2019-2020 Regular Sessions

## IN ASSEMBLY

January 22, 2019

Introduced by M. of A. WOERNER -- Multi-Sponsored by -- M. of A. JONES -- read once and referred to the Committee on Energy

AN ACT to amend the public service law, in relation to setting the rate of credit per kilowatt hour for farm waste generating equipment customer-generators, which includes the anaerobic digestion of agricultural waste

## The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. Legislative Intent. It is the intent of this Legislature 1 2 to support the ongoing financial viability of farm waste generating equipment customer-generators--more commonly known as anaerobic digesters--in New York state. Anaerobic digesters located on New York dairy farms create critical environmental attributes including, but not limited to, reducing methane gas releases and abating nutrient contamination 7 of nearby water sources. The Legislature also recognizes that legacy anaerobic digesters are not financially viable under the current compensation methodology; as such, legacy anaerobic digesters are at risk of 10 closure. Any closures would undo the significant financial investment 11 made by the state of New York to install anaerobic digesters under the 12 Clean Energy Fund program. Closures would also put New York behind on 13 meeting greenhouse gas emission reduction goals as set forth under the State Energy Plan, and behind on developing a clean, distributed grid. 15 While the New York state Public Service Commission has initiated a proceeding to transition to a compensation methodology based on the 16 value of distributed energy resources, the implementation of the new 17 18 methodology will not address the immediate financial need of existing, or legacy, anaerobic digesters, or new digesters installed prior to the 20 finalization of a meaningful value stack methodology that includes envi-21 ronmental values attributed to the avoided use of electricity generated 22 by fossil fuels and the reduction of on-site greenhouse gas emissions.

EXPLANATION--Matter in <u>italics</u> (underscored) is new; matter in brackets
[-] is old law to be omitted.

The Legislature hereby determines that the public interest requires an increase in the rate of compensation for customer-generators operating legacy anaerobic digesters, and new digesters installed prior to the finalization of a meaningful value stack methodology, which will apply to credit calculations for the customer-generators' bills following implementation of this legislation.

- § 2. Paragraph (b) of subdivision 4 of section 66-j of the public service law, as amended by chapter 494 of the laws of 2014, is amended to read as follows:
- 10 (b) In the event that the amount of electricity produced by a custom-11 er-generator during the billing period exceeds the amount of electricity used by the customer-generator, the corporation shall apply a credit to 12 13 the next bill for service to the customer-generator for the net elec-14 tricity provided at the same rate per kilowatt hour applicable to 15 service provided to other customers in the same service class which do 16 not generate electricity onsite, except for micro-combined heat and 17 power or fuel cell customer-generators [or farm waste generating equipment customer-generators as described in subparagraph (ix) of paragraph 18 (a) of subdivision one of this section], who will be credited at the 19 20 corporation's avoided costs; provided, however, that in the case of farm 21 waste generating equipment customer-generators, the corporation shall apply a credit to the next bill at a rate of no less than twelve cents 22 per kilowatt hour. The avoided cost credit provided to micro-combined 23 24 heat and power or fuel cell customer-generators [or farm waste generat-25 ing equipment customer-generators as described in subparagraph (ix) of paragraph (a) of subdivision one of this section | shall be treated for 27 ratemaking purposes as a purchase of electricity in the market that is 28 includable in commodity costs.
- 29 § 3. This act shall take effect immediately.
