3 regulations provide otherwise.

  - (b) demonstrates that the order is consistent with nationally recognized evidence-based guidelines; and
  - (c) ensures that the periodic and regular review of the order is conducted by the hospital's medical staff and nursing and pharmacy leadership to determine the continuing usefulness and safety of the order.
  - 7. A standing order is a medical regimen; it shall be consistent with the lawful scope of practice of a registered nurse.
  - 8. The commissioner may make regulations governing the terms, procedures and implementation of standing orders.
- 46 § 2. Section 6909 of the education law is amended by adding a new 47 subdivision 9 to read as follows:
