section, adjustment to the mandatory continuing education requirement may be granted by the department for reasons of health certified by an appropriate health care professional, for extended active duty with the armed forces of the United States, or for other good cause acceptable to the department which may prevent compliance.

- (c) A licensed registered professional nurse not engaged in practice as determined by the department, shall be exempt from the mandatory continuing education requirement upon the filing of a statement with the department declaring such status. - 2. During each triennial registration period an applicant for registration shall complete a minimum of forty-five hours of acceptable formal continuing education, as specified in subdivision four of this section. Any registered professional nurse whose first registration date following the effective date of this section occurs less than three years from such effective date, shall complete continuing education hours on a prorated basis at the rate of one and one quarter hour per month for the period beginning January first, two thousand twenty-one up to the first registration date thereafter. A licensee who has not satis-fied the mandatory continuing education requirements shall not be issued a triennial registration certificate by the department and shall not practice unless and until a conditional registration certificate is issued as provided for in subdivision three of this section.
 - 3. The department, in its discretion, may issue a conditional registration to a licensee who fails to meet the continuing education requirements established in subdivision two of this section but who agrees to make up any deficiencies and complete any additional education which the department may require. The fee for such a conditional registration shall be the same as, and in addition to, the fee for the triennial registration. The duration of such conditional registration shall be determined by the department but shall not exceed one year. Any licensee who is notified of the denial of registration for failure to submit evidence, satisfactory to the department, of required continuing education and who practices registered professional nursing without such registration, may be subject to disciplinary proceedings pursuant to section sixty-five hundred ten of this title.
