A local government entity shall be eligible for only one payment of funds hereunder per year. A local government entity may seek assistance under the electric generation facility cessation and tax certiorari mitigation fund (i) once a generator has submitted its notice to the federally designated electric bulk system operator (BSO) serving the state of New York of its intent to retire the facility or of its intent to voluntarily remove the facility from service subject to any return-to-service provisions of any tariff, and that the facility also is ineligible to participate in the markets operated by the BSO; or (ii) once a final judgment or settlement agreement in a tax certiorari proceeding has been filed or executed. The date of submission of a local government entity's application for assistance shall establish the order in which assistance is paid to program applicants, except that in no event shall assistance be paid to a local government entity until such time that an electric generating facility has either (i) retired or become ineligible to participate in the markets operated by the BSO, or (ii) a final judgment or settlement agreement in a tax certiorari proceeding has been filed or executed. For purposes of this section, any local government entity seeking assistance under the electric generation facility cessation and tax certiorari mitigation fund must submit an attestation to the department of public service that either (i) a facility is no longer producing electricity and is no longer participating in markets operated by the BSO, or (ii) a final judgment or settlement agreement in a tax certiorari proceeding has been filed or executed.
