FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

SUMMARY OF BILL: This proposed legislation would amend Sections 13-191 and 13-192 of the Administrative Code of the City of New York (ACCNY), both enacted by Chapter 844 of the Laws of 1987, to extend the eligibility provisions providing for the payment of Transit Police Officers' and Transit Police Superior Officers' Variable Supplements Funds (VSF) benefits to certain retirees.

Specifically, this proposed legislation would provide for payments to former New York City Employees' Retirement System (NYCERS) members who are retired for service from the New York City Transit Police (TP) between October 1, 1968 and June 30, 1987 (Prior Retirees) with 20 or more years of service. These benefits would be paid from the following VSFs (referred to hereafter as the Impacted VSFs):

- * Transit Police Officers' Variable Supplements Fund (TPOVSF), and
- * Transit Police Superior Officers' Variable Supplements Fund (TPSOVSF).

Effective Date: Upon enactment.

IMPACT ON BENEFITS - VSF PAYMENTS: Each of the Impacted VSFs currently provides supplemental non-pension benefits to former NYCERS members who retired for service on or after July 1, 1987 as TP with 20 or more years of service.

The amount of VSF benefits paid is currently \$12,000 per Calendar Year.

These VSF benefits are payable on an annual basis around December 15th to eligible former NYCERS members for their lifetimes. There are no optional forms of payment. Upon the death of the NYCERS retiree, VSF payments cease.

If the proposed legislation were to be enacted, all Prior Retirees would become immediately eligible for VSF benefits on the December 15th subsequent to the Effective Date and for each year thereafter.

For the purposes of this Fiscal Note, the Actuary has assumed that benefits payable under this proposed legislation are prospective only (i.e. there would be no retroactive payments for VSF benefits due before the Effective Date for such Prior Retirees).

FINANCIAL IMPACT - PRESENT VALUES: Based on the census data and the actuarial assumptions and methods noted herein, the enactment of the proposed legislation would increase the Present Value of Future Benefits (PVFB) of the Impacted VSFs by approximately \$30.2 million as of June 30, 2019.

There are no active TP members of NYCERS and therefore there is no mechanism in place for funding the TP VSFs since the VSFs' funding allo-

cation method normally would be based on the ratio of active TP member salaries to salaries of all active members in NYCERS. As a consequence, a transfer from NYCERS to the Impacted VSFs would be necessary to fund the additional VSF benefit obligations.

FINANCIAL IMPACT - EMPLOYER CONTRIBUTIONS: In accordance with Section 13-638.2(k2) of the Administrative Code of the City of New York (ACCNY), new Unfunded Accrued Liability (UAL) attributable to benefit changes are to be amortized as determined by the Actuary, but are generally amortized over the remaining working lifetime of those impacted by the benefit changes.

For the purposes of this Fiscal Note, since those that would benefit are retired, and therefore have no remaining working lifetime, the entire increase in UAL (or PVFB) of \$30.2 million would be recognized immediately.

CONTRIBUTION TIMING: For the purposes of this Fiscal Note, it is assumed that the first VSF benefit payment would be made in December, 2020 and therefore, changes in the PVFB, and UAL would be reflected for the first time in the June 30, 2019 actuarial valuation of NYCERS. In accordance with the One-Year Lag Methodology (OYLM) used to determine employer contributions, the increase in employer contributions would be reflected in Fiscal Year 2021.

CENSUS DATA: The estimates presented herein are based on the census data used in the Preliminary June 30, 2019 (Lag) actuarial valuation of NYCERS to determine the Preliminary Fiscal Year 2021 employer contributions.

The 414 Prior Retirees as of June 30, 2019 had an average age of approximately 78.9 years.

ACTUARIAL ASSUMPTIONS AND METHODS: The changes in the PVFB and UAL presented herein have been calculated based on the actuarial assumptions and methods in effect for the June 30, 2019 (Lag) actuarial valuations used to determine the Preliminary Fiscal Year 2021 employer contributions of NYCERS.

RISK AND UNCERTAINTY: The costs presented in this Fiscal Note depend highly on the realization of the actuarial assumptions used, as well as certain demographic characteristics of NYCERS and other exogenous factors such as investment, contribution, and other risks. If actual experience deviates from actuarial assumptions, the actual costs could differ from those presented herein. Costs are also dependent on the actuarial methods used, and therefore different actuarial methods could produce different results. Quantifying these risks is beyond the scope of this Fiscal Note.

Not measured in this Fiscal Note are the initial, additional administrative costs of NYCERS and other New York City agencies to implement the proposed legislation.
