of this act shall not affect 40 41 the repeal of such section and shall be deemed repealed therewith. 42 Effective immediately the addition, amendment or repeal of any rule or 43 regulation necessary for the implementation of this act on its effective 44 date are authorized to be made on or before such date.
